## SUBJECT INDEX

- ABETALIPOPROTEINEMIA**  
altered form of beta-lipoprotein protein in, 551
- ABNORMALITIES**  
diagnosis in newborn using amnion as source of fetal cells, 120
- ABSCESS**  
kinetic studies of iron in mice with, 457  
staphylococcal, lysostaphin-methicillin therapy of, 46
- ACETAMINOPHEN**  
glucuronic acid excretion in normals and liver disease after administration of, 50
- ACETAZOLAMIDE**  
effect on renal handling of Ca, Mg, and Na, 391
- ACETYLCHOLINE**  
cardio-pulmonary effects in man, 56  
effect on renal Na and water handling, 92
- ACID-BASE EQUILIBRIUM**  
in brain and CSF during reduced cerebral perfusion, 375
- ACIDOSIS**  
effect on proximal tubular Na reabsorption, 65  
effect on urinary Ca in hyperparathyroidism, 378  
extreme airway narrowing in, 55  
in refractory cardiac arrhythmias, 516  
lactic acidosis, effect on left ventricular function, 32  
prolonged, effect on renal H<sup>+</sup> secretion, 392  
renal response to, role of cyclic-AMP, 553  
respiratory, CSF response to, 58
- ACNE**  
Corynebacterium acnes distribution and localization in, 257  
lipolysis by Corynebacterium acnes in, 146
- ACROMEGALY**  
effect of proton beam on pituitary function in, 266  
intestinal absorption of calcium in, 525
- ACTH** SEE CORTICOTROPIN
- ACTIVATION ANALYSIS**  
in determination of total body calcium, 159
- ADENINE NUCLEOTIDES**  
influence on myocardial contractility, 70  
levels in platelets and release during aggregation, 542  
subcellular localization in blood platelets, 534
- ADENOSINE MONOPHOSPHATE**  
cyclic, influence on somatotropin release, 272  
cyclic, levels in myocardium and effect of hormones, 237  
cyclic, mediation of MSH action on frog skin, 32  
cyclic, role in regulation of
- adrenal growth and steroidogenesis, 273  
cyclic, role in renal response to metabolic acidosis, 553
- ADENOSINE TRIPHOSPHATASE**  
induction of ouabain-sensitive ATPase defect in healthy RBC's by uremic plasma, 90  
Na-K-ATPase activity, relation to aldosterone, 149  
of actomyosin, effect of acetylation of G-actin on, 242
- ADENOSINE TRIPHOSPHATE**  
incorporation of P<sup>32</sup> in fat cells, 112, 339  
levels in hemorrhagic and in endotoxin shock, 555
- ADENOVIRUS**  
large volume air sampling for, 46
- ADENYL CYCLASE**  
activation in chick oviduct by steroid hormones, 523  
activation in renal tubules by parathyroid hormone, 272  
activity in thyroid in vitro, stimulation by thyrotropin, 278  
relation to Na metabolism in renal cortex, 397
- ADIPOSE TISSUE**  
alkaline lipolytic activity in, 296  
behavior of fat cells in vitro, 160  
control of glycolysis in, 551  
p,p'-DDE and p,p'-DDT residues in, 139  
effect of nutritional state and triiodothyronine on metabolism of, 338  
fat cell membrane as binding site for insulin, 49  
incorporation of P<sup>32</sup> into ATP in, 112, 339  
insulin responsiveness of enlarged adipose organs, 264  
lipolysis and glycogenolysis in human fat cells, 553  
lipolysis in rat adipocytes, effect of ethanol on, 443  
lipolytic effect of diazoxide in isolated fat cells, 347  
lipoprotein lipase and hormone-sensitive lipase activities, 553  
norepinephrine-induced lipolysis, effect of prostaglandins, 30  
oxidation of 2-ketoglutarate, stimulation by ACTH, 469  
release of newly synthesized lipids in isolated adipose cells, 549  
triiodothyronine effect on qO<sub>2</sub> of rat adipocytes, 264, 440
- ADJUVANTS, IMMUNOLOGIC**  
step-up effect of, inhibition by cyclophosphamide and methotrexate, 545
- ADRENAL CORTEX**  
activity in smokers and non-smokers, 526
- efficiency of 11 $\beta$ -hydroxylation in, 524  
morphological effects of aminoglutethimide on, 441  
protein synthesis, effects of ACTH, 267
- ADRENAL CORTEX HORMONES**  
alternate-day therapy of lupus nephritis, 377  
alternate pathways of urinary excretion of, 261, 520  
effect on action of thyrocalcitonin, 276  
effect on glucagon and insulin release from isolated islets, 354  
effect on metabolic response to somatotropin, dose dependency of, 467  
effect on ocular fluid dynamics, 274  
excretion, effect of smoking on, 270  
glucocorticoid deficiency, effect on plasma vasopressin level, 266  
inhibition of vasopressin-induced ACTH release from pituitary, 34  
therapy of pneumococcal meningitis, 335
- ADRENAL GLAND HYPERFUNCTION**  
causing hypertension, 146  
urinary calcium excretion in, 563
- ADRENAL GLAND HYPOFUNCTION**  
ACTH infusion test for, 443  
impaired water diuresis in, 474  
primary, mineralocorticoid secretion in, 115  
ventricular performance in, 516
- ADRENAL GLAND NEOPLASMS**  
adenoma causing hypertension, 277  
causing hypokalemia, 383  
feminizing carcinoma in a man, 273
- ADRENAL GLANDS**  
adrenal venography in patients with virilism, 445  
cholesterol esterification in, 270  
growth and steroidogenesis, role of cyclic-AMP in, 273  
metabolism of cell cultures, effect of ACTH, 270  
sterol biosynthesis after ACTH treatment, 441
- ADRENALECTOMY**  
effect on forelimb resistance responses to vasoactive agents, 433  
effect on glucagon and insulin release from isolated pancreatic islets, 131
- AEROSOLS**  
lung scintiscanning with radio-aerosols, 134
- AFLATOXIN**  
anticoagulant and anticompensatory activity of, 314

- AGE**  
influence on blood sugar and insulin during glucose tolerance tests, 342  
influence on insulin stimulation of amino acid transport in muscles, 342
- AGED**  
biological eliteness of old age, 67  
digoxin metabolism in, 229  
mental and functional status in relation to blood gas abnormalities, 562  
metabolism of  $H^3$ -digoxin in, 27
- AGING**  
causing impaired glucose tolerance, 158  
effect on digital opacity pulse, 239  
effect on intestinal absorption of D-xylose, 117  
free radical theory of, 137
- AIR MICROBIOLOGY**  
large volume air sampling for meningococci and adenoviruses, 46
- ALBUMINS**  
epidermal prealbumin, 254
- ALCOHOL, ETHYL**  
cardiovascular effects in disulfiram-treated animals, 436  
causing reduction in plasma free fatty acids, 340  
effect on blood sugar in obesity and diabetes, 76  
effect on cat papillary muscle, 249  
effect on cholic acid metabolism, 531  
effect on epinephrine-stimulated lipolysis in rat adipocytes, 443  
effect on hepatic lipoprotein production, 279  
infusion studies in obese diabetics, 466  
nebulized, effect on lung surfactant, 133
- ALCOHOLISM**  
hypoglycemia in, relation to ACTH deficiency, 444  
hypomagnesemia in, 475  
possible alkaloid formation in, 554  
skin surface lipid production in, 257  
spur cell abnormality in, 303
- ALDOSTERONE**  
biosynthesis by adrenal mitochondria, effect of potassium, 262  
biosynthesis in adrenals, inhibition by steroids, 338  
mechanism of action of, 149  
non-renal action on skeletal muscle, 377  
normal secretion in patients with long-term steroid suppression, 527  
plasma levels in normals and in aldosteronism, 75  
renin-angiotensin-aldosterone system, effect of chronic chlorothiazide therapy on, 440  
response to acute stimulation in hypopituitarism, 526  
response to salt deprivation in patients with lead poisoning, 52  
secretion, effect of oral contraceptives in women, 150  
secretion in patients with inappropriate vasopressin levels, 66  
secretion, regulation by ACTH, 150  
secretory rate after acute volume depletion in essential hypertension, 445  
syndrome of subnormal secretion of, 272
- ALDOSTERONISM SEE HYPERALDOSTERONISM**
- ALKALINE PHOSPHATASE**  
elevated serum level, 532  
from normal and leukemic leukocytes, 299  
in serum, origin of, 530  
increased serum activity in osteomalacia or Paget's disease, 130  
intestinal activity in familial hypophosphatasia, 341  
placental, molecular properties of, 556  
placental, relation to gene frequency, 120
- ALKALOIDS**  
formation by condensation of biogenic amines with acetaldehyde, 350  
possible formation in alcoholics, 554
- ALKALOSIS**  
causes of, in acute myocardial infarct, 370  
in refractory cardiac arrhythmias, 516  
induction by hypertonic infusions, 166
- ALLOPURINOL**  
effect on ammonia excretion in gout, 53  
effect on iron mobilization, 529  
effect on purine biosynthesis, 52
- ALLOXAN DIABETES SEE DIABETES MELLITUS**
- ALPHA GLOBULIN**  
binding of thyroxine, 522  
lymphocyte inhibiting fractions from human plasma, 546
- ALTITUDE**  
effect on glucose tolerance and insulin secretion, 269  
high altitude pulmonary edema, 142
- AMIDOHYDROLASES**  
aspartic naphthylamidase, serum activity in rats, 567
- AMINO ACIDS**  
absorption from small intestine, 446  
alanine absorption from Thiry-Vella loops, Na requirement for, 284  
arginine, effect on plasma insulin and somatotropin levels in pregnancy, 526  
composition of melanosomes from mouse melanomas, 255  
cross-inhibition of basic amino acid transport by neutral amino acids, 449  
daily rhythm of urinary excretion of, 444  
diurnal serum rhythms in endocrine diseases, 355  
high amino acid, low protein diet for patients on chronic hemodialysis, 139  
hyperaminoacidemia, role of glucagon in, 87  
incorporation into lipoproteins by intestinal epithelium, 286  
increased cystine content in leukocytes from cystinosis patients, 52  
initiation of insulin release in vitro, 341  
intestinal absorption from peptides and in free form, 446  
leucine incorporation into protein by intestinal epithelial cells, 39  
serum free levels in postoperative and postburn patients, 88  
transport in hamster intestine, energy source for, 38  
transport in muscles, insulin stimulation and influence of age, 342  
transport in stored renal tissue, 389  
transport mechanism development in guinea pigs, 281
- AMINOACIDURIA**  
absence in Cushing's syndrome, 345  
in hereditary hemorrhagic telangiectasia, 282
- AMINOGLUTETHIMIDE**  
morphological effects on adrenal cortex, 441
- P-AMINOHIPPURIC ACID**  
altered transport by kidney caused by acute saline loading, 568  
inhibition of renal tubular secretion of iodohippurate, 390  
renal extraction from RBCs of rats, 399
- AMINOLEVULINIC ACID**  
serum levels in hepatic cirrhosis, 529  
synthesis in humans, 455
- AMINOLEVULINIC ACID SYNTHETASE**  
hepatic, induction by steroids, 351  
in bone marrow, effect of erythropoietin on, 300
- AMMONIA**  
absorption from colon, 528  
effect of hyperglycemia on metabolism of, 281  
excretion in gout, effect of allopurinol, 53  
in blood, defensive effect of

- AMMONIA (Cont'd)**  
peripheral glutamine release, 345
- AMMONIUM COMPOUNDS**  
ammonium sulfate in extraction and purification of thyrotropin, 36  
excretion during glutamine infusion in normals and in renal disease, 168
- AMNION**  
as source of cells for diagnosis of abnormalities in newborn, 120
- AMNIOTIC FLUID**  
osmolality of, relation to perinatal outcome, 60
- AMPHOTERICIN B**  
interaction with vasopressin and Ca in toad bladder, 569  
local therapy of maduromycosis, 48  
pre- and postoperative therapy of cavitary pulmonary histoplasmosis, 371
- AMPICILLIN**  
effect of carbenicillin on *E. coli* resistant to, 548
- AMYL NITRITE**  
in diagnosis of ruptured chordae tendineae, 227
- AMYLASE**  
intestinal, characterization of, 527  
macroamylasemia, 286  
serum levels during changes in carbohydrate and lipid metabolism, 286
- AMYLOIDOSIS**  
abnormal peripheral vascular dynamics in, 254  
colonic, histochemical and electron microscopic studies of, 38  
decreased ribosome function in, 325
- ANAL SPHINCTER**  
contraction of, 294  
malfunction, faradic stimulation of, 533
- ANDROGENS**  
effects on sebaceous glands, 258  
in vitro effect on hemoglobin synthesis, 540
- ANEMIA**  
caused by vitamin E deficiency in premature infants, 155  
chronic, circulatory adjustments in, 144  
improved O<sub>2</sub> release by transfused erythrocytes in, 155  
in chronic disorders, role of reticulocyte in, 316  
mechanism in Zieve's syndrome, 79  
microangiopathic hemolytic, fibrinogen catabolism in, 298  
normovolemic, myocardial metabolism in, 144  
tissue O<sub>2</sub> supply in, 242  
uremic, maintenance by dialysis without transfusion, 64
- ANEMIA, APLASTIC**  
multiple transfusions of platelets in, 316  
prolactin therapy of, 41
- ANEMIA, HEMOLYTIC**  
with impaired hexokinase activity, 306
- ANEMIA, HEMOLYTIC, CONGENITAL NONSPHEROCYTIC**  
hexokinase variant associated with, 540
- ANEMIA, FERNICIOUS**  
gastric autoimmunity in, 303  
glucocorticoid therapy in, 453  
hematologic response to folic acid, 454  
lymphocyte transformation in, 325  
with immunoglobulin deficiency, 457
- ANEMIA, SICKLE CELL**  
effect of diphosphoglycerate on O<sub>2</sub> affinity of blood in, 301  
significance of irreversibly sickled cells in, 299
- ANESTHESIA, GENERAL**  
delay in arterial pressure wave during, 145
- ANESTHESIA, INHALATION**  
effect on distribution of infused K<sup>+</sup>, 369
- ANESTHESIA, OBSTETRICAL**  
methoxyflurane in, 559
- ANESTHETICS**  
CI-581, use in children, 92
- ANGINA PECTORIS**  
hemodynamic changes in angina patients with normal coronary arteries, 227
- ANGIOCARDIOGRAPHY**  
of P wave and left atrium, 25
- ANGIOGRAPHY**  
coronary, correlation with serum lipid patterns, 30  
dyes, effect on cat papillary muscle, 239  
in ischemic heart disease, 246
- ANGIOMATOSIS**  
Hippel-Lindau disease, kindred study, 465
- ANGIOTENSIN**  
effect on blood pressure in pregnant and nonpregnant rats, 61  
effect on ventricular function and energy utilization, 231  
metabolism by pulmonary circulation, 112  
renal and pulmonary activation of, 511  
renin-angiotensin-aldosterone system, effect of chronic chlorothiazide therapy on, 440
- ANGIOTENSINASE**  
A<sub>1</sub> and A<sub>2</sub> in serum, separation of, 390
- ANIMALS, NEWBORN**  
pathogenic effect of culture of human lymphoid cells on newborn mice, 53
- ANOXEMIA**  
causes of, in acute myocardial infarct, 370
- in acute myocardial infarction, 515  
in asymptomatic smokers, 376  
in refractory cardiac arrhythmias, 516  
postural, erythrocytosis in, 132
- ANOXIA**  
metabolic, ECG and mechanical effects on perfused heart, 247
- ANTI-ARRHYTHMIC AGENTS** *SEE* MYOCARDIAL DEPRESSANTS
- ANTIBIOTICS**  
comparative sensitivity of enterococci to, 157  
comparison in treatment of mycoplasmal pneumonia, 86
- ANTIBODIES**  
against ACTH, 274  
against ACTH, preparation of, 115  
against folic acid, 541  
against *Pseudomonas* in human sera, 459  
against *Toxoplasma* in patients with malignant disease, 131  
anticellular, effect on cell infection by viral RNA, 327  
binding and blocking antibodies, reactions with intrinsic factor, 287  
cold agglutinin dependence on clot incubation, 460  
cold reactive, in infectious mononucleosis, 300  
differential antinuclear antibody test for selection of patients for azathioprine therapy, 545  
digoxin-specific antisera, biologic activity of, 252  
fetal anti-insulin antibodies, 321  
hemagglutinating, in inflammatory disease of intestines, 532  
heterophile, in renal allograft patients, 324  
monoclonal anti-antibodies, 156  
myocardial, in heart disease, 25  
role in pneumococcal meningitis, 333  
serum neutralizing antibody levels and protection against rhinovirus infections, 47  
suppression of agglutinins to human O Rh<sup>+</sup> RBCs, 545
- ANTIBODY FORMATION**  
against influenza virus inoculated nasopharyngeally in humans, 49  
in atopic and normal humans, 44
- ANTICOAGULANTS**  
activity of aflatoxin B-1, 314  
therapy of thrombosis, 221
- ANTIFUNGAL AGENTS**  
D-25 local chemotherapy of maduromycosis, 48
- ANTIGEN-ANTIBODY REACTIONS**  
antiserum glomerular nephritis, development in dogs, 384  
immunological studies in patients with positive direct antiglobulin reactions, 82  
induction of platelet injury, 81  
parietal cell reaction in gastric mucosa, 286

## ANTIGENS

- antigenicity of malignant melanoma, 259
- Australia antigen associated with hepatitis in a hemodialysis unit, 567
- Cm antigens in human immunoglobulins, 321
- I and i blood group antigens, 296
- low molecular weight  $\gamma$ M in systemic lupus erythematosus, 545
- of Proteus, immune response to, 45
- Rh antigen activity, 536
- staphylococcal, causing in vitro release of leukocyte histamine, 85
- staphylococcal, mediating histamine release, 460
- stimulation of lymphocyte transformation in vitro, 322

## ANTIHISTAMINICS

- urinary excretion of natural antihistamine in man, 546

## ANTIHYPERTENSIVE AGENTS

- inhibition of sympathetic neuronal monoamine oxidase, 244

## ANTIMALARIALS

- chemoprophylactic administration causing methemoglobinemia, 301

## ANTIMETABOLITES

- use in preservation of kidneys, 62

## ANTINEOPLASTIC AGENTS

- antileukemic drugs, bioassay on leukocyte cultures, 360
- combination chemotherapy of chronic granulocytic leukemia, 358

## ANTITHROMBIN

- progressive antithrombin mechanism, heparin as catalyst of, 155

## ANTITHYROID DRUGS SEE THYROID ANTAGONISTS

## AORTA

- constriction inducing heart growth in hypophysectomized rats, 514
- thermal washout curve of, 105

## AORTIC ANEURYSM

- dissecting, drug therapy of, 243

## AORTIC COARCTATION

- renal blood flow and renin release in, 236

## AORTIC VALVE

- heterograft replacement in man, 230

## AORTIC VALVE DISEASES

- ECG and vectorcardiography in, 29
- left ventricular function in, 235
- AORTIC VALVE INSUFFICIENCY
  - computer analysis of carotid pulse in, 70
  - regurgitation, effect of rest on volume burden of, 238
- AORTIC VALVE STENOSIS
  - computer analysis of carotid pulse in, 70
  - hemodynamic effect of exercise in, 220

## AQUEOUS HUMOR

- effect of corticosteroids on dynamics of, 274

## ARACHIDONIC ACID

- origin in plasma, 158

## ARRHYTHMIA

- atrial, hemodynamic correlates of altered renal function in, 567
- atrial gallops, effect of digitalis, 109
- cardioversion and maintenance of sinus rhythm, 109
- coupling with Cheyne-Stokes respiration, 229
- differentiation by use of controlled supraventricular heart rates, 246
- hemodynamic effects of electric countershock in, 436
- hypoxemia and acid-base imbalance in refractory cases, 516
- in cultured chick heart cells, 233
- induction by digitalis, effect of hypoxia and hypercapnia, 253
- induction by digitalis in beating heart cells in culture, 143
- pacemaker capture by another pacemaker, 220
- ventricular, caused by sustained d.c. pulses, 232
- with brain dysfunction, detection by dynamic ECG, 105

## ARTERIES

- arteriolar alterations in renal hypertension, 392
- elastin metabolism and lipid accumulation in atherosclerotic plaque, 236
- glucose metabolism in intima of, 516

## ARTERIOSCLEROSIS

- effect of chlorpheniramine on, 232
- effect of chronic thrombopenia on development of, 41
- exaggerated cold-pressor response in, 252
- lipid accumulation and arterial elastin metabolism in, 236
- ARTERIOSCLEROSIS, CORONARY SEE CORONARY ARTERIOSCLEROSIS

## ARTERIOVENOUS FISTULA

- in hereditary hemorrhagic telangiectasia, 282

## ARTERITIS

- diagnosis by biopsy of rectal mucosa, 37

## ARTHRITIS, RHEUMATOID

- chemotactic activity of synovial fluid in, 326
- hypohistidinemia in, 320
- synovial fibroblasts in, uptake of hydrocortisone in vitro, 459
- ulnar drift of fingers in, 458

## ASCITES

- albumin in thoracic duct lymph in, 528

## ASPERGILLUS

- extracts of, therapy of glycosinosis, 345

## ASPIRIN

- effect on standardized Ivy bleeding time, 539

## ASTHMA

- airway responsiveness and gas exchange in, 472
- exercise-induced bronchoconstriction in, 162
- lung lavage in, 88
- regional ventilation-perfusion relations in, 163
- respiratory function in, 560

## ATELECTASIS

- effect on alveolar hemorrhage and surfactant phospholipids, 372
- ventilation and perfusion in, 473

## ATHEROSCLEROSIS SEE ARTERIOSCLEROSIS

## ATMOSPHERIC PRESSURE

- low, causing polycythemia and blood coagulation disorders, 370
- lower body negative pressure causing changes in pulmonary gas exchange, 369
- lower body negative pressure, effect on respiration, 473

## ATP SEE ADENOSINE TRIPHOSPHATE

## ATPASE SEE ADENOSINE TRIPHOSPHATASE

## ATROMID

- alteration of thyroxine turnover, 34
- effect on thyroxine metabolism in man, 347
- induction of changes in jejunal glycolytic enzymes, 451

## ATROPINE

- abnormal responses of mongols to, 232

## ATTITUDE OF HEALTH PERSONNEL

- physician attitudes toward treatments, evaluation of, 366

## AURICULAR FIBRILLATION

- cardioversion, effect on renal hemodynamics, 239

- pathogenesis of in mitral valve disease, 141

## AURICULAR FLUTTER

- effects of low energy electrical shocks on, 24

## AUTOANTIBODIES

- antinuclear, relation to clinical patterns of rheumatic disease, 323
- Rh-related specificity of, 320
- to intrinsic factor, 299, 303

## AUTOIMMUNE DISEASES

- autoallergic reaction in chronic lung disease, 44
- chromosomal study in, 40

## AUTONOMIC NERVOUS SYSTEM

- neuropathy in chronic renal failure, 385

## AZATHIOPRINE

- effect on erythropoiesis in mice, 42
- effect on lupus nephritis, 567
- effect on rat lymphoid tissue, 154

**AZATHIOPRINE (Cont'd)**

- increased tolerance of germfree animals to, 84
- therapy of lupus nephritis and nephrotic syndrome, 126
- therapy of systemic lupus erythematosus and progressive systemic sclerosis, 545
- therapy of thrombotic thrombopenic purpura, 454

**AZOTEMIA SEE UREMIA****BACTERIA**

- antibacterial mechanisms of the bladder, 333
- establishment of bacterial flora in newborns, 547
- gram-negative, penicillin resistance mechanisms in, 549
- growth in urinary bladder, effect of mucosa on, 47
- inactivation of human serum alpha-1-antitrypsin by, 461

**BACTERIOLYSIS**

- by muramidase, enhancement by anodal tear protein, 561

**BACTERIURIA**

- absence of, determination by chemical method, 383
- device for quantitative urine culture, 127
- impairment of maximal urinary concentration in, 334
- relation to blood pressure in women, 85
- simple chemical method for screening for, 47

**BALLISTOCARDIOGRAPHY**

- effect of digitalis on, 227
- electrostatic, 235

**BARBITURATES**

- phetharbital effect on hydrocortisone metabolism in man, 273

**BIARIUM**

- effects on muscle excitability and contractility, 64

**BARORECEPTORS SEE PRESSORECEPTORS****BENCE JONES PROTEIN**

- subunits of, 324

**BETA GLOBULIN**

- alteration by synthetic fibrinolytic compounds, 452
- $\beta$ lc globulin breakdown product in synovial fluid, 84

**BICARBONATES**

- distribution after addition to or removal from dogs, 164
- effect on survival in hemorrhagic shock, 111
- renal tubular reabsorption during  $K^+$  depletion or hyperkalemia, 60
- secretion induced by cholera toxin, 447

**BILE**

- cholesterol and phospholipid levels, control of, 285
- increased reflux into stomach in gastric ulcer, 450
- lipid and steroid content, influence of diet, 160
- release into small intestine, reflex control of, 532

**BILE ACIDS AND SALTS**

- control of bile cholesterol and phospholipid concentrations, 285
- depletion in runt disease, 289
- determination after repeated human duodenal biliary drainage, 450
- effect on hepatic cholesterolgenesis, 355
- effects on intestinal transmural potentials, 529
- glycine: taurine ratios of bile salts in ileal disease, 77, 284
- intestinal concentration and synthesis of, in hyperlipemia, 293
- lithocholate levels in diseased liver, 278

**BILIARY FISTULA**

- digoxin turnover in, 70

**BILIRUBIN**

- early-labeled, erythropoietic component of, 312

**BIOLOGICAL ASSAY**

- of serum for gastrin-like activity, 39

**BIOLOGICAL TRANSPORT**

- amino acid transport in hamster intestine, energy source for, 38
- iodide transport defect, 267
- monosaccharide and Na transport in intestines, 285
- $Na^+$  and  $Cl^-$  transport in isolated frog skin, 399
- Onsager's reciprocal relation in membrane transport, 59

**BIOLOGICAL TRANSPORT, ACTIVE**

- of Ca in duodenal muscularis, 385
- of Na, reversible inhibition of, 382
- of sugars and amino acids, development in guinea pigs, 280

**BIOPSY**

- atraumatic, of nasal mucosa, 326
- suction biopsy of rectal mucosa in diagnosis of arteritis, 37

**BLACKFAN-DIAMOND SYNDROME**

- with hypoparathyroidism, 36

**BLACKWATER FEVER SEE MALARIA****BLADDER**

- antibacterial mechanisms of, 333
- interactions of amphotericin B, vasopressin and Ca in toad bladder, 569
- mucosa of, effect on bacterial growth, 47
- neurogenic, in diabetes mellitus, 552
- pharmacology of isolated detrusor muscle, 393

**BLINDNESS**

- circadian periodicity of plasma 17-hydroxycorticosteroids in, 523

**BLOOD**

- 3-dimensional analysis of human smears, 121
- enzyme activity, preservation by quick freezing, 435
- gastrin-like activity in, bioassay, 39

- hyperosmolality after brain concussion, 136

- osmolality change, effect on brain volume change, 165

- oxygen dissociation curve in patients with low peripheral blood flow, 240

- role of serum in chemotaxis, 153
- solubility of monosodium urate in serum constituents, 321

**BLOOD CELLS**

- effect of nitrofurantoin on, 62
- interaction with 1, 8-anilino-naphthalenesulfonate, 543
- proliferocytes during malaria, 48

**BLOOD CIRCULATION**

- adjustments to chronic anemia, 144
- altered muscle blood flow in hemiplegia, 28
- flow profile through normal and prosthetic mitral valves, 434
- forearm vascular responses to catecholamines at lower body negative pressure, 243
- in forearm, effect of hypercapnia, 143
- iliac artery blood flow after placement of intraluminal stenoses, 111
- inadequate response in acute pneumonia, 237
- intestinal responses to altered intestinal motility, 39
- microcirculatory changes in acute hemorrhage, 233
- microcirculatory changes induced by endotoxin in primates, 107
- myocardial, assessment with  $Xe^{133}$ , 224
- peripheral, effect of prostaglandins on, 110
- response to exercise in cold environment, 228
- splanchnic flow-pressure relationships, 447

**BLOOD COAGULATION**

- accidental intravascular, in hemolytic uremic syndrome, 155
- bleeding time changes as indication of mithramycin toxicity, 557
- clot retraction in new bleeding syndrome, 42
- cold agglutinin dependence on clot incubation, 460
- disseminated intravascular coagulation, 330
- effect of glyceryl guaiacolate on, 41
- in liver cirrhosis, 314
- intravascular, experimental hyaline membrane disease after, 561
- intravascular, in renal allograft rejection, 564
- standardized Ivy bleeding time, 539
- studies in thrombotic thrombopenic purpura, 454

**BLOOD COAGULATION DISORDERS**

- in cancer, 362

## BLOOD COAGULATION DISORDERS

(Cont'd)

- in polycythemia caused by low atmospheric pressure, 370

## BLOOD GASES

- effect of pulmonary microemboli on, 133
- in chronic obstructive pulmonary disease, 57
- relation to mental and functional status of elderly patients, 562

## BLOOD GROUPS

- I and i systems, 296
- in Siouan linguistic tribes of North America, 457

## BLOOD LIPIDS

## BLOOD PLATELETS

- abnormal aggregation in factor XII deficiency, 123
- adenine nucleotide levels, 542
- adenine nucleotide localization in, 534
- adhesiveness, effect of plasma expanders on, 456
- aggregation in liver cirrhosis, 314
- detection of thrombopoietic activity, 302
- electron microscopy in myocardial infarction, 437
- glycogenolysis and phosphorylase in, 306
- immunologically-induced injury of, 81, 318
- intrinsic defect in hereditary thrombopenia, 539
- membrane defect in hereditary spherocytosis, 304
- oxidation of fatty acids, 302
- role of fatty acids in aggregation of, 304
- "serotonin release" test in study of preservation of, 309
- thrombopoiesis in thrombopenia, 154
- transfusion into aplastic anemia patient, 316

## BLOOD PRESERVATION

- hemoglobin function of stored blood, 533
- stability of factor VIII in fresh-frozen plasma, 455

## BLOOD PRESSURE

- arterial pressure wave delay during general anesthesia, 145
- arterial responses to norepinephrine infusions, 106
- changes during vestibular stimulation, 510
- disparities between aortic and peripheral pulse pressures, 145
- during drug-induced saluresis, relation to extracellular fluid, 564
- effect of dopamine on, 90
- effect of oral contraceptives on, 150
- effect on pulmonary capillary morphology, 370
- effects of water and cations on, 433
- hepatic arterial changes, effect

- on portal venous pressure, 517

- in pregnant and nonpregnant rats, effect of angiotensin on, 61

- intracardiac pressures after volume overload, 108

- intracavitary differences due to hyperkinetic contraction of left ventricle, 106

- left ventricular, distortion by catheter, 104

- reduction by diazoxide-furosemide with increase in renal plasma flow, 62

- relation to bacteriuria in women, 85

- splanchnic flow-pressure relationships, 447

- ventricular pressure analysis by computer, 367

## BLOOD PROTEINS

- binding of indium-113m, 457
- cryoproteins in glomerulonephritis, 325

- high density lipoprotein, reconstitution in vitro, 130

- hypercatabolism of IgG and albumin, 45

- paraproteinemia in lymphoma, 358

- protein-bound carbohydrates, elevation in diabetes mellitus, 129

## BLOOD SEDIMENTATION

- correlation with erythrocyte zeta potential, 535

## BLOOD SUGAR

- effect of acute exercise on, 437
- effect of alcohol in obesity and diabetes, 76

- effect of glutamate infusions on, 112, 260

- effect of urea on, 341

- hypoglycemic effect of ouabain in vivo, 353

- in diabetics on insulin, effect of exercise, 466

- response to glucose tolerance tests, influence of age and sex, 342

## BLOOD TRANSFUSION

- autotransfusion of adenine-supplemented whole blood, 313

- hypertransfusion effect on plasma erythropoietic activity in sheep, 315

- improved O<sub>2</sub> release by transfused erythrocytes in anemia, 155

- in long-term hemodialyzed uremic patients, 165

- multiple transfusions of platelets in aplastic anemia, 316

## BLOOD VESSEL PROSTHESES

- failure of inferior vena cava grafts, 517

## BLOOD VESSELS

- abnormal peripheral vascular dynamics in amyloidosis, 254

- effect of cadmium on smooth muscle of, 519

- endothelial cells, circulation in endotoxin-treated rabbits, 535

- forelimb resistance responses to vasoactive agents, effect of hydrocortisone on, 433
- of skin and muscles, participation in baroreceptor reflexes, 254

- peripheral effect of carotid sinus nerve stimulation, 235

## BLOOD VISCOSITY

- hyperviscosity syndrome, therapy by plasmapheresis, 43

## BLOOD VOLUME

- depletion, effect on aldosterone secretion in essential hypertension, 445

- hypovolemia in hyperviscosity syndrome of macroglobulinemia, 122

- hypovolemia and orthostatic hypotension with hyperaldosteronism, 265

- hypovolemia, effect on left ventricular performance, 31

- increased, effect on lung density at apex and at base, 54

- influence on plasma erythropoietic activity in sheep, 315

- pulmonary, effect of lanatosside C in hypervolemic dogs, 144

## BODY COMPOSITION

- relation to plasma insulin levels in obesity, 341

## BODY FLUIDS

- interstitial fluid volume expansion, effect on natriuretic response to saline infusion, 380

## BODY WEIGHT

- loss in thyroid disease, 76

## BONE ABNORMALITIES

- prevention in thalassemia major, 311

## BONE AND BONES

- bone mass determination in vivo, 82

- effects of parathyroid extract and thyrocalcitonin on metabolism of, 443

- formation and resorption, effect of thyrocalcitonin, 146

- hydrocortisone stimulation of RNA breakdown in isolated bone cells, 349

- metabolism in osteoporosis, effect of sex hormones on, 468

- sodium metabolism in, role of parathyroid glands, 521

- wide osteoid seams in vitamin D deficiency, 130

## BONE DISEASES

- inherited, with peptiduria, 295

## BONE MARROW

- 5-aminolevulinic acid synthetase in, effect of erythropoietin on, 300

- 3-dimensional analysis of human smears, 121

- effects of erythropoietin stimulation on late maturation phase of, 304

- erythroblastic islands in, 122

- erythron activity after x-irradiation, 122

**BONE MARROW (Cont'd)**

- lymphocytes in, effect of total-body irradiation on, 42
- morphology in tropical sprue, 43, 315
- pyrimethamine-induced megaloblastosis in, 543
- RNA synthesis, effect of plasma from leukopenic dogs, 538
- stem cells, 541
- two molecular forms of ferritin in, 535

**BONE MARROW DISEASES**

- chloramphenicol-induced, effect of riboflavin, 41
- hypoplasia, prolactin therapy of, 41

**BONE RESORPTION**

- effect of thyrocalcitonin, 261

**BRADYKININ**

- formation in cystic fibrosis, 151

**BRAIN**

- acid-base balance in during reduced cerebral perfusion, 375
- clearance of inhaled  $Ge^{133}$ , effect of indomethacin, 106
- effect of extracellular pH on intracellular pH of slices of, 395
- metabolism in delirium tremens, 71
- phospholipid fatty acids in Gunn rats, 161
- volume change in response to change in plasma osmolality and Na concentration, 165

**BRAIN CONCUSSION**

- post-concussive hyperosmolality with loss of thirst, 136

**BRAIN DISEASES**

- portal-systemic encephalopathy, lactulose in control of, 283

**BRAIN NEOPLASMS**

- chromosomal abnormalities of cells from, 362
- radioisotope uptake in tissue culture, 131

**BREAST NEOPLASMS**

- radiotherapy and hormone therapy of, 358
- serum mucoids in, 558

**BROCRESINE**

- hydrelatic effect on exocrine pancreas, 448
- suppression of gastric secretion in Zollinger-Ellison syndrome, 287

**BRONCHI**

- exercise-induced constriction in asthma, 162
- interaction between parasympathetic and sympathetic outflow in bronchoconstriction, 560

**BRONCHIECTASIS**

- lung lavage in, 88

**BRONCHITIS**

- lung lavage in, 88

**BRONCHODILATOR AGENTS**

- effect on airway resistance in chronic obstructive lung disease, 57

**BURNS**

- serum free amino acid levels in, 88

**CADMIUM**

- causing interstitial fibrosis of kidney, 91
- effect on responses of aortic strips to angiotensin and norepinephrine, 519

**CAFFEINE**

- potentiation of ACTH effect on pyruvate metabolism in adipose tissue, 352

**CALCIFICATION**

- of cartilage, inhibition by proteopolysaccharides, 82
- properties of fluid aspirated from sites of, 33

**CALCITONIN SEE THYROCALCITONIN****CALCIUM**

- acalemic cardiac arrest, 518
- active transport in duodenal muscularis, 385
- blood Ca homeostasis in hypoparathyroidism, 268
- diminished renal tubular reabsorption after glucose ingestion, 388
- dissociation from Na and Mg transport in Henle's loop, 563
- effect on contractility of isolated detrusor muscle, 348
- in nail matrix in differential diagnosis of hypercalcemia, 524
- in urine in hyperparathyroidism, effect of acidosis on, 378
- interaction with vasopressin and amphotericin B in toad bladder, 569
- intestinal absorption in acromegaly, 525
- intestinal absorption of, effect of vitamin D, 451
- intracellular levels and myocardial contractility, 145
- kinetics in Paget's disease, effect of NaF on, 466
- oral, effect on fat absorption in patients with resected bowel, 281
- plasma levels, effects of cortisone, imidazole and theophylline on, 463
- relation to  $Mg^{++}$  and  $Po_4^-$  in chronic renal failure, 91
- renal clearance in advanced uremia, 393
- renal excretion of, relation to Na excretion, 381
- role in bone resorption response to thyrocalcitonin, 261
- serum and urinary levels in normocalcemic patients after oral phosphate, 345
- total body level, determination by activation analysis, 159
- transfer rate, effect of EDTA, 355
- transport by lymphatic circulation, 550
- transport by sarcoplasmic reticulum from muscles of hypothyroid rats, 513
- urinary excretion after glucose administration, 393

- urinary excretion during water diuresis, 378
- urinary excretion in adrenal cortical hyperfunction, 563
- urinary excretion of, effect of vasodilator agents, 384

**CALCIUM CARBONATE**

- effect on gastric secretion, 446

**CALCIUM CHLORIDE**

- effect of i.v. infusion on blood pressure, 433

**CANDIDA**

- phagocytosis by neutrophils from leukemia patients, 312

**CAPILLARIASIS**

- epidemiology of, 118
- intestinal, in man, 120

**CAPILLARIES**

- pulmonary, behavior of macrophages in, 89
- pulmonary, effect of blood pressures on morphology of, 370

**CARBENICILLIN**

- effect on ampicillin-resistant E. coli, 548

**CARBOHYDRATES**

- anaerobic metabolism in cell-free heart homogenates, 511
- antinatriuretic effect of, 566
- effect on hepatic triglyceride synthesis, 86
- factors modifying metabolism of, 159
- incorporation into protein in rabbit alveolar cells, 89
- induction of diabetic lipemia, 129
- intolerance in uremia, 396
- malabsorption, breath hydrogen study in, 287
- metabolism during prolonged bed rest, 468, 554
- metabolism in patient with pheochromocytoma, 161
- metabolism in tapeworms, 329
- protein-bound, elevation in diabetes mellitus, 129
- "repression" phenomenon on alternate pathways of corticosteroid excretion in man, 520
- serum amylase levels during changes in metabolism of, 286
- tolerance in familial endogenous hypertriglyceridemia, 343
- transport mechanism development in guinea pigs, 281

**CARBON DIOXIDE**

- arterial  $H^+/CO_2$  relation in hypercapnia, 376
- concentration by kidney, 476
- lung deadspace, discrepancy with  $O_2$  deadspace, 559
- myocardial hypercarbia, effect on left ventricular performance, 250
- raised urinary levels of, 477
- role in reversal of changes in mechanical properties of lung after pulmonary artery occlusion, 376

**CARBON MONOXIDE**

- effect on structure and function of lung, 560

- CARBON MONOXIDE (Cont'd)**  
 endogenous production after exposure to high G forces, 301  
 endogenous production in normal and erythroblastic newborns, 538  
 induction of changes in alveolar arterial O<sub>2</sub> gradient, 560  
 lung diffusion of, 562
- CARBON TETRACHLORIDE**  
 induction of hepatic necrosis, effect of reserpine pretreatment, 49
- CARBONIC ANHYDRASE**  
 activity of erythrocytes in thyroid disease, 265
- CARCINOGENS**  
 effect on guinea pig nipple, 359
- CARCINOMA, BASAL CELL**  
 cell proliferation kinetics in, 260
- CARCINOMA, BRONCHOGENIC**  
 ectopic gonadotropin production in, 557  
 plasma gonadotropins in, 361  
 tissue trace metal levels in, 32
- CARCINOMA 256, WALKER**  
 uptake of radiolabeled compounds in, 558
- CARDIAC GLYCOSIDES**  
 acethylstrophanthidin, effect on post-coronary ligation diastolic stimulation, 26  
 intestinal absorption of, 448
- CARDIOVASCULAR SYSTEM**  
 effect of daunomycin on, 357  
 effects of digitalis in dogs, 108  
 effects of ethanol in disulfiram-treated animals, 436  
 effects of glucagon on, 238  
 effects of prostaglandin on, 242  
 physiology and motion pictures of, 439  
 response to heat and humidity, 232  
 training effect of bicycling or jogging, 437
- CARDIOVERSION SEE ELECTRIC COUNTERSHOCK**
- CAROTID ARTERIES**  
 pulse in aortic valve diseases, 70
- CAROTID SINUS**  
 reflex, 222  
 stimulation of, cardiac and peripheral vascular effects, 235
- CARTILAGE**  
 calcification of, inhibition by proteopolysaccharides, 82  
 calcifying sites of, properties of fluid aspirated from, 33  
 metabolism, effect of serum extracts containing sulfation factor activity, 83  
 sulfation factor in, 465
- CATECHOLAMINE OXIDASE**  
 purification from uterine muscle, 268
- CATECHOLAMINES**  
 determination method, 228  
 effect of dopamine on urinary excretion of, 90  
 effect on cardiovascular responses to cardiac tamponade in dogs, 110  
 inotropic effect on dog heart, 221
- metabolism in essential hypertension, 234
- CATHETERIZATION**  
 venous, in localization of parathyroid adenomas, 524  
 venous, risk of infection from, 328
- CELIAC DISEASE**  
 effects of gliadin peptides in, 294  
 increased jejunal synthesis of pyrimidine precursors in, 282
- CELL DIVISION**  
 kinetics in basal cell carcinoma, 260
- CENTRAL NERVOUS SYSTEM**  
 control of lipolysis in baboons, effect of glucose, 158
- CEPHALEXIN**  
 laboratory and clinical appraisal of, 462
- CEPHALOGLYCIN**  
 effect on fecal flora in liver cirrhosis, 38
- CEPHALOTHIN**  
 immunologic relation to penicillin, 126
- CEREBRAL ANGIOGRAPHY**  
 blood pulse volume studies in selection of patients for, 219
- CEREBRAL CORTEX**  
 motor cortex ablation, effect on recovery of muscle power, 223
- CEREBRAL ISCHEMIA, TRANSIENT**  
 effect of heparin on vascular lesions caused by, 513  
 hypotension as limiting factor in recovery from, 512
- CEREBROSIDES**  
 glucocerebroside, source in Gaucher cells, 537
- CEREBROSPINAL FLUID**  
 acid-base balance in during reduced cerebral perfusion, 375  
 composition during acute hemorrhagic hypotension, 475  
 lactic dehydrogenase isoenzymes in meningitis, 128  
 microconcentration technique for, 479  
 oxytocin and vasopressin in, 262  
 response to respiratory acidosis, 58
- CEREBROVASCULAR CIRCULATION**  
 assessment with the magnacamera, 138  
 in delirium tremens, 71  
 regional cerebral blood flow, 244
- CHEDIAK-HIGASHI SYNDROME**  
 abnormal leukocyte function in, 335  
 elevated serum muramidase levels in, 298
- CHEMOTAXIS**  
 role of serum in, 153
- CHEYNE-STOKES RESPIRATION**  
 coupling with cardiac arrhythmias, 229
- CHLORAMPHENICOL**  
 causing bone marrow depression, effect of riboflavin, 41
- effect on mouse erythroid spleen colonies, 124  
 inhibition of leukocyte oxidative glycolysis, 305
- CHLORIDES**  
 suppression of Na diuresis by provision of, 564
- CHLOROQUINE**  
 response of porphyria cutanea tarda to, 258
- CHLOROTHIAZIDE**  
 chronic effects on renin-angiotensin-aldosterone system, 440  
 effect on renal excretion of urate, 92  
 stimulation of parathyroid gland, 468
- CHLORPHENIRAMINE**  
 effect on atherosclerosis and serum lipid composition, 232
- CHLORPROMAZINE**  
 inhibition of growth of B16 mouse melanoma, 559
- CHLORPROPAMIDE**  
 effect on binding of triiodothyronine and thyroxine in man, 34
- CHOLANGIOGRAPHY**  
 transjugular, 152
- CHOLECYSTITIS**  
 gallbladder secretion of mucous substances in, 151
- CHOLECYSTOKININ**  
 effect on isolated stomach and pancreas, 282
- CHOLERA**  
 exotoxin fixation to small intestine mucosa, 530  
 experimental, in dogs, 335  
 fluid production by small intestinal epithelium, 530  
 toxin, effect on oxidative metabolism, 548
- CHOLESTEROL**  
 biosynthesis in familial hypercholesteremia, effect of exogenous cholesterol, 51  
 cholesterol ester storage disease, 290  
 concentration in bile, control of, 285  
 crystals in coronary artery in man, 516  
 determination after repeated human duodenal biliary drainage, 450  
 esterification in adrenal glands, 270  
 exogenous, effect on cholesterol biosynthesis in familial hypercholesteremia, 349  
 hepatic synthesis, effect of bile acids, 355  
 hypocholesteremic effect of glutamic acid in man, 338  
 in erythrocyte membrane inducing modified erythrocyte survival, 301  
 Wolman's cholesterol storage disease, 449
- CHOLIC ACID**  
 effect of ethanol on metabolism of, 531

**BONE MARROW (Cont'd)**

- lymphocytes in, effect of total-body irradiation on, 42
- morphology in tropical sprue, 43, 315
- pyrimethamine-induced megaloblastosis in, 543
- RNA synthesis, effect of plasma from leukopenic dogs, 538
- stem cells, 541
- two molecular forms of ferritin in, 535

**BONE MARROW DISEASES**

- chloramphenicol-induced, effect of riboflavin, 41
- hypoplasia, prolactin therapy of, 41

**BONE RESORPTION**

- effect of thyrocalcitonin, 261

**BRADYKININ**

- formation in cystic fibrosis, 151

**BRAIN**

- acid-base balance in during reduced cerebral perfusion, 375
- clearance of inhaled  $\text{Ge}^{133}$ , effect of indomethacin, 106
- effect of extracellular pH on intracellular pH of slices of, 395
- metabolism in delirium tremens, 71
- phospholipid fatty acids in Gunn rats, 161
- volume change in response to change in plasma osmolality and Na concentration, 165

**BRAIN CONCUSSION**

- post-concussive hyperosmolality with loss of thirst, 136

**BRAIN DISEASES**

- portal-systemic encephalopathy, lactulose in control of, 283

**BRAIN NEOPLASMS**

- chromosomal abnormalities of cells from, 362
- radioisotope uptake in tissue culture, 131

**BREAST NEOPLASMS**

- radiotherapy and hormone therapy of, 358
- serum mucoids in, 558

**BROCRESINE**

- hydrelatic effect on exocrine pancreas, 448
- suppression of gastric secretion in Zollinger-Ellison syndrome, 287

**BRONCHI**

- exercise-induced constriction in asthma, 162
- interaction between parasympathetic and sympathetic outflow in bronchoconstriction, 560

**BRONCHIECTASIS**

- lung lavage in, 88

**BRONCHITIS**

- lung lavage in, 88

**BRONCHODILATOR AGENTS**

- effect on airway resistance in chronic obstructive lung disease, 57

**BURNS**

- serum free amino acid levels in, 88

**CADMIUM**

- causing interstitial fibrosis of kidney, 91
- effect on responses of aortic strips to angiotensin and norepinephrine, 519

**CAFFEINE**

- potentiation of ACTH effect on pyruvate metabolism in adipose tissue, 352

**CALCIFICATION**

- of cartilage, inhibition by proteopolysaccharides, 82
- properties of fluid aspirated from sites of, 33

**CALCITONIN SEE THYROCALCITONIN****CALCIUM**

- acalcemic cardiac arrest, 518
- active transport in duodenal muscularis, 385
- blood Ca homeostasis in hypoparathyroidism, 268
- diminished renal tubular reabsorption after glucose ingestion, 388
- dissociation from Na and Mg transport in Henle's loop, 563
- effect on contractility of isolated detrusor muscle, 348
- in nail matrix in differential diagnosis of hypercalcemia, 524
- in urine in hyperparathyroidism, effect of acidosis on, 378
- interaction with vasopressin and amphotericin B in toad bladder, 569
- intestinal absorption in acromegaly, 525
- intestinal absorption of, effect of vitamin D, 451
- intracellular levels and myocardial contractility, 145
- kinetics in Paget's disease, effect of NaF on, 466
- oral, effect on fat absorption in patients with resected bowel, 281
- plasma levels, effects of cortisone, imidazole and theophylline on, 463
- relation to  $\text{Mg}^{++}$  and  $\text{Po}_2$  in chronic renal failure, 91
- renal clearance in advanced uremia, 393
- renal excretion of, relation to Na excretion, 381
- role in bone resorption response to thyrocalcitonin, 261
- serum and urinary levels in normocalcemic patients after oral phosphate, 345
- total body level, determination by activation analysis, 159
- transfer rate, effect of EDTA, 355
- transport by lymphatic circulation, 550
- transport by sarcoplasmic reticulum from muscles of hypothyroid rats, 513
- urinary excretion after glucose administration, 393

- urinary excretion during water diuresis, 378
- urinary excretion in adrenal cortical hyperfunction, 563
- urinary excretion of, effect of vasodilator agents, 384

**CALCIUM CARBONATE**

- effect on gastric secretion, 446

**CALCIUM CHLORIDE**

- effect of i.v. infusion on blood pressure, 433

**CANDIDA**

- phagocytosis by neutrophils from leukemia patients, 312

**CAPILLARIASIS**

- epidemiology of, 118
- intestinal, in man, 120

**CAPILLARIES**

- pulmonary, behavior of macrophages in, 89
- pulmonary, effect of blood pressures on morphology of, 370

**CARBENICILLIN**

- effect on ampicillin-resistant E. coli, 548

**CARBOHYDRATES**

- anaerobic metabolism in cell-free heart homogenates, 511
- antinatriuretic effect of, 566
- effect on hepatic triglyceride synthesis, 86
- factors modifying metabolism of, 159
- incorporation into protein in rabbit alveolar cells, 89
- induction of diabetic lipemia, 129
- intolerance in uremia, 396
- malabsorption, breath hydrogen study in, 287
- metabolism during prolonged bed rest, 468, 554
- metabolism in patient with pheochromocytoma, 161
- metabolism in tapeworms, 329
- protein-bound, elevation in diabetes mellitus, 129
- "repression" phenomenon on alternate pathways of corticosteroid excretion in man, 520
- serum amylase levels during changes in metabolism of, 286
- tolerance in familial endogenous hypertriglyceridemia, 343
- transport mechanism development in guinea pigs, 281

**CARBON DIOXIDE**

- arterial  $\text{H}^+/\text{CO}_2$  relation in hypercapnia, 376
- concentration by kidney, 476
- lung deadspace, discrepancy with  $\text{O}_2$  deadspace, 559
- myocardial hypercarbia, effect on left ventricular performance, 250
- raised urinary levels of, 477
- role in reversal of changes in mechanical properties of lung after pulmonary artery occlusion, 376

**CARBON MONOXIDE**

- effect on structure and function of lung, 560

- CARBON MONOXIDE (Cont'd)**  
 endogenous production after exposure to high G forces, 301  
 endogenous production in normal and erythroblastotic newborns, 538  
 induction of changes in alveolar arterial O<sub>2</sub> gradient, 560  
 lung diffusion of, 562
- CARBON TETRACHLORIDE**  
 induction of hepatic necrosis, effect of reserpine pretreatment, 49
- CARBONIC ANHYDRASE**  
 activity of erythrocytes in thyroid disease, 265
- CARCINOGENS**  
 effect on guinea pig nipple, 359
- CARCINOMA, BASAL CELL**  
 cell proliferation kinetics in, 260
- CARCINOMA, BRONCHOGENIC**  
 ectopic gonadotropin production in, 557  
 plasma gonadotropins in, 361  
 tissue trace metal levels in, 32
- CARCINOMA 256, WALKER**  
 uptake of radiolabeled compounds in, 558
- CARDIAC GLYCOSIDES**  
 acethylstrophanthidin, effect on post-coronary ligation diastolic stimulation, 26  
 intestinal absorption of, 448
- CARDIOVASCULAR SYSTEM**  
 effect of daunomycin on, 357  
 effects of digitalis in dogs, 108  
 effects of ethanol in disulfiram-treated animals, 436  
 effects of glucagon on, 238  
 effects of prostaglandin on, 242  
 physiology and motion pictures of, 439  
 response to heat and humidity, 232  
 training effect of bicycling or jogging, 437
- CARDIOVERSION SEE ELECTRIC COUNTERSHOCK**
- CAROTID ARTERIES**  
 pulse in aortic valve diseases, 70
- CAROTID SINUS**  
 reflex, 222  
 stimulation of, cardiac and peripheral vascular effects, 235
- CARTILAGE**  
 calcification of, inhibition by proteopolysaccharides, 82  
 calcifying sites of, properties of fluid aspirated from, 33  
 metabolism, effect of serum extracts containing sulfation factor activity, 83  
 sulfation factor in, 465
- CATECHOLAMINE OXIDASE**  
 purification from uterine muscle, 268
- CATECHOLAMINES**  
 determination method, 228  
 effect of dopamine on urinary excretion of, 90  
 effect on cardiovascular responses to cardiac tamponade in dogs, 110  
 inotropic effect on dog heart, 221
- metabolism in essential hypertension, 234
- CATHETERIZATION**  
 venous, in localization of parathyroid adenomas, 524  
 venous, risk of infection from, 328
- CELIAC DISEASE**  
 effects of gliadin peptides in, 294  
 increased jejunal synthesis of pyrimidine precursors in, 282
- CELL DIVISION**  
 kinetics in basal cell carcinoma, 260
- CENTRAL NERVOUS SYSTEM**  
 control of lipolysis in baboons, effect of glucose, 158
- CEPHALEXIN**  
 laboratory and clinical appraisal of, 462
- CEPHALOGLYCIN**  
 effect on fecal flora in liver cirrhosis, 38
- CEPHALOTHIN**  
 immunologic relation to penicillin, 126
- CEREBRAL ANGIOGRAPHY**  
 blood pulse volume studies in selection of patients for, 219
- CEREBRAL CORTEX**  
 motor cortex ablation, effect on recovery of muscle power, 223
- CEREBRAL ISCHEMIA, TRANSIENT**  
 effect of heparin on vascular lesions caused by, 513  
 hypotension as limiting factor in recovery from, 512
- CEREBROSIDES**  
 glucocerebroside, source in Gaucher cells, 537
- CEREBROSPINAL FLUID**  
 acid-base balance in during reduced cerebral perfusion, 375  
 composition during acute hemorrhagic hypotension, 475  
 lactic dehydrogenase isoenzymes in meningitis, 128  
 microconcentration technique for, 479  
 oxytocin and vasopressin in, 262  
 response to respiratory acidosis, 58
- CEREBROVASCULAR CIRCULATION**  
 assessment with the magnacamera, 138  
 in delirium tremens, 71  
 regional cerebral blood flow, 244
- CHEDIAK-HICASHI SYNDROME**  
 abnormal leukocyte function in, 335  
 elevated serum muramidase levels in, 298
- CHEMOTAXIS**  
 role of serum in, 153
- CHEYNE-STOKES RESPIRATION**  
 coupling with cardiac arrhythmias, 229
- CHLORAMPHENICOL**  
 causing bone marrow depression, effect of riboflavin, 41
- effect on mouse erythroid spleen colonies, 124  
 inhibition of leukocyte oxidative glycolysis, 305
- CHLORIDES**  
 suppression of Na diuresis by provision of, 564
- CHLOROQUINE**  
 response of porphyria cutanea tarda to, 258
- CHLOROTHIAZIDE**  
 chronic effects on renin-angiotensin-aldosterone system, 440  
 effect on renal excretion of urate, 92  
 stimulation of parathyroid gland, 468
- CHLORPHENIRAMINE**  
 effect on atherosclerosis and serum lipid composition, 232
- CHLORFROMAZINE**  
 inhibition of growth of B16 mouse melanoma, 559
- CHLORPROPAMIDE**  
 effect on binding of triiodothyronine and thyroxine in man, 34
- CHOLANGIOGRAPHY**  
 transjugular, 152
- CHOLECYSTITIS**  
 gallbladder secretion of mucous substances in, 151
- CHOLECYSTOKININ**  
 effect on isolated stomach and pancreas, 282
- CHOLERA**  
 exotoxin fixation to small intestine mucosa, 530  
 experimental, in dogs, 335  
 fluid production by small intestinal epithelium, 530  
 toxin, effect on oxidative metabolism, 548
- CHOLESTEROL**  
 biosynthesis in familial hypercholesteremia, effect of exogenous cholesterol, 51  
 cholesterol ester storage disease, 290  
 concentration in bile, control of, 285  
 crystals in coronary artery in man, 516  
 determination after repeated human duodenal biliary drainage, 450  
 esterification in adrenal glands, 270  
 exogenous, effect on cholesterol biosynthesis in familial hypercholesteremia, 349  
 hepatic synthesis, effect of bile acids, 355  
 hypocholesteremic effect of glutamic acid in man, 338  
 in erythrocyte membrane inducing modified erythrocyte survival, 301  
 Wolman's cholesterol storage disease, 449
- CHOLIC ACID**  
 effect of ethanol on metabolism of, 531

- CHOLINE DEFICIENCY**  
causing fatty liver, 289
- CHORDAE TENDINEAE**  
rupture of, diagnosis using amyl nitrite, 227
- CHROMOSOME ABNORMALITIES**  
in autoimmune diseases, 40  
in hypospadias, 79  
induction by diphenylhydantoin, 310  
non-mongoloid G/G translocation, 36  
of cells from human brain tumors, 362  
relation to satellite association and nucleolar persistence in mitotic lymphocytes, 297
- CHROMOSOMES**  
control mechanisms in distribution of, 121  
effect of age on template capacity of liver chromatin, 137  
in leukocyte cultures, effect of propylthiouracil on, 271  
karyotypic and linkage analysis in two pedigrees, 296  
pulverized, effect of deoxyribonucleotide triphosphates on, 452
- CHRONIC DISEASE**  
evaluation and rehabilitation of chronically ill ambulatory patients, 365
- CHYLOMICRONS**  
endogenous chylomicronemia after pancreatectomy, 556
- CIGARETTES** *SEE* SMOKING
- CINEANGIOCARDIOGRAPHY**  
in measurement of left ventricular volumes, 110
- CINEANGIOGRAPHY**  
coronary, correlation with exercise ECG, 367
- CITRATES**  
inhibition of pyruvate dehydrogenase, 351
- CLEFT PALATE**  
in patient with non-mongoloid G/G translocation, 36
- CLOFIBRATE** *SEE* ATROMID
- COBALT**  
effect on erythropoietin, renin and urinary Na, 395
- COLCHICINE**  
effect on intestinal RNA metabolism, 294
- COLD**  
effects on circulatory response to exercise, 228  
exaggerated cold-pressor response in atherosclerotic patients, 252
- COLITIS, ULCERATIVE**  
epidemiologic study in Galveston, 37  
hemagglutinating antibodies in, 532  
with colonic adenocarcinoma and hypoglycemia, 295
- COLLAGEN**  
degradation of, relation to urinary excretion of peptide-bound hydroxyproline, 458  
synthesis of; relation of urinary polypeptides to, 551
- COLLOIDS**  
in therapy of war wound shock, 107
- COLON**  
ammonia absorption from, 528  
permeability of, 287  
slow wave of circular muscle of, 447
- COLONIC DISEASES**  
amyloidosis, histochemical and electron microscopic studies of, 38
- COLONIC NEOPLASMS**  
adenocarcinoma with ulcerative colitis and hypoglycemia, 295
- COMMON COLD**  
role of interferon in, 84  
serum neutralizing antibody levels and protection against, 47
- COMPLEMENT**  
anticomplementary activity of aflatoxin B-1, 314  
arterio-venous differences in levels in kidney transplant recipients, 43  
participation in antibody-antigen reaction in gastric mucosa, 286  
rabbit C'3, characterization of, 322  
serum levels in renal allograft patients, 324
- COMPOUND 48/80**  
release of histamine from mast cells in lungs, 56
- COMPUTERS, DIGITAL**  
analysis of cardiac catheterization data, 108  
program for determination of dosages of digitalis glycosides, 107  
use for continuous ECG monitoring, 108
- CONTRACEPTIVES, ORAL**  
effect on plasma FSH and LH levels, 33, 263  
effect on plasma renin, aldosterone secretion and blood pressure, 150  
induction of hypertriglyceridemia, 267
- CONTRAST MEDIA**  
angiographic, effect on cat papillary muscle, 239
- COPPER**  
gastrointestinal absorption of, 152  
reversal of taste impairment by penicillamine, 344
- COPPER DEFICIENCY**  
drug metabolizing enzymes in, 140  
intramitochondrial iron in erythroblasts in, 154
- COPPER SULFATE**  
causing oxidative injury to human RBC's, 309, 456
- CORONARY ARTERIOSCLEROSIS**  
cholesterol crystals in coronary artery in man, 516  
systolic time intervals after exercise in, 438
- CORONARY DISEASE**  
coronary dye dilution curves in, 104  
isoproterenol-induced coronary steal syndrome in, 510  
significance of papillary muscle dysfunction in, 249
- CORONARY VESSELS**  
angiography, correlation with serum lipid patterns, 30  
assessment of blood flow, 224  
blood flow in, effect of isoproterenol-induced hypotension, 231  
cinearteriography of, correlation with exercise ECG, 367  
flow, transit times and volumes of left coronary system, 515  
ligation causing experimental cardiogenic shock, 512  
ligation, effect of acetylcholine on diastolic stimulation after, 26  
lysosome stability in occlusion of, 245  
normal coronary arteries in angina patients, 227  
paired pacing after ligation of, 246  
response to acute pulmonary embolization, 223  
right coronary flow in acute pulmonary embolism, 31
- CORTICOTROPIN**  
antibodies to, 274  
antibodies to, preparation of, 115  
deficiency of, relation to alcoholic hypoglycemia, 444  
effect on adrenal cell metabolism, 270  
effect on adrenal sterol biosynthesis, 441  
effect on pyruvate metabolism by adipose tissue, potentiation by caffeine, 352  
effect on steroidogenesis, 265  
effect on synthesis of soluble adrenocortical proteins, 267  
effect on testosterone production in man, 35  
fetal pituitary activity of, 35  
infusion test for adrenal insufficiency, 443  
labeled, simple method for purification of, 442  
regulation of aldosterone excretion, 150  
release from pituitary induced by vasopressin, inhibition by glucocorticoids, 34  
release in vitro induced by vasopressin, 266  
stimulation of 2-ketoglutarate oxidation by adipose tissue, 469
- CORTISONE**  
effects on Plasma Ca and P responses to imidazole and theophylline, 463
- CORYNEBACTERIUM ACNES**  
distribution and localization in acne and in normal subjects, 257  
source of lipolytic enzymes in acne, 146

- COXSACKE VIRUS INFECTIONS  
interferon response to, 462  
meningitis in children, 49
- COXSACKIE VIRUSES  
response of volunteers to inoculation with, 329
- CREATINE  
C<sup>14</sup>-labeled, in determination of muscle mass, 51
- CREATINE KINASE  
pre- and postoperative serum levels, 518
- CREATININE  
clearance of, correlation with digoxin clearance, 381  
tubular excretion in normals and in kidney failure, 137
- CRYPTOCOCCUS  
extracts, inhibition of leukocyte migration, 461
- CRYSTALLOIDS  
in therapy of war wound shock, 107
- CUSHING'S SYNDROME  
absence of aminoaciduria in, 345  
pituitary adrenal relationship in, 440  
radiosurgery of pituitary in, 114
- CYCLIC-AMP SEE ADENOSINE MONOPHOSPHATE
- CYCLOPHOSPHAMIDE  
effect on hematopoietic stem cells, 454  
effect on lymphocyte kinetics in chronic lymphocytic leukemia, 534  
effect on renal concentrating ability, 357  
inhibition of adjuvant step-up effect in guinea pigs, 545  
suppression of agglutinins and production of tolerance to human O Rh<sup>+</sup> RBCs in rats, 545
- CYSTAMINE  
metabolism of, 339
- CYSTIC FIBROSIS  
bradykinin formation in, 151  
unusual insulin secretion in, 343
- CYSTINOSIS  
increased cystine content in leukocytes and fibroblasts in patients with, 52  
with multiple sites of tubular dysfunction, 136
- CYTARABINE  
effects in leukemia and tumor patients, 358  
subcutaneous injection in neoplasia patients, 558  
suppression of agglutinins and production of tolerance to human O Rh<sup>+</sup> RBCs in rats, 545
- DACTINOMYCIN  
therapy of hypercalcemia in neoplastic disease, 558
- DAUNOMYCIN  
cardiovascular pharmacology of, 357  
therapy of acute myelogenous leukemia, 470
- DBI SEE PHENFORMIN
- D, D'-DDE  
residues, in human fat and placenta, 139
- DDT  
residues, in human fat and placenta, 139
- DEAFNESS  
hereditary type of low-frequency hearing loss, 40
- DEBRISOQUIN  
inhibition of sympathetic neuronal monoamine oxidase in man, 244
- DEFIBRILLATION, ELECTRIC SEE ELECTRIC COUNTERSHOCK
- DEGLUTITION  
electromyographic correlates of phonogram of, 280
- DELIRIUM TREMENS  
biochemical alterations in, 353  
cerebral blood flow and metabolism in, 71
- DEOXYGLUCOSE  
penetration into intact diaphragm, effect of Mg and insulin, 50
- DERMATITIS  
contact, tissue eosinophilia in, 256  
experimental studies, 137
- DERMATOMYOSITIS  
immunoglobulin levels in, 317
- DESOXYCORTICOSTERONE  
causing salt retention, role of natriuretic hormone in escape from, 390
- DEXAMETHASONE  
effect on testosterone production in man, 35  
inhibition of vasopressin-induced ACTH release from pituitary, 34
- DEXTRAN  
DEAE-dextran, use in improving transfer of "immune" RNA, 361  
DEAE-dextran, use in RNA transfer studies in delivery system, 470
- DIABETES MELLITUS  
alcohol-induced hypoglycemia in, 76  
alcohol infusion studies in obesity in, 466  
alloxan, functional microangiopathy in, 443  
alloxan, protective effect in endotoxemia, 459  
carbohydrate induction of lipemia in, 129  
causing impaired glucose tolerance, 158  
effect of exercise on blood glucose in diabetics on insulin, 466  
elevation of protein-bound carbohydrates in, 129  
esophageal motor manifestation of, 78  
explanation for obesity in, 552  
fatty acid oxidation by mitochondria from liver in, 464  
fluorescein-induced nausea in, 550  
glomerulosclerosis in strain of genetically diabetic mice, 347  
hepatic lipid synthesis in rats, 340  
idiopathic hemochromatosis in, 40  
impingement of various diabetogenic agents on beta cell responsiveness, 32  
juvenile, pulse wave velocity and tissue biopsy in, 147  
maturity-onset, response to i.v. tolbutamide, 554  
neurogenic bladder dysfunction in, 552  
parameters of glucose transport in, 352  
serum fucose levels during oral glucose tolerance tests in, 551  
steady state insulin responses in, 160
- DIAGNOSIS  
serum seromucoid levels in disease screening, 549  
use of ultrasound in, 66
- DIALYSIS  
extracorporeal lymph dialysis for suppression of cellular immunity, 83
- DIAPHRAGM  
contribution to energy cost of increasing ventilation in pulmonary insufficiency, 373  
2-deoxyglucose penetration into, effect of Mg and insulin, 50  
role in changing pulmonary functions during pregnancy, 474  
role in tidal volume production, 371
- DIARRHEA  
caused by gastric hypersecretion, 447  
experimental, intestinal electrolyte and water transport in, 290  
experimental study in salmonella enterocolitis, 288  
in malabsorption syndromes, motor mechanism of, 284  
infantile, composition of jejunal fluid after single feeding in, 293  
mechanism in lactase deficiency, 281
- DIAZEPAM  
hemodynamic and respiratory effects, 226
- DIAZOXIDE  
effect on beta cells of islands of Langerhans, 32  
effect on endogenous hypertriglyceridemia, 555  
effect on ureteral peristalsis, 474  
hyperglycemic effect of, 557  
lipolytic effect in isolated fat cells, 347  
reduction of arterial pressure with increase in renal plasma flow, 62  
renal actions in hypertensives, 386

- DIET**  
and weekly hemodialysis in chronic renal failure, 476  
effect on daily hepatic output in bile of lipids and steroids, 160  
regulation of glycolytic enzymes in jejunum, 291  
therapy of lymphopenic autoimmune disease, 318  
therapy of uremia, 389  
unresponsiveness of pre-beta-lipoproteinemia to, 351
- DIETARY PROTEINS**  
in uremia, 138  
low protein, high amino acid diet for patients on chronic hemodialysis, 139  
short-term changes in, effect on renal function, 383
- DIETHYLSTILBESTROL**  
activation of adenyl cyclase in chick oviduct, 523
- DIGESTION**  
peptic digestion of IgA myeloma proteins in vitro, 451
- DIGITALIS GLYCOSIDES**  
cardiovascular effects in dogs, 108  
determination in plasma, 73, 249  
dosage of, computer program for determination of, 107  
effect on central and isolated pulmonary blood volume in hypervolemic dogs, 144  
effect on contractility of uremic heart, 253  
effect on myocardial metabolism, 224  
effect on oxygen consumption and heart rate, 110  
hemodynamic and ballistocardiographic effects, 227  
induction of arrhythmias, effect of hypoxia and hypercapnia, 253  
induction of arrhythmias in beating heart cells in culture, 143  
inotropic effect on dog heart, 221  
intoxication, tissue levels of digoxin in, 72
- DIGITOXIN**  
effect on atrial gallops, 109
- DIGOXIN**  
binding to myocardium, 434  
biologic activity of digoxin-specific antisera, 252  
clearance of, correlation with creatinine clearance, 381  
metabolism and excretion in infants and adults, 28  
metabolism in aged, 27, 229  
myocardial levels at autopsy, 143  
placental transfer in dogs, 26  
tissue levels and distribution in digitalis intoxication, 72  
turnover in biliary fistula patients, 70
- DIHYDROTESTOSTERONE**  
identification as active form of testosterone, 74
- DIHODOTYROSINE**  
effect on glucose oxidation and phospholipogenesis in thyroid slices, 263
- 3, 4-DIMETHOXYPHENETHYLAMINE**  
lability of methoxyl groups in, 124
- 5, 5-DIMETHYL-2, 4-OXAZOLIDINEDIONE**  
in determination of intracellular pH, 167
- DIPHENYLAMINE**  
test for screening for bacteriuria, 47  
use in determination of plasma DNA levels, 546
- DIPHENYLHYDANTOIN**  
effect on myocardial potassium balance, 233  
effect on procaine amide action on cardiac conduction, 233  
induction of chromosome abnormalities, 310  
metabolism after i.v. administration, 464  
quantitative assay in plasma and urine of humans, 339
- DIPHOSPHOGLYCEROMUTASE**  
activity in RBCs, effect of nitrogen on, 543
- DIPYRONE**  
effect of triiodothyronine on metabolism of, 463
- DISACCHARIDASES**  
activities in resected small bowel, 295
- DISEASE**  
serum seromucoid levels in screening for, 549
- DISULFIDES**  
bonds, effect of hydralazine on, 320
- DISULFIRAM**  
cardiovascular effects of ethanol in animals treated with, 436
- DIURESIS**  
effect on G-6-PD activity of macula densa and plasma renin activity, 394  
impaired water diuresis in adrenal insufficiency, 474  
limitations in treatment of sedative intoxication, 166  
mannitol diuresis in dog nephron, micropuncture study of, 565  
Na, Ca and Mg excretion during water diuresis, 378  
Na diuresis induced by renal vasodilatation, 385  
Na diuresis, suppression by provision of chloride, 564  
paradoxical water diuresis in shock during saline loading, 391  
water diuresis after hyponatremia, effects on renal function, 384  
water diuresis, effect on L-form infection in rats, 46  
water diuresis, urine acidification and electrolyte excretion in, 65, 398
- DIURETICS**  
effect on beta cells of islands of Langerhans, 32
- in management of chronic uremia, 398  
mefruside, effects of single oral dose, 400  
MK 870, comparison with triamterene and spironolactone, 140
- DIVERTICULOSIS**  
remission of malabsorption associated with, 530
- DNA**  
base synthesis, effect of x-irradiation, 125  
DNA-protein complexes in leukemia, 359  
increase in myocardium in myocardial hypertrophy, 231  
myocardial synthesis in experimental cardiac hypertrophy, 241  
plasma levels, determination by diphenylamine reaction, 546  
replication analysis, 120  
synthesis in leukocytes cultured from leprosy patients, 328  
synthesis in malaria, 334  
synthesis in mammary carcinoma cells, hormonal dependence of, 364  
synthesis in thoracic duct lymphocytes, estimating time for, 316  
synthesis, inhibition by hydroxyurea, 53
- DOPAMINE**  
effect on blood pressure and urinary catecholamine excretion, 90  
therapy of phenobarbital intoxication in dogs, 27  
therapy of shock, 250
- DRUG ADDICTION**  
infective endocarditis in, 328  
liver disease in, 292
- DRUG THERAPY**  
of dissecting aortic aneurysm, 243
- DUCTUS ARTERIOSUS, PATENT**  
left ventricular performance and myocardial mechanics in, 240
- DUODENUM**  
active Ca transport in muscularis of, 385  
pathology in Wolman's cholesterol storage disease, 449  
preferential uptake of iron by microvilli, 285  
reduced pH in, causing lipid malabsorption in hamsters, 38
- DYE DILUTION TECHNIC**  
in assessment of mitral regurgitation, 26  
selective dye dilution curves in normals and in coronary disease, 104
- ECHO VIRUS INFECTIONS**  
meningitis in children, 49
- EDEMA**  
caused by vitamin E deficiency in premature infants, 155
- EDTA**  
effect on calcium transfer rate, 355

- EDTA (*Cont'd*)  
inhibition of fava bean hemagglutination, 324
- EISENMENGER COMPLEX  
prognosis in, 434
- ELASTASE  
determination methods for, 119  
from *Staphylococcus epidermidis*, 260  
role in acute hemorrhagic pancreatitis, 151, 285
- ELASTIN  
metabolism in arteries and lipid accumulation in atherosclerotic plaque, 236
- ELECTRIC COUNTERSHOCK  
hemodynamic results from, 436  
low energy, effect on rapid ectopic atrial rhythms, 24  
stimulation of intracardiac nerves by, 225
- ELECTRIC POTENTIAL  
intestinal transmural potentials, effects of bile salts, 529  
potential difference of intestine in relation to monosaccharide and Na transport, 285  
slow wave of circular muscle of colon, 447
- ELECTRIC STIMULATION  
after coronary artery ligation, effect of acetylcholine, 26  
of anal sphincter contraction, 294
- ELECTRICITY  
d.c. pulses causing ventricular arrhythmias, 232  
induction of thrombi, 42
- ELECTROCARDIOGRAPHY  
continuous monitoring by computer, 108  
functional and organic T-wave abnormalities, 29  
graded stress. treadmill exercise ECG, 367  
in aortic valve disease, 29  
in detection of cardiac pacemaker-brain dysfunction, 105  
monitoring during rehabilitation therapy, 105  
P wave, relation to left atrium, 25  
QRS changes, approximation by conducting model, 69  
surface electrocardiograms, 220
- ELECTROMYOGRAPHY  
correlation with phonogram of deglutition, 280
- ELECTROLYTES  
excretion during water diuresis, 65  
imbalance associated with polymyxin B administration, 462  
intestinal transport in rat *Salmonella enterocolitis*, 290
- ELECTROTHERAPY  
faradic stimulation for anal sphincter malfunction, 533
- ELLIPTOCYTOSIS, HEREDITARY  
erythrocyte study in, 299  
pathogenesis of, 79
- ENDOCARDITIS, BACTERIAL  
in narcotic addicts, 328
- ENDOCRINE DISEASES  
diurnal amino acid rhythms in, 355
- ENDOCRINE GLANDS  
effect of prolonged total starvation on, 116  
function tests in hypothalamic disease, 270
- ENDOTOXIN SHOCK SEE SHOCK, ENDOTOXIC
- ENDOTOXINS  
activation of human plasma kallikrein, 157  
"anamnestic" tolerant responses to, transfer by spleen cells, 337  
cholera toxin inducing intestinal secretion of bicarbonate, 447  
circulating endothelial cells in rabbits treated with, 535  
effect on granulocytes and plasma kinin system, 333  
effect on immune response to tumors, 356  
induction of initial cardiac stimulation, 225  
induction of microcirculatory changes in primates, 107  
protective effect of alloxan diabetes in endotoxemia, 459  
sensitivity in rates with fatty liver, 289  
tolerance without anti-"O" antibody in splenectomized host, 337
- ENZYME PRECURSORS  
synthesis by pancreas, control, 78
- ENZYMES  
analysis by diffusion technique, 138  
content in casts in chronic renal diseases, 478  
diversity in human hepatic porphyria, 297  
drug metabolizing enzymes in Cu-deficient rats, 140  
effect on toxic factor from scalded human skin, 458  
glycolytic, dietary regulation in jejunum, 291  
profiles in evaluation of pulmonary infarction, 512  
selective hypersecretion in stomach cancer, 78  
serum enzyme activity, preservation by quick freezing, 435  
serum patterns after ischemia of liver and kidney, 377  
synthesis in rat uterus, stimulation by estradiol, 82
- EOSINOPHILS  
in vesicle smears in contact dermatitis, 258
- EPIDEMIC HEMORRHAGIC FEVER  
disseminated intravascular coagulation in, 330
- EPINEPHRINE  
causing increased serum thyroxine binding, 147  
effect on glucagon and insulin release from isolated islets, 354
- effect on intrarenal blood flow distribution, 382  
effect on lipid metabolism in man, 467  
effect on lung diffusion of CO<sub>2</sub>, 562  
effect on myxedematous myocardium, 29  
effect on secretion of somatotropin and thyrotropin in vitro, 277  
effect on somatotropin and prolactin synthesis, 441  
role in regulation of insulin secretion, 130
- ERYTHROBLASTOSIS, FETAL  
endogenous carbon monoxide production in, 538
- ERYTHROCYTE SURVIVAL  
effect of graded erythropoietic stimulation on, 307  
lifespan, effect of erythropoietic rate, 122  
measurement by different methods, 315  
modification by membrane cholesterol, 301
- ERYTHROCYTES  
aggregation in myocardial infarct, 247  
aging with associated hemoglobin loss, 123  
carbonic anhydrase activity in thyroid disease, 265  
complement coating by eluates from patients with positive direct antiglobulin reactions, 305  
damage from shearing stress, 310  
2, 3-diphosphoglycerate mutase activity, effect of nitrogen on, 543  
effect of magnetic fields on, 544  
effect of phospholipase C on membrane of, 453  
effect of transport inhibitors on Na outflow in, 565  
fatty acid incorporation into membrane phospholipids in hemolytic states, 314  
from alligator, human immune response to, 319  
G-6-PD stability in, effect of reduction of oxidized glutathione, 311  
in G-6-PD deficiency, hemolytic effect of estrogen on, 544  
intracellular enzymes and glutathione, effects of H<sub>2</sub>O<sub>2</sub> on, 303  
iodohippurate and p-aminhippuric acid extraction from by kidney, 399  
metabolism of, relation to oxygen transport, 454  
morphology and kinetics in hypercholesteremia, 125  
Na transport alterations in malaria, 61, 382  
Na transport in uremia, 169  
ouabain-sensitive ATPase defect in, induction by uremic plasma, 90

**ERYTHROCYTES (Cont'd)**

- oxidative injury caused by copper sulfate, 309, 456
- pentose phosphate pathway in, 153
- phosphoglycerate kinase deficiency in, 307
- production of paroxysmal nocturnal hemoglobinuria-like features in, 456
- pyruvate kinase deficiency of, 540
- spur cell abnormality associated with alcoholism, 303
- thiamine pyrophosphate deficiency in infected patients, 330
- transketolase activity in liver cirrhosis, 118
- with normal protoporphyrin levels, in erythropoietic protoporphyria, 256
- zeta potential correlation with sedimentation rate, 535
- ERYTHROCYTOSIS** SEE **POLYCYTHEMIA**
- ERYTHROMELALGIA**
  - effect of beta adrenergic blockade and methysergide in, 518
- ERYTHROPOIESIS**
  - activity during hypertransfusion and phlebotomy in sheep, 315
  - changes during bed rest, 309
  - component of early-labeled bilirubin, 312
  - effect of azathioprine on, 42
  - gamma globulin inhibitor of, in plasma from thymoma patients, 536
  - graded stimulation, effect on erythrocyte survival, 307
  - rate, effect on RBC lifespan, 122
- ERYTHROPOIETIN**
  - activity in long-term hemodialyzed uremic patients, 165
  - effect of cobalt on activity of, 395
  - effect on bone marrow 5-aminolevulinic acid synthetase, 300
  - effects on late marrow maturation phase, 304
  - fractionation of, 80
  - increased excretion after i.m. vasopressin injection, 305
  - increased production causing familial erythrocytosis, 40
  - inhibition by kidney homogenates from uremic humans, 62
  - production in human pregnancy, 308
  - production suppression by plethora, 306
- ESCHERICHIA COLI**
  - ampicillin-resistant, effect of carbenicillin, 548
  - mutant, diminished pathogenicity for the kidney, 331
- ESOPHAGUS**
  - beta-adrenergic receptors in, 291
  - inferior esophageal sphincter, identification in dogs, 448

- lower esophageal pressure zone, effect of vagotomy on, 527
- lower sphincter, elastance of, 39
- measurement of force, work and power in, 118
- motility in diabetes mellitus, 78
- ESTERASES**
  - alkaline lipolytic activity in adipose tissue, 296
- ESTRADIOL**
  - effect on plasma insulin responses to glucose, 338
  - stimulation of glycoprotein enzyme synthesis in rat uterus, 82
- ESTROGENS**
  - alteration of metabolic effects of human somatotropin by, 520
  - effect on hypoprothrombinemia in chickens, 313
  - effect on plasma testosterone in hirsute women, 523
  - effect on sebaceous gland turnover time, 259
  - hemolytic effect on G-6-PD deficient RBCs, 544
  - induction of severe hypertriglyceridemia, 356
  - influence on sex chromatin frequency in buccal and vaginal smears of newborns, 522
- ETHACRYNIC ACID**
  - amelioration of inappropriate antidiuretic hormone syndrome, 164
  - effect on kidney function in pulmonary edema and in systemic vascular congestion, 135
  - effect on renal excretion of urate, 92
  - reversal of hepatorenal syndrome, 166
- ETHANOL** SEE **ALCOHOL**, **ETHYL**
- ETHINYL ESTRADIOL**
  - effect on testosterone production in man, 35
- ETIOCHOLANOLONE**
  - granulocyte response in rheumatic diseases to, 326
  - pyrogenic effects, in vitro study, 33
- EXERCISE**
  - bicycle riding, training effect in middle-aged men, 250
  - cardiovascular training effect of bicycling or jogging, 437
  - circulatory responses at cold temperature, 228
  - effect on blood sugar in diabetics on insulin, 466
  - effect on cardiac output, 31
  - effect on oxygen debt and ventilation in heart disease patients, 161
  - effect on plasma glucose, immunoreactive insulin and growth hormone, 437
  - graded stress treadmill exercise ECG, 367
  - hemodynamic effects in aortic stenosis, 220
  - hemodynamic effects in mitral stenosis, 245

- in detection of myocardial impairment, 242
- induction of bronchoconstriction in asthma, 162
- induction of cardiac irritability, 234
- pulmonary ventilatory patterns during, 373
- responses in tetralogy of Fallot, 370
- systolic time intervals in coronary atherosclerosis after, 438
- ventilation transients before and after, 162
- EXTRACELLULAR SPACE**
  - expansion of causing increased phosphate excretion, 352
  - expansion of, effect on renal reabsorption of urate, 397
  - relation to arterial pressure during drug-induced saluresis, 564
- EXTREMITIES**
  - temporary ischemia causing pulmonary changes, 133
- EYE**
  - oculocardiac reflex, hemodynamic effects, 31
- FACTOR VII**
  - splenic regulation of, 541
- FACTOR VIII**
  - failure of cultured lymphocytes to synthesize, 537
  - precipitation by concanavalin A, 455
  - spontaneous inhibitors of, 304
  - stability in fresh-frozen plasma, 455
- FACTOR XII DEFICIENCY**
  - abnormal platelet aggregation in, 123
- FASTING**
  - effect on lipid re-esterifying enzymes in small intestine, 532
  - renal and electrolyte changes during, 396
- FATS**
  - absorption in absence of bile salt, 290
  - absorption in resected bowel, effect of oral calcium, 281
  - exogenous fat intolerance, 550
  - norepinephrine-induced lipolysis, effect of prostaglandins, 30
- FATTY ACIDS**
  - acetate as mediator in reduction of plasma free fatty acids after ethanol, 340
  - effect on glucose metabolism in perfused working heart, 86, 340
  - in phospholipids of brain in Gunn rats, 161
  - incorporation into lipoproteins by intestinal epithelium, 286
  - increased incorporation into RBC membrane phospholipids in hemolytic states, 314
  - oxidation by mitochondria from diabetic liver, 464

- FATTY ACIDS (Cont'd)**  
 oxidation by platelets, 302  
 propionate depression of Na transport by isolated bladder, 168  
 regulation of hepatic gluconeogenesis, 350  
 role in platelet aggregation, 304  
 Shwartzman reaction produced by infusion of, 312  
 synthesis, effect of factor in liver microsomes, 51  
 synthesis in liver, effect of glycolytic rate, 356  
 synthesis, microsomal stimulation of, 342
- FATTY ACIDS, NONESTERIFIED**  
 effect of protein deficiency on absorption of, 291  
 reduction in plasma after ethanol, 340
- FATTY LIVER**  
 endotoxin sensitivity in rats with, 289  
 induction by tetracycline, 37
- FAVA BEANS**  
 extracts causing hemagglutination, inhibition by EDTA, 324
- FECES**  
 bile salt excretion in mixed hyperlipidemia, 293  
 flora of, effect of cephaloglycin in liver cirrhosis, 38  
 Lactobacillus counts after oral administration of *L. acidophilus*, 449
- FENTANYL**  
 effect on myocardium, 514
- FERRITIN**  
 two molecular forms in bone marrow, 535
- FETAL DEATH**  
 relation of amniotic fluid osmolality to, 60
- FETUS**  
 anti-insulin antibodies in, 321  
 heart rate in complicated pregnancy, effects of drugs on, 432  
 hemodynamic response to hyperbaric oxygen, 161  
 maternal-fetal thyroid interrelationships, 525  
 pituitary MSH and ACTH activities in, 35  
 placental transfer of  $H^3$ -digoxin, 26
- FEVER**  
 induction by etiocholanolone, in vitro study of, 33  
 turpentine abscess fever, inhibitory failure of reserpine, 85
- FIBRINOGEN**  
 activity in vivo, determination, 50  
 catabolism in microangiopathic hemolytic anemia, 298  
 catabolism in thrombotic thrombopenic purpura, 454  
 reduction by anticoagulant in therapy of thrombosis, 221
- FIBRINOLYSIS**  
 assay in pulmonary embolism, 438  
 therapy of massive experimental pulmonary embolism, 56
- FIBRINOLYSIS**  
 in cancer, 362
- FIBRINOLYTIC AGENTS**  
 effect on  $\beta_2$ C-globulin, 452  
 therapy of pulmonary thromboembolism, 368
- FIBROBLASTS**  
 action of polymorphonuclear leukocytes on, 45  
 increased cystine content in cystinosis patients, 52  
 purine overproduction caused by HG-PRTase deficiency, 52  
 synovial, uptake of hydrocortisone in tissue culture, 459
- FIBROUS DYSPLASIA OF BONE**  
 effect of renal transplantation on, 112
- FINGERS**  
 ulnar drift in rheumatoid disease, 458
- FLUORESCCEIN**  
 induction of nausea in diabetics, 550
- FLUORIDES**  
 effect on Ca kinetics in Paget's disease of bone, 466
- FOLIC ACID**  
 antibodies against, 541  
 hematologic response of pernicious anemia to, 454  
 metabolism in complicated pregnancy, 353  
 5-methyldihydrofolate, identification as component of serum folate in man, 544  
 methyltetrahydrofolate, metabolism in man, 537  
 regulation of jejunal glycolytic enzymes, 450
- FOLLICLE-STIMULATING HORMONE**  
 clearance rates and production rates in women, 264  
 effects on Sertoli cells in hypophysectomized rats, 113  
 plasma levels in menstruation, 263  
 plasma levels in normal female cycle, 33
- FOOD INTAKE**  
 hypothalamic "feeding center," effect of lesions, 346  
 patterns of calorie intake in man, 339
- FOREIGN BODIES**  
 in kidney after pyelography, 477
- FRUCTOSE**  
 control of jejunal sucrase and maltase activity, 292  
 intestinal absorption of, enhancement by glucose, 280  
 mechanism of absorption of, 283  
 metabolism of, relation to glucose metabolism, 337
- FSH SEE FOLLICLE-STIMULATING HORMONE**
- FUCOSE**  
 serum levels during oral glucose tolerance tests, 551
- FUROSEMIDE**  
 amelioration of inappropriate antidiuretic hormone syndrome, 164  
 effectiveness in severe renal insufficiency, 66  
 enhancement of renal blood flow, 476  
 reduction of arterial pressure with increase in renal plasma flow, 62
- GALACTOSE**  
 causing alteration in testicular metabolism of inositol, 465
- GALACTOSIDASE**  
 in human urine, 135  
 intestinal, in lactase deficiency, 117  
 lysosomal localization in rat intestine, 279
- GALLBLADDER**  
 secretion of mucous substances in induced cholelithiasis, 151
- GAMMA GLOBULIN**  
 development of tolerance to, 318  
 hypogammaglobulinemic sprue, 117  
 immunological heterogeneity of Fc fragment of, 458  
 immunological studies in patients with positive direct antiglobulin reactions, 82  
 inhibitor of erythropoiesis in plasma from thymoma patients, 536
- CASES**  
 in hepatic portal vein, 77
- GASTRIC JUICE**  
 $H^+$  activity, radiological assessment of, 288
- GASTRIC MUCOSA**  
 parietal cell antibody-antibody reaction, 286  
 multiple superficial erosions causing hemorrhage, 292  
 permeability of, effect of vagotomy, salicylates and steroids on, 289
- GASTRIC SECRETION**  
 effect of oral calcium carbonate on, 446  
 hypersecretion causing diarrhea, 447  
 in Zollinger-Ellison syndrome, suppression by brocresine, 287  
 response to gastric distention after antral denervation, 449  
 stimulation by pentapeptide, histamine acid phosphate and histalog, 531
- GASTRIN**  
 effect on insulin release in vitro, 521  
 gastrin-like activity in serum, bioassay, 39  
 gastrin-like pentapeptide, inhibition of glucose absorption, 531  
 gastrin-like pentapeptide, stimulation of gastric secretion, 531  
 hypergastrinemia in Zollinger-Ellison syndrome, 288

- GASTRIN** (*Cont'd*)  
 pentagastrin, effect on isolated stomach and pancreas, 282
- GASTROESOPHAGEAL SPHINCTER**  
 elastance of, 39
- GASTROINTESTINAL SYSTEM**  
 pharmacologic differentiation of sphincteric and non-sphincteric muscle, 527
- GAUCHER'S DISEASE**  
 histochemical and electron microscopic study of, 87  
 source of glucocerebroside in, 537
- GENES**  
 frequency in relation to placental alkaline phosphatase, 120
- GENETICS**  
 developmental genetics of mouse hemoglobins, 121  
 dominantly inherited low-frequency hearing loss, 40  
 variant of glucose-6-phosphate dehydrogenase in Philip-pines, 297
- GERM-FREE LIFE**  
 increased tolerance to high doses of azathioprine in, 84
- GLOBULINS**  
 concanavalin A, precipitation of antihemophilic factor, 455
- GLOMERULAR FILTRATION RATE**  
 determination with  $\text{Cr}^{51}$ -inulin, 391
- GLOMERULONEPHRITIS**  
 acute antiserum glomerular nephritis, development in dogs, 384  
 acute oliguric, 139  
 antiserum glomerular nephritis, cardiac function in, 475  
 course and prognosis in children, 60  
 pathogenesis of lung lesions in, 478  
 serum cryoproteins in, 325
- GLUCAGON**  
 cardiovascular effects of, 238  
 effect on histidine turnover, 125  
 effect on myocardial force-velocity relation, 436  
 effect on pancreatic exocrine secretion, 283, 529  
 in blood, bile and pancreatic juice, effect on pancreozymin administration, 128  
 inotropic and chronotropic effects on heart, 27  
 intramuscular administration, induction of somatotropin secretion, 520  
 labeled, simple method for purification of, 442  
 release from isolated islets, effect of pituitary and adrenal hormones, 354  
 release from isolated pancreatic islets, effect of adrenalectomy, 131  
 role in hyperaminoacidemia, 87
- GLUCONEOGENESIS**  
 hepatic, fatty acid regulation of, 350
- inhibition by 4-pentenoic acid, 340  
 inhibition by phenformin in man, 50  
 patterns during prolonged starvation, 348  
 stimulation by phenformin in non-diabetics, 160
- GLUCOSE**  
 absorption from jejunum, effect of starvation, 279  
 administration, effect on urinary Ca and Mg excretion, 393  
 effect on CNS control of lipolysis in baboons, 158  
 effect of hydralazine on turnover of, 469  
 enhancement of fructose absorption in rats, 280  
 impaired tolerance caused by diabetes mellitus or by aging, 158  
 ingestion causing diminished renal tubular reabsorption of Ca and Mg, 388  
 intestinal absorption of, inhibition by gastrin-like peptide, 531  
 intolerance in liver disease patients, 86  
 metabolism in adipose tissue, control of, 551  
 metabolism in human arterial intima, 516  
 metabolism in perfused working heart, effect of fatty acids, 86, 340  
 metabolism in small intestine strips, 37  
 metabolism, relation to fructose metabolism, 337  
 overproduction in obese-hyperglycemic mice, 351  
 oxidation in thyroid slices, effect of iodotyrosines, 263  
 tolerance during exposure to high altitude, 269  
 tolerance in elderly, 466  
 tolerance in Navajo Indians and Amish, 350  
 transport in normal and in diabetic men, 352  
 uptake in man in vivo, 129  
 urinary metabolites of, 354
- GLUCOSE, BLOOD** *SEE* BLOOD SUGAR
- GLUCOSE TOLERANCE TEST**  
 effect on blood sugar and insulin, influence of age and sex, 342  
 in familial endogenous hypertriglyceridemia, 343  
 intravenous, during menstrual cycle, 463  
 serum fucose levels during, 551
- GLUCOSE-6-PHOSPHATE DEHYDROGENASE**  
 activity in kidneys, control of, 61  
 activity of macula densa, effect of heat and diuresis on, 394  
 new genetic variant in Philip-pines, 297  
 stability in erythrocytes, effect of reduction of oxidized glutathione on, 311
- GLUCOSE-6-PHOSPHATE DEHYDROGENASE DEFICIENCY**  
 hemolytic effect of estrogen in, 544  
 oxidized glutathione in erythrocytes in, 125  
 virus-induced hemolysis of erythrocytes from, 310  
 X-inactivation in heterozygous carriers of, 452
- GLUCOSIDASE**  
 lysosomal localization in rat intestine, 279
- GLUCOSYLTRANSFERASES**  
 hypoxanthine-guanine phosphoribosyltransferase deficiency in fibroblasts causing purine overproduction, 52  
 hypoxanthine-guanine phosphoribosyltransferase deficiency in lymphocytes, 549  
 phosphorylases in human platelets, 306  
 pyrimidine deoxyribosyltransferase deficiency in myelogenous leukemia, 359
- GLUCURONIC ACID**  
 urinary excretion after N-acetyl-p-aminophenol in normals and liver disease, 50
- GLUTAMATES**  
 effect on disappearance of i.v. glucose, 112, 260  
 excess plasma levels in gout, 348  
 hypcholesteremic effect in man, 338
- GLUTAMINE**  
 effect on ammonium ion excretion in normals and in kidney disease, 168  
 peripheral release as defense against ammonemia, 345
- GLUTATHIONE**  
 oxidized, in G-6-PD deficient erythrocytes, 125  
 reduced, induction of PNH-like cells, 302  
 reduction of, and stability of G-6-PD in erythrocytes, 311
- GLUTATHIONE REDUCTASE**  
 activation in erythrocytes by  $\text{H}_2\text{O}_2$ , 303
- GLUTEN**  
 effect on blood lymphocytes, 283
- GLYCEROL**  
 effects of i.m. injection in azo-temic rats, 566
- GLYCEROL TRIETHER**  
 use in study of intestinal absorption of lipids, 448
- GLYCEROPHOSPHATES**  
 effect on  $\text{O}_2$  affinity of blood in sickle cell anemia, 301
- GLYCERYL GUAIACOLATE**  
 anticoagulant effect of, 41
- GLYCERYL TRINITRATE**  
 effect of myocardial oxygen consumption, 221
- GLYCINE**  
 glycine: taurine ratios of bile salts in ileal disease, 284  
 loading test in intermittent porphyria, 87

- GLYCOGEN**  
glycogenolysis in human fat cells, regulation of, 553  
glycogenolysis in platelets, 306  
metabolism in azotemic rats, 392
- GLYCOGENOSIS**  
type II, therapy with *Aspergillus* extracts, 345
- GLYCOLYSIS**  
anaerobic, in thymic slices, 363  
rate of, effect on fatty acid synthesis in liver, 356
- GLYCOPROTEINS**  
orosomucoid activity in vivo, determination, 50  
orosomucoid metabolism in injury, 469  
serum levels in experimental malaria in man, 331  
serum mucoids in breast carcinoma, 558  
synthesis in rat uterus, stimulation by estradiol, 82  
turnover following injury, 128
- GOITER, EXOPHTHALMIC**  
euthyroid Graves' disease, radiothyroxine turnover in, 34  
radiiodine vs. antithyroid drug treatment of, 268, 441  
serum from, effect on sulfate uptake by mouse Harderian gland, 526
- GONADOTROPINS**  
production by bronchogenic carcinoma, 361, 557
- GONADOTROPINS, CHORIONIC**  
effect on Leydig cells, 115  
effect on pregnenolone metabolism in placenta, 275  
effect on testosterone production in man, 35
- GONADOTROPINS, PITUITARY**  
increased levels in postmenopausal women induced by progestogens, 149  
regulation of secretion of, 274  
serum levels in idiopathic hypogonadotropic hypogonadism, 445
- GOODPASTURE'S SYNDROME**  
immunopathogenesis of, 324
- GOUT**  
ammonia excretion in, effect of allopurinol, 53  
hyperglutamatemia in, 348  
hyperuricemia and decreased feedback inhibition in, 350
- GRANULOCYTES SEE LEUKOCYTES**
- GRANULOMA**  
granulomatous disease of childhood, leukocyte defect in, 332  
liver biopsy in, 76
- GRAVES' DISEASE SEE GOITER, EXOPHTHALMIC**
- GRAVITATION**  
high G forces causing endogenous carbon monoxide production, 301
- GROWTH HORMONE SEE SOMATOTROPIN**
- GUANETHIDINE**  
metabolism and urinary excretion of, in hypertension, 244
- GUANIDINOSUCCINIC ACID**  
implication as factor in uremic bleeding, 397
- GUANINE DEAMINASE**  
serum levels in differential diagnosis of jaundice, 528
- HALOTHANE**  
effect on distribution of infused  $K^+$ , 369  
i.v. administration producing lung damage, 561
- HAND LOTIONS**  
contaminated, causing hospital infections, 333, 548
- HAPTOGLOBINS**  
activity in vivo, determination, 50  
metabolism in polycythemia vera, 360  
method of study of metabolism of, 470
- HEAD INJURIES**  
ultrasonic and isotopic scanning in patients with, 132
- HEART**  
analysis of curve of contractile tension of, 243  
anoxia and metabolic, ECG and mechanical changes in 247  
cardio-renal dynamics in paced patients, 228  
cardiorespiratory reflexes, effect of dibenzylamine on, 473  
conditional reflexes of, 243  
contractility, effect of antiarrhythmic agents, 433  
contractility, effect of hyperbaric oxygenation, 72  
contractility in uremia, effect of digitalis, 253  
contractility, influence of adenosine nucleotides, 70  
contractility, intracellular Ca levels and effect of ouabain, 145  
contractility, mesenteric chemoreflex effects on, 145  
contractility responses to postextrasystolic potentiation and norepinephrine, 438  
dipole moment determination of, 252  
ectopic beats provoked by exercise, 234  
effect of acetylcholine in man, 56  
effect of carotid sinus nerve stimulation on, 235  
effect of chronic hypoxia on, 68  
effect of glucagon on, 27  
effect of intestinal ischemia on, 514  
effect of morphine and fentanyl on, 514  
effect of prostaglandins on, 30  
force-velocity relation of, effects of glucagon and catecholamines on, 436  
function after exercise in coronary atherosclerosis, 438  
function in dogs with antiserum glomerular nephritis, 475  
growth in response to aortic constriction in hypophysectomized rats, 514  
in myxedema, effect of epinephrine infusion, 29  
in triiodothyronine-induced hypermetabolism, effect of propranolol, 239  
increased protein synthesis in overloaded hearts, 248  
initial cardiac stimulation induced by endotoxin, 225  
inotropic effect of catecholamine and digitalis glycoside on, 221  
intracardiac pressures after volume overload, 108  
isoproterenol effects on, blockade by MJ 1999 isomers, 249  
lymph drainage of, effect of total interruption in dogs, 73  
oculocardiac reflex, hemodynamic effects, 31  
ouabain effect on, time dependence, 30  
responses during rehabilitation therapy, 105
- HEART ARREST**  
acalemic and hyperkalemic, comparison of, 518
- HEART, ARTIFICIAL**  
cardiac assist pump with non-clotting outlet valve, 68  
implantable nuclear power sources for, 517
- HEART ATRIUM**  
atrial pacing, effect on left ventricular performance, 435
- HEART ATRIUM, LEFT**  
angiocardigraphic study of P wave and, 25  
pathology of, relation to atrial fibrillation in mitral valve disease, 141
- HEART ATRIUM, RIGHT**  
performance after vagal stimulation, 28
- HEART BLOCK**  
bundle branch block during aberrant ventricular conduction, 226  
effect on renal blood flow, 236  
myocardial extraction of oxygen, pyruvate and lactate in, 435
- HEART CATHETERIZATION**  
computer analysis of data from, 108  
distortion of left ventricular pressure, 104  
electromagnetic catheter flowmeter, 110  
intracardiac catheter for continuous monitoring of coronary patients, 140  
recording of activity of bundle of His during, 247
- HEART CONDUCTION SYSTEM**  
activation of atrial septum in dogs, 252  
adrenergic nerve studies in heart failure in calves, 111  
A-V conduction, effect of cardiac glycosides on, 222  
A-V conduction, effect of posture, 222

## HEART CONDUCTION SYSTEM

(Cont'd)

- bundle of His electrograms, 237
- bundle of His, recording of activity during heart catheterization, 247
- effect of procaine amide and diphenylhydantoin on, 233
- stimulation of intracardiac nerves during counter-shock, 225
- HEART DEFECTS, CONGENITAL
  - cyanotic, ventilatory response to hypoxia in, 369
- HEART DISEASES
  - exercise test of cardio-pulmonary function in, 161
  - force-velocity observations in, 234
  - hyperkinetic heart syndrome, beta adrenergic stimulation and blockade in, 438
  - ischemic, hemodynamic-angiographic correlations in, 246
  - myocardial antibodies in, 25
  - myocardial lactate dehydrogenase isoenzymes in, 511
  - pulmonary surfactant in patients with, 89
- HEART ENLARGEMENT
  - determination in patients undergoing chronic hemodialysis, 141
  - myocardial DNA increase in, 231
  - myocardial DNA synthesis in experimental, 241
  - prevention in thalassemia major, 311
- HEART FAILURE, CONGESTIVE
  - assessment of diagnostic and therapeutic results, 367
  - increased orthostatic tolerance associated with circulatory congestion, 515
  - myocardial norepinephrine synthesis in, 227
  - sequential studies of lung function in, 368
- HEART FUNCTION TESTS
  - contractile element velocity in focal myocardial ischemia, 234
  - force-velocity observations in heart disease, 234
  - force-velocity relations of left ventricle in man, 241
  - ventricular performance assessment, 241
- HEART MURMURS AND SOUNDS
  - first sound, PR interval as determinant of, 225
  - late systolic murmur in mitral insufficiency, 223
  - presystolic murmur in mitral stenosis, 142
- HEART OUTPUT
  - effect of exercise on, 31
  - high output in septic shock, 24
- HEART RATE
  - changes during vestibular stimulation, 510
  - effect of chronic digitalization on, 110
  - in fetus in complicated pregnancy, effects of drugs on, 432

## HEART SEPTAL DEFECTS, ATRIAL

- closure in patients with heart failure, 251
- factors affecting shunting in, 71
- left ventricular function in, 136, 229

## HEART SEPTAL DEFECTS, VENTRICULAR

- left ventricular performance and myocardial mechanics in, 240

## HEART SEPTUM

- atrial, activation in dogs, 252

## HEART SURGERY

- incidence of postcardiotomy syndrome, 226

## HEART TAMPONADE

- catecholamine effects on cardiovascular responses to, 110
- "Y" ascent in, 107

## HEART VALVE DISEASES

- exercise cardiac output in, 31

## HEART VALVE PROSTHESIS

- flow profile through prosthetic mitral valve, 434

## HEART VENTRICLE

- function analysis by thermodilution, 106

- function and energy utilization, effects of angiotensin and isoproterenol on, 231

- performance, alteration by intra-aortic balloon diastolic augmentation, 251

- pressure analysis by computer, 367

- reduced filling, effect on performance, 27

- relaxation, effect of  $\beta$ -adrenergic drugs, 224

## HEART VENTRICLE, LEFT

- catheter distortion of pressure in, 104

- dysfunction in mitral stenosis, 244

- effect of acute lactic acidosis on function of, 32

- effect of atrial pacing on performance of, 435

- ejection time in myocardial and pericardial disease, 235

- failure in patients with atrial septal defects, 251

- force-velocity relations in, 28

- function after experimental myocardial infarct, 252

- function curve, 144

- function, effect of coronary vasodilators and beta-adrenergic blockers, 433

- function, effect of myocardial hypoxia and hypercarbia on, 250

- function in aortic valve disease and after homograft valve replacement, 235

- function in atrial septal defect, 136, 229

- hyperkinetic contraction causing intracavitary pressure differences, 106

- hypertrophy, plain chest films in, 250

- mean and instantaneous force-velocity relations of, 241

- mechanics during beta adrenergic stimulation and simultaneous blockade, 518

- performance after vagal stimulation, 28

- performance during hypovolemia, 31

- performance in acute adrenal insufficiency in dogs, 516

- pressure-dimension loops of, 105

- subendocardial ischemia of, 231

- thermal washout curve of, 105

- volume of, measurement, 110

- wall stresses in man, 513

## HEART VENTRICLE, RIGHT

- function in pulmonary embolism, 240

- hypertrophy, correlation with vectrocardiogram, 228

- implanted pacemakers, complications of, 240

## HEAT

- cardiovascular response to, 232

- effect on G-6-PD activity of macula densa and plasma renin activity, 394

## HEAVY CHAIN DISEASE

- study of protein from, 320

## HELIUM

- He-O<sub>2</sub> therapy of chronic obstructive lung disease, 58

- transfer in demonstration of pulmonary collateral ventilation, 368

## HEMAGGLUTINATION

- activity of serum and parotid fluid of ragweed-sensitive patients, 319

- antibodies in inflammatory bowel disease, 532

- by fava bean extracts, inhibition by EDTA, 324

## HEMATOCRIT

- increased, causing decreased respiratory sensitivity in calf, 132, 368

## HEMATOLOGIC DISEASES

- mathematical approach to diagnosis of, 153

## HEMATOPOIESIS

- erythroblastic islands in normal rat bone marrow, 122

- stem cells, effect of cyclophosphamide on, 454

- stem cells, effect of reticuloendothelial stimulation on, 539

- stem cells of spleen and bone marrow, differences in, 541

## HEMATURIA

- recurrent, 65

## HEME

- degradation by non-bilirubin pathway in liver, 280

- effect on renal hippurate uptake, 379

## HEMIPLEGIA

- altered muscle blood flow in, 28

## HEMOCHROMATOSIS

- abortive hepatic deposition of iron in, 123

- idiopathic, in diabetes mellitus, 40

## HEMOCYANIN

- from keyhole limpet, human immune response to, 319

**HEMODIALYSIS**

- at home, 136
- at home, integration into general practice, 139
- Australia antigen associated with hepatitis in patients undergoing, 567
- chronic, A-V shunt in, 138
- chronic, determination of cardiac enlargement in patients on, 141
- chronic, function of "vestigial" nephrons in, 164
- chronic, low protein-high amino acid diet in, 139
- detection of hyperlipemia in uremic patients, 158
- hepatitis associated with, 383
- in chronic renal failure, 476
- limitations in treatment of sedative intoxication, 166
- lipid dialysate system in, 63
- maintenance dialysis without transfusion, 64
- nitrogen balance in, 90
- transfer of zinc in, 476

**HEMODYNAMICS**

- cardio-renal, effect of isoproterenol, 245
- changes accompanying classical cardiac conditional reflexes in dogs, 243
- changes accompanying oculocardiac reflex, 31
- changes in angina patients with normal coronary arteries, 227
- correlates of altered renal function in atrial arrhythmias, 567
- effect of cardioversion on, 436
- effect of digitalis on, 227
- effect of exercise in aortic stenosis on, 220
- effect of inferior vena cava ligation, 72
- effect of i.v. diazepam on, 226
- effect of prostaglandins on, 30
- effect of quinidine in intact dogs, 72
- effects replacing gas with liquid in a single lung on, 375
- effect of reserpine therapy in idiopathic hypertrophic subaortic stenosis, 29
- evaluation of heterograft aortic valve replacement in man, 230
- in cardiac tamponade, effect of catecholamines on, 110
- in hyperthyroidism, effect of propranolol, 276
- in ischemic heart disease, 246
- in mitral regurgitation, 238
- in mitral stenosis, effect of exercise and isoproterenol, 245
- in portal hypertension, 282
- in subendocardial ischemia of left ventricle, 231
- in systolic hypertension in the aged, 437
- of patent umbilical vein in portal hypertension, 512

- portal and systemic, effect of vasopressin administration on, 450
- renal, effect of cardioversion, 239
- renal effect of prostaglandins, 386
- utero-placental and fetal hemodynamic response to hyperbaric oxygen, 161

**HEMOGLOBIN**

- developmental genetics in mouse, 121
- effect on renal hippurate uptake, 379
- failure to release oxygen and possible myocardial ischemia, 26
- function of stored blood, 533
- iron of, intestinal absorption of, 81, 293
- loss from aging erythrocytes, 123
- molecular rearrangement in hemoglobin C disease, 307
- oxyhemoglobin saturation in relation to mental and functional status in elderly patients, 562
- synthesis in vitro, effect of androgens on, 540

**HEMOGLOBIN C DISEASE**

- molecular rearrangement in intraerythrocytic crystallization in, 307

**HEMOGLOBINS, ABNORMAL**

- effect on myocardial metabolism, 220
- hemoglobin Köln, 306
- hemoglobin NYU, 298
- hemoglobin Philly, 540
- Lepore hemoglobin in Rumanian family, 156
- subunit dissociation of, 300

**HEMOGLOBINURIA, PAROXYSMAL**

- NOCTURNAL
- in vivo hemolysis of rat cells characteristic of, 79
- production of PNH-like features in rat RBC's, 456
- reduced glutathione inducing PNH-like cells, 302

**HEMOLYSIS**

- by estrogen in G-6-PD deficiency, 544
- by peroxide in tocopherol deficiency, 300
- caused by hyperoxia, 303
- drug-induced immune hemolysis, role of macrophages, 308
- induction by shearing stress, 80
- influence on fatty acid incorporation into RBC membrane phospholipids, 314
- intravascular and extravascular "mechanical" hemolysis, 315
- intravascular, circulating lactate dehydrogenase in, 542
- intravascular, iron accumulation in tissues in, 452
- of G-6-PD-deficient erythrocytes by viruses, 310
- of rat RBC's characteristic of paroxysmal nocturnal hemoglobinuria, 79

- photohemolysis in erythropoietic protoporphyria, 154
- relation to tocopherol deficiency during hyperoxia, 80

**HEMOPHILIA**

- experimental spleen transplantation in, 311

**HEMORRHAGE**

- causing hypotension, CSF composition in, 475
- effective control in Osler-Rendu disease, 123
- gastrointestinal, caused by multiple superficial gastric erosions, 292
- in uremia, implication of guanidinosuccinic acid in, 397
- neutrophil kinetics in, 535

**HEMORRHAGIC DIATHESIS**

- new bleeding syndrome, clot retraction in, 42

**HEPARIN**

- anti-heparin activity of granulocyte lysosomal cationic proteins, 80
- as catalyst of progressive antithrombin mechanism, 155
- binding in lymphoma and lupus erythematosus patients, 550
- effect on vascular lesions caused by cerebral ischemia, 513
- inhibition of action of leukocytes on human fibroblasts, 45
- lypolytic effect in fat-induced hyperlipemia, 353

**HEPATIC ARTERY**

- blood pressure changes in, effect on portal venous pressure, 517

**HEPATITIS**

- development in patients undergoing chronic hemodialysis, 567
- in dialysis patients, 383

**HEROIN ADDICTION**

- in tuberculotics, methadone in therapy of, 366

**HERPES SIMPLEX**

- infection of skin cultures, effect of hydrocortisone on, 254

**HERPESVIRUS HOMINIS**

- in respiratory secretions of man, 47

**HEXACHLOROPHENE**

- allergic photosensitivity to, 256
- toxicity of topical applications, 53

**HEXOKINASE**

- impaired activity in hemolytic anemia, 306
- variant form associated with congenital nonspherocytic hemolytic disease, 540

**HIBERNATION**

- in bears, renal function during, 475

**HIPPURATES**

- renal uptake of, effect of heme pigments on, 379

**HIRSTUTISM**

- effects of estrogen on plasma testosterone in hirsute women, 523

**HISTAMINE**

- effect on lipolysis in rat epididymal fat pads, 346
- mediation of hypoxic pulmonary hypertension in rat, 134
- release by mast cells in lung, 56, 374
- release from leukocytes after phagocytosis, 329, 459
- release from leukocytes in vitro by staphylococcal antigens, 85, 329
- release mediated by staphylococcal antigens, 460
- stimulation of gastric secretion, 531
- transpulmonary histamine dynamics with hypoxia and compound 48/80, 472

**HISTIDINE**

- hypohistidinemia in rheumatoid arthritis, 320
- increased turnover after glucagon administration, 125

**HISTOCHEMISTRY**

- of colonic amyloidosis, 38

**HISTOPLASMOSIS**

- pulmonary, pre- and postoperative amphotericin B therapy of, 371

**HODGKIN'S DISEASE**

- long-term survival in, 357

**HOME CARE SERVICES**

- follow-up services for patients discharged from municipal hospitals, 365

**HOMOLOGOUS WASTING DISEASE**

- bile salt depletion in, 289

**HORMONES**

- effect on DNA synthesis in mammary carcinoma cells, 364
- effect on myocardial levels of cyclic AMP, 237

**HOSPITAL INFECTIONS**

- contaminated hand lotions as cause of increase in, 333, 548

**HOSPITAL LABORATORY SERVICES**

- for pediatric patients, 366

**HOSPITAL OUTPATIENT CLINICS**

- utilization of, influence of mass transportation and census factors, 365

**HOSPITAL PERSONNEL**

- non-streptococcal respiratory infections in female personnel, 462

**HUMIDITY**

- cardiovascular response to, 232

**HYALINE MEMBRANE DISEASE**

- experimental, after intravascular coagulation, 561

**HYDANTOINS**

- quantitative assay in plasma and urine of humans, 339

**HYDRALAZINE**

- effect on disulfide bone, 320
- effect on glucose turnover and plasma lipids, 469

**HYDROCEPHALUS**

- pertechnetate brain scanning in, 569

**HYDROCHLOROTHIAZIDE**

- induction of hypercalcemia, 277
- stimulation of parathyroid gland, 468

**HYDROCORTISONE**

- effect of phetharbital on metabolism of, 273
- effect on cultures of herpes simplex infected skin, 254
- effect on forelimb resistance responses to vasoactive agents, 433
- induction of somatotropin production in pituitary cultures, 523
- serum levels, effect of progestational agents on, 275
- stimulation of RNA breakdown in bone cells, 349
- uptake by synovial fibroblasts in tissue culture, 459
- urinary excretion, determination of, 262

**HYDROGEN**

- in breath, in study of carbohydrate malabsorption, 287

**HYDROGEN-ION CONCENTRATION**

- arterial H<sup>+</sup>/CO<sub>2</sub> relation in hypercapnia, 376
- effect of extracellular pH on intracellular pH of brain slices, 395
- intracellular, measurement with DMO, 167
- intracellular pH in chronic potassium deficiency, 379
- of gastric juice, radiological assessment of, 288
- reduced intraduodenal pH causing lipid malabsorption in hamsters, 38
- urine acidification during water diuresis, 65

**HYDROGEN PEROXIDE**

- effects on erythrocyte enzymes and glutathione, 303
- hemolysis in tocopherol deficiency, 300

**HYDROXYBUTYRATES**

- inhibition of lipolysis in rats, 344

**17-HYDROXYCORTICOSTEROIDS**

- circadian periodicity in blind subjects, 523
- circadian periodicity in cats, 524
- circadian variation in plasma levels of, 275
- plasma levels in illness and stress, 269

**HYDROXYPROLINE**

- peptide-bound, urinary excretion in relation to collagen degradation, 458

**HYDROXYUREA**

- inhibition of DNA synthesis, 53

**HYPERALDOSTERONISM**

- diagnosis by tests for suppressed plasma renin activity, 35
- diagnosis from plasma renin activity, 269
- in idiopathic hypovolemia and orthostatic hypotension, 265
- plasma aldosterone levels in, 75
- primary, clinical aspects of, 61
- with juxtaglomerular hyperplasia, 263

**HYPERBARIC OXYGENATION**

- effect on myocardial contractility, 72

**HYPERCALCEMIA**

- differential diagnosis of, 524
- in neoplastic disease, treatment with dactinomycin, 558
- induction by hydrochlorothiazide, 277
- low incidence after kidney transplantation, 137
- oral phosphate therapy of, 555
- therapy with inorganic phosphate, 128

**HYPERCALCIURIA**

- in hypoparathyroidism, 74

**HYPERCAPNIA**

- arterial H<sup>+</sup>/CO<sub>2</sub> relation in, 376
- effect on development of digitalis arrhythmias, 253
- effect on forearm blood flow, 143
- in extreme airway narrowing, 55

**HYPERCHOLESTEREMIA**

- erythrocyte morphology in, 125
- familial, effect of exogenous cholesterol on cholesterol biosynthesis in, 51

**HYPERCHOLESTEREMIA, ESSENTIAL**

- FAMILIAL
- cholesterol biosynthesis in, effect of exogenous cholesterol, 349

**HYPERGLYCEMIA**

- beta cell adaptation to, 343
- effect on ammonia metabolism, 281
- glucose overproduction in obese mice with, 351
- induction by mannoheptulose, 364
- induction by theophylline and diazoxide, 557
- post-hypoglycemic, induction by insulin, 439

**HYPERKALEMIA**

- effect on bicarbonate reabsorption by dog nephron, 60
- hyperkalemic cardiac arrest, 518
- induction by hypertonic infusions, 166

**HYPERLIPEMIA**

- in undialyzed uremic patients, 158
- intestinal concentration and synthesis of bile salts in, 293
- lipoprotein lipid composition in, 131
- post-heparin lipolytic activity in, 353

**HYPERMAGNESEMIA**

- suppression of parathyroid activity, 114

**HYPERNEPHROMA**

- plasma renin levels in, 478

**HYPEROXIA**

- induction of pulmonary hypertension in rats, 513
- tocopherol status and in vivo hemolysis during, 80, 303

**HYPERPARATHYROIDISM**

- abnormal secretion of parathyroid hormone in, 275
- effect of induced acidosis on urinary Ca in, 378
- in chronic renal failure, 387

## HYPERSENSITIVITY

- atopic humans, antibody formation in, 44
- attempted transfer by leukocyte dialysate, 318
- photosensitivity to hexachlorophene and trichlorocarbonyl, 256
- ragweed-sensitive patients, hemagglutinating activity of serum and parotid fluid from, 319
- skin reaction to penicillin, localization of antigen-antibody complexes in, 255
- to bacterial antigen causing pleural effusion, 326

## HYPERSENSITIVITY, DELAYED

- delayed skin reactivity to penicillin, 255
- effects on multiple epitheliomata, 519
- to myxoviruses, 325

## HYPERTENSION

- aldosterone response to acute volume depletion in, 445
- association with uterine fibroids, 73
- caused by adrenal adenoma, 277
- caused by juvenile mineralocorticoidism with adrenal hyperplasia, 146
- essential, adrenergic function in, 234
- exaggerated natriuresis in, 566
- experimental, in rats, 394
- metabolism and urinary excretion of guanethidine in, 244
- metoprolol-induced, plasma renin activity in, 271
- renal action of diazoxide in, 386
- renin activity in various venous and arterial samples in, 251
- retinal vascular changes in, 142
- salivary Na/K and plasma renin in, 260
- systolic, circulatory dynamics in the aged, 437
- tissue trace metal levels in, 32
- with uremia, safe reduction of blood pressure in, 568

## HYPERTENSION, PORTAL

- albumin in thoracic duct lymph in, 528
- hemodynamic spectrum of, 282
- hemodynamics of patent umbilical vein in, 512
- new methods for determination of, 281
- risk of portal decompression in, 293
- spontaneous portal vein-renal vein shunting in, 515
- sulfofobromophthalein maximal excretory rate in, 288

## HYPERTENSION, PULMONARY

- hypoxic, mediation by histamine in rat, 134
- in chronic obstructive lung disease, 375
- induction in rats by chronic hyperoxia, 513

## HYPERTENSION, RENAL

- elevated renal vein renin ratio in, 219
- mechanism in unilateral renal disease, 396
- renal vein renin levels in, 69
- renin secretion in man in, 59
- stimulation of renin secretion by vasodilator drugs in, 69
- unilateral high renal vein renin in, 167
- vascular factors in, 392

## HYPERTHYROIDISM

- effect of propranolol on hemodynamics of, 276
- iodine inhibition of thyroid release of thyroxine in, 276
- somatotropin response to insulin-induced hypoglycemia in, 525
- triiodothyronine role in maintenance of normal metabolism after therapy of, 521

## HYPERTONIC SOLUTIONS

- causing increase in serum potassium levels, 64
- effect on renal tubular reabsorption of Na and urate, 380
- induction of alkalosis and hyperkalemia, 166

## HYPERTRIGLYCERIDEMIA

- endogenous, effects of diazoxide and tolbutamide on, 555
- familial endogenous, 343
- induction by estrogen and oral contraceptives, 356
- induction by oral contraceptives, 267

## HYPERURICEMIA

- and decreased feedback inhibition in gout, 350
- incidence and significance in hospitalized men, 349
- venous uric acid levels in dogs with, 464

## HYPERVENTILATION

- effect on lung diffusion of CO<sub>2</sub>, 562

## HYPNOTICS AND SEDATIVES

- limitations of diuresis and hemodialysis in treatment of intoxication by, 166

## HYPOCALCEMIA

- caused by parathyroid hormone resistance, 265
- hypomagnesemic, parathyroid hormone resistance in, 75

## HYPOGAMMAGLOBULINEMIA

- in follicular lymphoma, 309

## HYPOGLYCEMIA

- alcohol-induced in obesity and diabetes, 76
- in alcoholism, relation to ACTH deficiency, 444
- induction by phenobarbital, 469
- with ulcerative colitis and colonic adenocarcinoma, 295

## HYPOGONADISM

- hypogonadotropic, in males, 114
- serum gonadotropin and testosterone levels in, 445

## HYPOKALEMIA

- caused by renal or adrenal tumor, 383

## HYPOLIPOPROTEINEMIA

- and intestinal lymphagiectasia, 76

## HYPOMAGNESEMIA

- in alcoholics, 475
- parathyroid hormone resistance in hypocalcemia in, 75

## HYPOPARATHYROIDISM

- blood Ca homeostasis in, 268
- hypercalciuria in, 74
- with Blackfan-Diamond syndrome, 36

## HYPOPHYSECTOMY

- acute hypothalamic changes after, 150

## HYPOPIUITARISM

- aldosterone response to acute stimulation in, 526

## HYPOPROTHROMBINEMIA

- effect of estrogens in chickens, 313

## HYPOSPADIAS

- chromosome abnormalities in, 79

## HYPOTENSION

- as limiting factor in recovery from cerebral ischemia, 512
- hemorrhagic, CSF composition in, 475
- in pulmonary embolism, therapy of, 134
- isoproterenol-induced, effect on regional myocardial blood flow, 231

## HYPOTENSION, ORTHOSTATIC

- impaired norepinephrine synthesis in, 71
- with hypovolemia and hyperaldosteronism, 265

## HYPOTHALMIC DISEASES

- endocrine gland function tests in, 270

## HYPOTHALAMO-HYPOPHYSEAL

- System
- plasma somatotropin responses in evaluation of disease of, 268

## HYPOTHALAMUS

- acute changes after hypophysectomy, 150
- effect of lesions on "feeding center" activity, 346

## HYPOTHYROIDISM

- Ca transport by sarcoplasmic reticulum from muscles of rats with, 513

## HYPOVENTILATION

- causing polycythemia in obese people, 89

## HYPOVOLEMIA SEE BLOOD VOLUME

## HYPOXEMIA SEE ANOXEMIA

## HYPOXIA

- chronic, effect on human heart, 68
- effect on development of digitalis arrhythmias, 253
- effect on glycolytic-lipid interrelations in myocardium, 224
- effect on isolated papillary muscle, 223
- effect on ventilation in cyanotic congenital heart disease, 369
- hepatic transport in, 77, 292

**HYPOXIA (Cont'd)**

- myocardial, effect on left ventricular performance, 250
- myocardial, prolongation of active tension during recovery from, 511
- transpulmonary histamine dynamics in, 472

**IDIOPATHIC HYPERTROPHIC SUBVALVULAR STENOSIS**

- hemodynamic effect of reserpine therapy in, 29
- mitral regurgitation in, 253

**ILEAL DISEASES**

- glycine-taurine ratios of bile salts in, 77, 284

**ILIAC ARTERY**

- blood flow in, effect of intraluminal stenoses, 111

**IMIDAZOLES**

- effect on induced lipolysis, 467
- effect on lipolysis in rat epididymal fat pads, 346
- effect on plasma Ca and P, influence of cortisone on, 463

**IMMUNE RESPONSES**

- creation of immune unresponsiveness in humans, 156
- effect of ribonuclease on, 319
- to keyhole limpet hemocyanin and alligator erythrocytes, 319
- to *Proteus mirabilis* antigens, 45
- to tumors, effect of endotoxins, 356

**IMMUNE SERUMS**

- anti-kappa and anti-lambda antisera, inactivation of LATS, 148
- antilymphocyte serum, effect on function of reticuloendothelial system, 43
- inhibition of growth of *Mycoplasma*, 48
- subcellular fraction antisera, efficacy in immunosuppression, 83

**IMMUNE TOLERANCE**

- development in mice, 318

**IMMUNITY**

- suppression by lymph duct drainage, 323

**IMMUNOGLOBULINS**

- A, absence in serum but presence in cells of intestines, 119
- abnormalities in Down's syndrome, 547
- cyanogen bromide fragments of chains of, 317
- deficiency associated with pernicious anemia, 457
- dysimmunoglobulinemias, sex and race differences of, 81
- from myeloma patient, hydrodynamic study of, 547
- Gm typing of, 321
- hypercatabolism of IgG, 45
- levels in dermatomyositis, 317
- monoclonal anti-antibodies, 156
- nasal wash IgA concentrations in bronchopulmonary diseases, 317

- peptic digestion of, 451
- selective absence of IgA, 126
- subunits of light chains of, 324

**IMMUNOSUPPRESSIVE AGENTS**

- action of anti-thymus serum, 322
- antilymphocyte serum, effect on function of reticuloendothelial system, 43
- cinanserin, 323
- therapy of lupus nephritis and steroid-resistant nephrotic syndrome, 381

**IMURAN SEE AZATHIOPRINE****INDIANS, NORTH AMERICAN**

- Siouan linguistic tribes, blood groups in, 457

**INDIUM**

- binding to serum protein, 457
- organ distribution of, 278

**INDOMETHACIN**

- effect on cerebral clearance of inhaled Xe<sup>m</sup>, 106

**INFANT**

- metabolism of H<sup>3</sup>-digoxin in, 28

**INFANT, NEWBORN**

- establishment of bacterial flora in, 547
- influence of estrogenic activity on sex chromatin frequency in, 522
- myocardial lactate dehydrogenase isoenzymes in, 511

**INFANT, PREMATURE, DISEASES**

- edema and anemia caused by vitamin E deficiency, 155

**INFECTION**

- L-form in rats, effect of water diuresis on, 46
- neutrophil ultrastructure in, 533
- risk from use of intravenous catheters, 328
- thiamine pyrophosphate deficiency in RBC's in, 330

**INFECTIOUS MONONUCLEOSIS**

- cold reactive antibodies in, 300

**INFLAMMATION**

- characterization of lysosome stabilizer in, 126

**INFLUENZA**

- pulmonary functional abnormalities in, 330
- vaccine administration by spraying into respiratory tract, 336

**INFLUENZA VIRUSES**

- induction of hemolysis in G-6-PD-deficient erythrocytes, 310
- nasopharyngeal inoculation in humans, antibody response to, 49

**INFUSIONS, INTRAVENOUS**

- effect on blood pressure in anesthetized dog, 433

**INOSITOL**

- metabolism by testis, alteration by galactose feeding, 465

**INSECTS**

- bee venom, action of, 336

**INSULIN**

- binding site in fat cell membrane, 49
- effect in uremia, 66, 399
- effect of acute exercise on plasma levels of, 437

- effect of nicotinic acid in acute deficiency of, 343
- effect on carbohydrate metabolism in perfused rat liver, 159
- effect on penetration of 2-deoxyglucose into intact rat diaphragm, 50
- fetal antibodies to, 321
- immunoreactive, in familial hypertriglyceridemia, 343
- in blood, bile and pancreatic juice, effect of pancreozymin administration, 128
- induction of hypoglycemia in thyrotoxicosis, effect on somatotropin response, 525
- induction of post-hypoglycemic hyperglycemia and brittle diabetes, 439
- inhibition by mannoheptulose, 364
- inhibition of K efflux from crystalline lens, 364
- plasma level response to arginine in pregnancy, 526
- plasma levels and body composition in obesity, 341
- plasma levels, effect of urea on, 341
- plasma response to glucose in estradiol- and mestranol-treated monkeys, 338
- release after D-ribose administration, 464
- release from isolated islets, effect of pituitary and adrenal hormones, 354
- release from isolated pancreatic islets, effect of adrenalectomy, 131
- release in vitro, effects of gastrointestinal hormones, 521
- release initiated by amino acids in vitro, 341
- renal uptake and excretion of, 393, 440
- resistance in liver disease, 86
- resistance, treatment with de-alaninated pork insulin, 129
- response to glucose tolerance tests, influence of age and sex, 342
- responsiveness of enlarged adipose organs, 264
- secretion during exposure to high altitude, 269
- secretion in Navajo Indians and Amish, 350
- secretion, role of epinephrine in regulation of, 130
- serum levels and glucose tolerance in elderly, 466
- steady state responses in normals and in diabetes mellitus, 160
- stimulation of amino acid transport in muscles, influence of age, 342
- stimulation of P<sup>32</sup> incorporation into ATP of fat cells, 112, 339
- unusual secretion in cystic fibrosis, 343

- INTERCOSTAL MUSCLES**  
 role in tidal volume production, 371
- INTERFERON**  
 molecular basis of action of, 328  
 response to Cocksackie B-3 infection, 462  
 role in common cold, 84
- INTERMITTENT POSITIVE PRESSURE BREATHING** *SEE* POSITIVE-PRESSURE RESPIRATION
- INTESTINAL ABSORPTION**  
 lipid malabsorption caused by reduced intraduodenal pH, 38  
 malabsorption associated with small bowel diverticulosis, 530  
 of amino acids from peptides and from free form, 446  
 of basic amino acids, 446  
 of calcium, effect of vitamin D, 451  
 of calcium in acromegaly, 525  
 of cardiac glycosides, 448  
 of copper, 152  
 of fats in absence of bile salt, 290  
 of fructose, enhancement by glucose, 280  
 of fructose, mechanism of, 283  
 of glucose, inhibition by gastrin-like pentapeptide, 531  
 of hemoglobin iron, 81, 293  
 of iron in man, 121  
 of iron, relation to iron content of intestinal epithelial cells, 453  
 of lipids, study using glycerol triether, 448  
 of solutions, effect of polyethylene glycol on, 446  
 of vitamin B<sub>12</sub>, intracellular pathway, 294  
 of D-xylose, changes with age, 117
- INTESTINAL DISEASES**  
 capillariasis, 120  
 short bowel syndrome, 528
- INTESTINAL MOTILITY**  
 intestinal circulatory responses to alterations in, 39
- INTESTINAL MUCOSA**  
 rectal biopsy in diagnosis of arteritis, 37  
 role in uptake of luminal lipids, 531

 alkaline phosphatase activity in hypophosphatasia, 341  
 bicarbonate secretion induced by cholera toxin, 447  
 cell proliferation in crypts, 119  
 cholera exotoxin fixation to mucosa of, 530  
 cholera fluid production by villous crest epithelium, 530  
 disaccharidase activities after resection, 295  
 energy source for amino acid transport in, 38  
 glycolytic activity in, 37  
 iron content of isolated epithelial cells of, 453  
 lipid re-esterifying enzymes in, 532  
 mucosal factor in uptake of luminal lipid, 531  
 potential difference in relation to monosaccharide and Na transport, 285  
 remission of malabsorption associated with diverticulosis of, 530  
 RNA metabolism, effect of colchicine, 294  
 transmural potentials, effect of bile salts on, 529
- INTESTINES**  
 amylase in, characterization of, 527  
 circulatory responses to altered motility, 39  
 cross-inhibition of basic amino acid transport by neutral amino acids in, 449  
 epithelial cells, incorporation of uridine into RNA and L-leucine into protein, 39  
 fate of dipeptides in, 278  
 $\beta$ -galactosidases in lactase deficiency, 117  
 immunoglobulin A-containing cells in, 119  
 ischemia, effects on myocardium, 514  
 lysosomal localization of glycoside hydrolases in, 279
- INTRINSIC FACTOR**  
 autoantibodies to, 303  
 autoantibodies to, cross reaction with heterologous intrinsic factor, 299  
 reactions of binding and blocking antibodies with, 287
- INULIN**  
 Cr<sup>51</sup>-labeled, in determination of glomerular filtration rate, 391
- IODIDES**  
 release from thyroid, effect of surgery, 273  
 transport defect, 267
- IODINE**  
 inhibition of thyroid release of thyroxine in thyrotoxicosis, 276  
 iodination rates of thyronines, 442  
 isotopes, therapy of Graves' disease, 268, 441  
 normal intake, effects on thyroid glands of iodine-deficient rats, 463
- IODOHIPPURIC ACID**  
 in early detection of homotransplant rejection, 164  
 renal extraction from RBC's of rats, 399  
 secretion by renal tubules, inhibition by p-aminohippuric acid, 390
- IPPB** *SEE* POSITIVE-PRESSURE RESPIRATION
- IRON**  
 abortive deposition in liver in hemochromatosis, 123  
 accumulation in tissues of patients with chronic intravascular hemolysis, 452  
 content in isolated intestinal epithelial cells, 453  
 effect on half-life of Mn<sup>54</sup> in iron-deficient subjects, 536  
 hemoglobin iron, intestinal absorption of, 81, 293  
 hepatic mobilization of, effect of allopurinol, 529  
 in mitochondria of erythroblasts of copper-deficient rats, 154  
 intestinal absorption in man, 121  
 kinetics in normal and abscessed mice, 457  
 kinetics in porphyria cutanea tarda, 124  
 plasma concentration variations, 308  
 saturation in long-term hemodialyzed uremic patients, 165  
 uptake by duodenal microvilli, 285
- IRON DEFICIENCY**  
 effect of iron administration on half-life of Mn<sup>54</sup> in, 536
- IRON HYDROXIDE**  
 effects on respiration and pulmonary artery pressure, 472
- ISCHEMIA**  
 intestinal, effects on myocardium, 514  
 of extremities causing pulmonary changes in dogs, 133
- ISLANDS OF LANGERHANS**  
 beta cell adaptation to sustained hyperglycemia in man, 343  
 beta cells, effect of various diabetogenic agents on, 32
- ISOENZYMES**  
 abnormality, in muscle phosphofructokinase deficiency, 152
- ISOMERASES**  
 triose phosphate isomerase deficiency, detection of, 305
- ISOPROTERENOL**  
 effect on cardio-renal hemodynamics, 245  
 effect on hyperkinetic heart syndrome, 438  
 effect on left ventricular mechanics and energetics, 518  
 effect on myocardial force-velocity relation, 436  
 effect on myocardial structure and composition, 221  
 effect on myocardium, blockade by MJ 1999 isomers, 249  
 effect on respiratory smooth muscle, 471  
 effect on ventricular function and energy utilization, 231  
 effect on ventricular relaxation, 224  
 hemodynamic effects in mitral stenosis, 245  
 induction of coronary steal in human coronary artery disease, 510  
 therapy of shock, 250
- ISOSORBIDE DINITRATE**  
 effect on pulmonary circulation, 25
- JAUNDICE**  
 differential diagnosis of, 116  
 serum guanase in differential diagnosis of, 528

## JEJUNUM

- crypt cell morphology in tropical sprue, 43, 315
- dietary regulation of glycolytic enzymes in, 291
- fluid composition in infant diarrhea, 293
- glucose absorption from, effect of starvation, 279
- glycolytic enzyme activities, changes induced by clofibrate, 451
- glycolytic enzymes in, regulation by oral folic acid, 450
- increased pyrimidine precursor synthesis in celiac disease, 282
- pressure-flow relationships in, 78
- sucrase and maltase activity, control of, 292

## JUXTAGLOMERULAR APPARATUS

- hyperplasia of, 263

## KALLIKREIN

- in human plasma, activation by endotoxin, 157

## KALLIKREIN-TRYPSIN INHIBITOR

- effects in experimental pancreatitis, 289

## KETOGUTARIC ACID

- oxidation by adipose tissue, stimulation by ACTH, 469

## KIDNEY

- altered function in atrial arrhythmias, 567
- amino acid transport in stored renal tissue, 389
- anti-diuretic effects of diazoxide in hypertensives, 386
- blood flow, enhancement by furosemide, 476
- blood flow in aortic coarctation, 236
- cardio-renal dynamics in paced patients, 228
- clearance of Ca and Mg in advanced uremia, 393
- contribution to activation of angiotensin I, 511
- cortical blood flow, relation to Na secretion, 378
- depressed transport of p-aminohippuric acid by acute saline loading, 568
- diminished pathogenicity of *E. coli* mutant for, 331
- effect of epinephrine on intrarenal blood flow distribution, 382
- effect of heart block and pacing on blood flow of, 236
- effect of prostaglandins on hemodynamics and Na and water excretion in, 386
- effect of short-term changes in dietary proteins on function of, 383
- effect of water diuresis after hydropenia on function of, 384
- extracorporeal perfusion of canine kidneys, 392
- extraction of Hippuran and PAH from RBC's of rats, 399

- function changes during fasting in obesity, 396
- function during hibernation in bears, 475
- function of "vestigial" nephrons in patients on chronic hemodialysis, 164
- functional evaluation of isolated baboon kidney, 387
- glomerular basement membrane, effect of steroids on its composition, 63
- glomerular basement membrane in antiserum nephritis, 565
- H<sup>+</sup> secretion, effect of prolonged acidosis on, 392
- handling of Ca, Mg and Na, effect of K infusion and i.v. diamox, 391
- handling of K loads during sodium sulfate diuresis in dogs, 58
- hemodynamics after cardioversion, 239
- hexose monophosphate shunt dehydrogenases in, control of, 61
- hippurate uptake, effect of heme pigments on, 379
- histopathology in primary myocardial disease, 65
- homogenates from uremic humans, inhibition of erythropoietin activity, 62
- insulin uptake and excretion by, 440
- interrelation of Ca and Na excretion by, 381
- medullary blood flow, measurement of, 564
- metabolic activity after renal artery constriction, 395
- metabolic interrelations between Na and adenylyl cyclase system in cortex of, 397
- micropuncture study of mannitol diuresis in dog nephron, 565
- Na and water handling, effect of acetylcholine, 92
- Na conservation in K depletion, 380
- P clearance in dogs, effect of porcine thyrocalcitonin on, 388
- pathology in recurrent hematuria, 65
- plasma flow increase by diazoxide-furosemide with reduction in arterial pressure, 62
- post-pyelography foreign bodies in, 477
- postural effects on electrolyte excretory cycles of, 445
- preservation with metabolic inhibitors, 62
- renin production by cell suspensions of, 75
- response to ethacrynic acid in pulmonary edema and in systemic vascular congestion, 135
- response to metabolic acidosis, role of cyclic-AMP in, 553
- serum enzyme patterns after ischemia of, 377

- study of renin and renin substrate in isolated perfused kidney, 386
- uptake and excretion of insulin, 393
- urate excretion, effect of ethacrynic acid and chlorothiazide, 92
- variability of Na and water in papillary region of, 165
- vasodepressor substances from medulla of, 248
- vasodilatation inducing Na diuresis, 385

## KIDNEY CONCENTRATING ABILITY

- concentration of CO<sub>2</sub> gas, 476
- defect of, in Gunn rats, 91, 391
- effect of cyclophosphamide on, 357
- impairment in asymptomatic bacteriuria, 334
- importance of aerobic metabolism in, 399

## KIDNEY DISEASES

- ammonium ion excretion during glutamine infusion in, 168
- creatinine, inulin and p-aminohippurate clearance in, 394
- enzyme content of casts in, 478
- functional significance of interstitial pathology in, 168
- hepatorenal syndrome, reversal by saline and ethacrynic acid, 166
- interstitial fibrosis caused by cadmium, 166
- medullary necrosis, functional pattern in, 388
- salt-losing nephropathy, defect in Na excretion in, 474
- severe insufficiency, effectiveness of furosemide in, 66
- tubular excretion of creatinine in, 137
- unilateral, mechanism of hypertension in, 396

## KIDNEY FAILURE, ACUTE

- in heat stress and exercise, hypercatabolism in, 568
- urine hyperviscosity in, 398

## KIDNEY FAILURE, CHRONIC

- autonomic neuropathy in, 385
- diet and weekly hemodialysis in, 476
- divalent cation relationships in, 91
- effect of Na rejection on urea excretion in, 566
- functional significance of interstitium in, 395
- natriuretic hormone in, 91
- secondary hyperparathyroidism in, 387
- vitamin D metabolism in, 337

## KIDNEY FUNCTION TESTS

- correlation of digoxin clearance with creatinine clearance, 381
- creatinine, inulin and p-aminohippurate clearance in kidney disease, 394

## KIDNEY NEOPLASMS

- causing hypokalemia, 383

## KIDNEY TRANSPLANTATION

- allograft rejection, localized in-

## KIDNEY TRANSPLANTATION

(Cont'd)

- travascular coagulation in, 564
  - arterio-venous differences in complement levels in, 43
  - curious tubular syndromes after, 167
  - diagnosis of rejection in, 324
  - effect on parathyroid function, renal osteodystrophy and metastatic calcification, 112
  - increase of renin activity after, 477
  - low incidence of hypercalcemia after, 137
  - lymphocyte depletion in preparation for renal allografts, 64, 394
  - preparation of patients by total body depletion of lymphocytes, 64
  - recovery of function in transplants from donors with hepatorenal syndrome, 166
  - results with cadaver and living donors, 167
  - serum cytotoxin in rejection of, 390
- KIDNEY TUBULES**
- absorption of Na, physical effects on, 135
  - bicarbonate reabsorption during K<sup>+</sup> depletion or hyperkalemia, 60
  - creatinine excretion in normals and in renal failure, 137
  - diminished reabsorption of Ca and Mg after glucose ingestion, 388
  - dissociation of Na from Ca and Mg transport in Henle's loop, 563
  - dysfunction after renal homotransplantation, 167
  - dysfunction in cystinosis, 136
  - enhanced Na reabsorption in caval dogs, 387
  - functional defects in adult nephrotic patients, 568
  - handling of water, effect of methoxyflurane anesthesia, 59
  - Henle's loop, micropuncture study of, 386
  - inhibition of Na reabsorption by i.v. vasopressin, 563
  - macula densa G-6-P dehydrogenase activity, effect of heat and diuresis on, 394
  - parathyroid hormone activation of adenylyl cyclase in, 272
  - proximal Na reabsorption, effect of acute acidosis, 65
  - proximal tubular reabsorption of Mg, 379
  - reabsorption of Na and urate during infusions of hypertonic saline, 380
  - reabsorption of Na, effect of Na conserving stimuli on, 381
  - reabsorption of Na, effect of posture on, 379
  - reabsorption of Na in presence of distal blockade, effect of Na conserving stimuli, 565
  - reabsorption of urate, effect of extracellular space expansion, 397
  - saline inhibition of Na transport in, 63
  - secretion of iodohippurate by p-aminohippurate, 390
  - water reabsorption, inhibition by prostaglandin, 59
- KININS**
- plasma activity, effect of endotoxin fractions on, 333
  - recovery from dermal perfusion, 257
- KLEBSIELLA PNEUMONIAE**
- new serologic methods for, 336
- KREBS CYCLE**
- enzymes of, inhibition by porphyrins, 352
- KRYPTON**
- in measurement of renal medullary blood flow, 564
- LACRIMAL APPARATUS**
- Harderian gland, uptake of sulfate, 526
  - proteins in rabbit lacrimal secretions, 321
- LACTASE**
- formation of, stimulation by force feeding of lactose, 36
- LACTASE DEFICIENCY**
- enzyme characteristics in, 279
  - intestinal  $\beta$ -galactosidases in, 117
  - mechanism of diarrhea in, 281
- LACTATE DEHYDROGENASE**
- isoenzymes, in CSF in meningitis, 128
  - isoenzymes, myocardial patterns in neonates and in heart disease patients, 511
  - serum levels in intravascular hemolysis and in hereditary spherocytosis, 542
  - survival of activity during prolonged anaerobiosis, 367
- LACTATES**
- acidosis, effect on left ventricular function, 32
  - metabolism in shock, 519
  - serum level as indicator of prognosis in hypotensive shock, 519
- LACTOBACILLUS**
- fecal counts after oral administration of L. acidophilus, 449
- LACTOSE**
- force feeding of, causing stimulation of lactase formation, 36
  - intolerance, familial studies, 451
  - intolerance in Orientals, 295
- LACTULOSE**
- in control of portal-systemic encephalopathy, 283
- LARYNX**
- injury from cuffed tracheal tubes, 471
- LATS** SEE LONG-ACTING THYROID STIMULATOR
- LEAD POISONING**
- effect on renin-aldosterone response to salt deprivation, 52
- LECITHIN**
- biosynthesis in lung tissue, 57
  - biosynthesis in rat liver, effect of phenobarbital, 290
  - determination after repeated human duodenal biliary drainage, 450
- LENS, CRYSTALLINE**
- K efflux from, inhibition by insulin, 364
- LEPROSY**
- DNA synthesis in leukocytes cultured from, 328
- LEUKEMIA**
- acute, in chronic lymphocytic leukemia, 538
  - antileukemic drugs, bioassay on leukocyte cultures, 360
  - effect of thymic grafts from low-leukemic mice on tumor growth in high-leukemic mice, 471
  - effects of cytarabine in, 358
  - histochemistry, urine lysozyme excretion and response to therapy in, 453
  - intravascular granulocyte kinetics in, 363
  - leukocyte alkaline phosphatase in, 299
  - methotrexate resistance of leukemic cells, 361
  - methotrexate response of, 310
  - murine, altered pyrimidine metabolism in, 314
  - neutrophils from, phagocytosis of live Candida, 312
  - type specific DNA-protein complexes in, 359
- LEUKEMIA, LYMPHOCYTIC**
- chronic, leukocyte counts in, 302
  - effect of cyclophosphamide on lymphocyte kinetics in, 534
  - occurrence of acute leukemia in, 538
- LEUKEMIA, MYELOCYTIC**
- combination chemotherapy of, 358
  - daunomycin therapy of, 470
  - pyrimidine deoxyribosyltransferase deficiency in, 359
- LEUKOCYTE COUNT**
- LEUKOCYTES**
- abnormal function in Chediak-Higashi syndrome, 335
  - absent candidacidal activity in patient with systemic candidiasis, 331
  - anti-heparin activity of lysosomal cationic proteins of, 80
  - bioassay of antileukemic drugs on cultures of, 360
  - cation and membrane characteristics of, 307
  - count in chronic lymphocytic leukemia, 302
  - defective bactericidal activity in granulomatous disease of childhood, 332
  - dialysate, use in attempted transfer of contact sensitivity, 318
  - DNA synthesis in cultures from leprosy patients, 328

**LEUKOCYTES (Cont'd)**

- effect of biochemical changes on morphological transformation of, 361
- effect of propylthiouracil on chromosomes in cultures of, 271
- granulocyte response to etiocholanolone in rheumatic diseases, 326
- granulocytes, effect of endotoxin fractions on, 333
- histamine and enzyme release after phagocytosis, 329, 459
- histamine release by staphylococcal antigens in vitro, 85, 329
- increased cystine content in cystinosis patients, 52
- intravascular granulocyte kinetics in acute leukemia, 363
- lipid composition and synthesis in, 51
- migration of, inhibition by cryptococci, 461
- normal and leukemic, alkaline phosphatase in, 299
- oxidative glycolysis in, 305
- polymorphonuclear, action on human fibroblasts, 45
- polymorphonuclear, chemotaxis of, 153
- protein synthesis in, 44
- simplified quantitative method for culture of, 317
- species specificity of pyrogen of, 327
- thymidine and orthophosphate as granulocyte labels, 81

**LEUKOPENIA**

- lymphopenic autoaggressive disease, diet therapy of, 318
- plasma from leukopenic dogs, effect on bone marrow RNA synthesis, 538
- serum muramidase in neutropenic states, 543

**LEE SEE LUTEINIZING HORMONE****LIDOCAINE**

- effect on arrhythmias in cultured chick heart cells, 233

**LIGHT**

- induction of pigment darkening in human skin, 258
- photohemolysis in erythropoietic protoporphyria, 154

**LIPASE**

- hormone-sensitive, activity in adipose tissue, 553

**LIPIDS**

- accumulation in atherosclerotic plaque, 236
- anaerobic metabolism in cell-free heart homogenates, 511
- antilipolytic effect of propranolol, 555
- composition and synthesis in polymorphonuclear leukocytes, 51
- content of isolated frog skin, 399
- diabetic lipemia, induction by carbohydrates, 129
- dialysate, use in hemodialysis for poisoning, 63
- hepatic synthesis in diabetic rats, 340

- in intestinal lumen, mucosal factors in uptake of, 531
  - in lipoproteins in normal and in hyperlipemic subjects, 131
  - in pulmonary washings of patients with pulmonary alveolar proteinosis, 55
  - induced lipolysis, effect of imidazole on, 467
  - intestinal absorption of, study using glycerol triether, 448
  - lipolysis by *Corynebacterium* acnes in acne, 146
  - lipolysis in baboons, effect of glucose on CNS control of, 158
  - lipolysis in epididymal fat pads, effects of histamine and imidazole, 346
  - lipolysis in human fat cells, hormonal regulation of, 553
  - lipolysis in rat adipocytes, effect of ethanol on, 443
  - lipolysis induced by various agents, effect of ouabain on, 553
  - lipolysis inhibition by ketones in rats, 344
  - lipolytic effect of diazoxide in isolated fat cells, 347
  - low post-heparin lipolytic activity in lymphoma and lupus erythematosus patients, 550
  - malabsorption in hamsters with reduced intraduodenal pH, 38
  - metabolism in man, effect of epinephrine, 467
  - mobilization in rats, effects of pargyline and tranlycypromine on, 552
  - mobilizing effect of pargyline in dogs, 556
  - plasma levels, correlation with coronary angiographic findings, 30
  - plasma levels, effect of chlorpheniramine on, 232
  - plasma levels, effect of hydralazine on, 469
  - production by skin surface in alcoholics and non-alcoholics, 257
  - re-esterifying enzymes in small intestine, 532
  - serum amylase levels during changes in metabolism of, 286
  - synthesis and release in isolated adipose cells, 549
- LIPOPROTEIN LIPASE**
- activity in adipose tissue, 553
  - in serum, inactivation by liver, 355
  - plasma levels, effect of smoking on, 346
  - stimulation and inhibition of, 348
- LIPOPROTEINS**
- disorder in metabolism of, 344
  - incorporation of amino and fatty acids in intestinal epithelium, 286

- lipid composition of in normal and hyperlipemic subjects, 131
- plasma high density, reconstitution in vitro, 130
- pre-beta-lipoproteinemia, unresponsiveness to diet, 351
- production by liver, effect of ethanol, 279
- serum alterations during clearing of hyperlipoproteinemia in rabbits, 554

**LIVER**

- abortive iron deposition in hemochromatosis, 123
  - biopsy in granulomatous disease, 76
  - cholesterol synthesis, effect of bile acids, 355
  - cholesterol synthesis in familial hypercholesterolemia, effect of exogenous cholesterol, 51
  - early effects of mithramycin on ultrastructure of, 470
  - fatty acid oxidation by mitochondria from diabetic liver, 464
  - fatty acid synthesis in relation to glycolytic rate, 356
  - heme degradation by non-bilirubin pathway, 280
  - human and monkey liver organ culture for virus cultivation, 460
  - impaired triglyceride secretion caused by tetracycline, 37
  - inactivation of serum lipoprotein lipase, 355
  - lecithin biosynthesis, effect of phenobarbital, 290
  - levels of injected thyroxine in patients with thyroid diseases, 149
  - lipid synthesis in diabetic rats, 340
  - lipoprotein production, effect of ethanol, 279
  - microsomal factor, effect on fatty acid biosynthesis, 51
  - mobilization of iron, effect of allopurinol, 529
  - output of lipids and steroids in bile, influence of diet, 160
  - pathology in Wolman's cholesterol storage disease, 449
  - serum enzyme patterns after ischemia of, 377
  - sulfobromophthalein transport in hypoxia, 292
  - thyroxine binding by, alteration by clofibrate therapy, 34
  - transport of various compounds in hypoxia, 77
  - triglyceride synthesis, effect of carbohydrate on, 86
- LIVER ABSCESS, AMEBIC**
- resolution time of, 77
- LIVER CIRRHOSIS**
- effect of cephaloglycin on fecal flora in, 38
  - erythrocyte transketolase activity in, 118
  - platelet aggregation and bleeding in, 314
  - serum 5-aminolevulinic acid levels in, 529

- LIVER CIRRHOSIS (Cont'd)**  
 tissue trace metal levels in, 32  
 with portal hypertension, risk of portal decompression in, 293
- LIVER DISEASES**  
 acute failure, therapy of, 118  
 carbon tetrachloride-induced necrosis, effect of reserpine pretreatment, 49  
 glucose intolerance and insulin resistance in, 86  
 hepatorenal syndrome, reversal by saline and ethacrynic acid, 166  
 lithocholate levels in liver in, 278  
 of narcotic addicts, 292  
 urinary glucuronic acid excretion after N-acetyl-p-aminophenol administration, 50
- LIVER FUNCTION TESTS**  
 in portal hypertension, 288
- LONG-ACTING THYROID STIMULATOR**  
 immunofluorescent studies of, 439  
 inactivation by anti-kappa and anti-lambda antisera, 148  
 mechanism of thyroid stimulation by, 263
- LUNG**  
 active alveolar closure in humans, 374  
 changes following regional ischemia, 133  
 changes in airflow resistance with changing transpulmonary pressure, 133  
 contribution to activation of angiotensin I, 511  
 damage produced by i.v. halothane, 561  
 density at apex and at base, effect of increased blood volume, 54  
 diffusing capacity, measurement by different methods, 372  
 effect of acetylcholine in man, 56  
 effect of carbon monoxide on, 560  
 effect of nebulized ethanol on surfactant of, 133  
 isolation of protein-free surfactant from, 562  
 lavage effluent, surface-active material in, 88  
 lavage in asthma, bronchitis and bronchiectasis, 88  
 lecithin biosynthesis in, 57  
 mast cells in, 56, 374  
 photocanning of, 372  
 physiologic dead space and shunt in isolated perfused lungs, 563  
 protein component of surfactant of, 134  
 scintiscanning with radioaerosols, 134  
 static elastic recoil of, 162  
 subacute NO<sub>2</sub> lesions in, 132  
 surface-active material of, 472, 473  
 surfactant in samples from patients with cardiac disease, 89
- transpulmonary histamine dynamics with hypoxia and compound 48/80, 472  
 ultrasonic examination of, 374  
 vasomotor changes in hemorrhagic shock, 57
- LUNG DISEASES**  
 bullous disease, surgical therapy, 58  
 chronic, autoallergic reaction in, 44  
 chronic obstructive, blood gas-spirometric disparity in, 57  
 chronic obstructive, effect of steroids and bronchodilators on airway resistance in, 57  
 chronic obstructive, therapy with helium-oxygen, 58  
 hemorrhagic lesions in glomerulonephritis, 478  
 histoplasmosis, pre- and post-operative amphotericin B therapy of, 371  
 obstructive, determinants of pulmonary hypertension in, 375  
 obstructive, effects of positive pressure breathing on pulmonary perfusion in, 375  
 obstructive, study of ventilation and perfusion in, 371  
 pseudomonas infections in tracheostomy patients, 56
- LUPUS ERYTHEMATOSUS, SYSTEMIC**  
 azathioprine therapy, 545  
 correlation of clinical course with immunological indices, 546  
 dermo-epidermal junction in, 259  
 low molecular weight  $\gamma$ M in, 545
- LUTEINIZING HORMONE**  
 plasma levels in menstruation, 263  
 plasma levels in normal female cycle, 33
- LYMPH**  
 albumin in thoracic duct lymph in portal hypertension and ascites, 528  
 extracorporeal lymph dialysis for suppression of cellular immunity, 83, 323  
 synthetic, precipitation in, 83
- LYMPHATIC SYSTEM**  
 barrier function of lymph nodes, 557  
 drainage of heart in dogs, effects of total interruption of, 73  
 transport of calcium, 550
- LYMPHOCYTES**  
 antigen-stimulated transformation of, 322  
 antilymphocyte serum, effect on function of reticuloendothelial system, 43  
 defective function in multiple myeloma and macroglobulinemia, 313  
 DNA synthesis in thoracic duct, estimating time for, 316  
 dual population of circulating lymphocytes in lymphosarcoma, 538  
 effect of gluten on cultures of, 283
- failure to synthesize factor VIII in culture, 537  
 growth, possible control at level of ribosome assembly, 541  
 immaturity of small lymphocytes, 307  
 in bone marrow, effect of total-body irradiation on, 42  
 in urine in renal allograft patients, 324  
 inhibiting fractions from human plasma, 546  
 interaction with monocytes, 319  
 kinetics in chronic lymphocytic leukemia, effect of cyclophosphamide, 534  
 kinetics in normal humans, 539  
 lacking in hypoxanthine-guanine phosphoribosyltransferase, effect of 6-mercaptopurine on, 549  
 metabolism in malignant dysproteinemias, 124  
 nucleolar RNA, serial studies in tissue culture, 323  
 phytohemagglutinin-treated, binding of steroids, 534  
 satellite association and nucleolar persistence during mitosis in, 297  
 steroid-induced suppression in PHA response of cultures of, 308  
 total depletion from body in preparation for renal allografting, 64, 394  
 transformation in pernicious anemia, 325  
 transformation induced by procaine amide, 322
- LYMPHOID TISSUE**  
 culture of human cells, pathogenic effect on newborn mice, 53  
 effect of thiopurines on, 154
- LYMPHOMA**  
 exogenous fat intolerance, lipolytic activity and heparin binding globulins in, 550  
 paraproteinemia in, 358  
 primary malignant, of spleen, 359  
 serum mucoids in, 357
- LYMPHOMA, FOLLICULAR**  
 hypogammaglobulinemia in, 309
- LYMPHOSARCOMA**  
 dual population of circulating lymphocytes in, 538
- LYSOSOMES**  
 anti-heparin activity of granulocyte lysosomal cationic proteins, 80  
 site of glycoside hydrolases in rat intestine, 279  
 stability in coronary occlusion, 245  
 stabilizer of, 126
- LYSOSTAPHIN**  
 induction of spheroplasts of *Staphylococcus*, 336  
 therapy of staphylococcal abscesses in mice, 46
- LYSOZYME SEE MURAMIDASE**

- MACROGLOBULINEMIA**  
defective lymphocyte function in, 313  
defects in lymphocyte metabolism in, 124  
hypervolemia in hyperviscosity syndrome of, 122
- MACROPHAGES**  
behavior in pulmonary capillaries of bullfrogs, 89  
role in drug-induced immune hemolysis, 308
- MADUROMYCOSIS**  
local chemotherapy of, 48
- MAGNESIUM**  
diminished renal tubular reabsorption after glucose ingestion, 388  
dissociation from Na and Ca transport in Henle's loop, 563  
effect on contractility of isolated detrusor muscle, 348  
effect on penetration of 2-deoxyglucose into intact rat diaphragm, 50  
excretion during water diuresis, 378  
excretion in urine after glucose administration, 393  
reabsorption in proximal tubule, 379  
relation to  $Ca^{++}$  and  $PO_4^{--}$  in chronic renal failure, 91  
renal clearance in advanced uremia, 393  
urinary excretion of, effect of vasodilator agents, 384
- MAGNETICS**  
effect on RBC fragility and enzymes, 544
- MALABSORPTION SYNDROMES**  
in intestinal lymphangiectasia and  $\beta$ -lipoprotein deficiency, 76  
small bowel pressure-cine correlations in diarrhea in, 284
- MALARIA**  
alterations in RBC sodium transport in, 61, 382  
blackwater fever, quinine dosage, 60  
blood proliferocytes in, 48  
DNA, RNA and protein synthesis in, 334  
experimental in man, serum glycoproteins in, 331  
in returning Vietnam servicemen, 332  
pituitary-adrenal function in, 330  
thrombocytopenia in, 313
- MALTASE**  
jejunal activity, control of, 292
- MAMMAE**  
effect of carcinogens on guinea pig nipple, 359
- MAMMARY NEOPLASMS, EXPERIMENTAL**  
hormonal dependence of DNA synthesis in, 364
- MANGANESE ISOTOPES**  
half-life in iron-deficient subjects, effect of iron administration, 536
- MANNITOL**  
diuresis in dog nephron, micropuncture study of, 565
- MANNOHEPTULOSE**  
hyperglycemic and insulin-inhibiting effects of, 364
- MAST CELLS**  
in lungs, 56, 374
- MCARDLE'S DISEASE**  
metabolism in, 342
- MEFRUSIDE**  
effects of single oral dose in normal man, 400
- MELANOCYTE-STIMULATING HORMONE**  
effect on frog skin, mediation by cyclic-AMP, 32  
extra-pigmentary effects in man, 269  
fetal pituitary activity of, 35
- MELANOMA**  
amino acid composition of melanosomes from, 255  
B16 mouse melanoma, growth inhibition by chlorpromazine, 559  
tumor immunity and cancer specific antigens in, 259
- MELPHALAN**  
therapy of multiple myeloma, 156
- MENINGITIS**  
caused by Coxsackie B5 and echovirus 6 in children, 49  
lactic dehydrogenase isoenzymes in CSF in, 128  
meningococcal, unfavorable prognosis of serogroup C in, 127  
pneumococcal, corticosteroid therapy of, 335  
pneumococcal, role for antibody in, 333
- MENINGOENCEPHALITIS**  
lactic dehydrogenase isoenzymes in CSF in, 128
- MENSTRUATION**  
intravenous glucose tolerance during, 463  
plasma FSH and LH in, 263
- 6-MERCAPTOPURINE**  
effect on lymphocytes lacking hypoxanthine-guanine phosphoribosyltransferase, 549  
effect on rat lymphoid tissue, 154  
inhibition of RNA synthesis, 364
- MERCURY**  
percutaneous absorption of, 259
- MESENTERIC ARTERIES**  
chemoreflex effects on myocardial contractility, 145  
norepinephrine-induced constriction, inhibition by vasodilator agents, 432
- MESENTERY**  
temperature effects on blood vessels of, 258
- MESTRANOL**  
effect on plasma insulin responses to glucose, 338  
induction of severe hypertriglyceridemia, 356
- METABOLISM**  
long-term effects of portacaval shunt in rats, 550
- METABOLISM, INBORN ERRORS**  
cholesterol ester storage disease, 290
- METALS**  
tissue levels in various diseases, 32
- METHADONE**  
in therapy of tuberculous heroin addicts, 366
- METHEMOGLOBIN**  
effect on renal hippurate uptake, 379
- METHEMOGLOBIN REDUCTASE**  
electrophoretic variation of, 152
- METHEMOGLOBINEMIA**  
provocation by antimalarial chemoprophylaxis, 301
- METHICILLIN**  
resistant *Staphylococcus*, 327  
therapy of staphylococcal abscesses in mice, 46
- METHOTREXATE**  
clinical response of acute leukemia to, 310  
effect on healing wounds, 257  
inhibition of adjuvant step-up effect in guinea pigs, 545  
resistance of leukemic cells to, 361
- METHOXYFLURANE**  
effect on renal tubular handling of water, 59  
in obstetrical anesthesia, 559
- METHYSERGIDE**  
effect in primary erythromelalgia, 518
- MICROSCOPY, ELECTRON**  
of colonic amyloidosis, 38  
of platelets from myocardial infarction patients, 437
- MICROSOMES**  
hepatic factor, effect on fatty acid biosynthesis, 51  
stimulation of fatty acid synthesis, 342
- MIDDLE AGE**  
training effect of bicycle riding in, 250
- MILK**  
intolerance in Orientals, 295
- MINERALOCORTICIDS**  
normal secretion in primary adrenal insufficiency, 115
- MINERALS**  
net mineral acid balance in normals and in nephritics, 165, 384
- MITHRAMYCIN**  
bleeding time changes during therapy with, 557  
early effects on liver ultrastructure, 470  
effects on Paget's disease of bone, 468
- MITOCHONDRIA**  
iron accumulation in erythroblasts of copper-deficient rats, 154  
of human skeletal muscle, 159  
of liver, extraction of vitamin B<sub>12</sub> binder from, 312  
of skeletal muscles in various muscular diseases, 349
- MITRAL VALVE**  
flow profile through normal and prosthetic valves, 434

- MITRAL VALVE** (*Cont'd*)  
homograft replacement of, 230
- MITRAL VALVE DISEASES**  
relation of left atrial pathology to atrial fibrillation in, 141
- MITRAL VALVE INSUFFICIENCY**  
late systolic murmur in, 223  
regurgitation, assessment by indicator dilution curves, 26  
regurgitation, effect of rest on volume burden of, 238  
regurgitation, hemodynamic study, 238  
regurgitation in muscular subaortic stenosis, 253  
secondary, indications for surgery, 236
- MITRAL VALVE STENOSIS**  
determination of valve orifice area in, 143  
hemodynamics in, 245  
left ventricular dysfunction in, 244  
natural course of, 246  
presystolic murmur in, 142
- MODELS, BIOLOGIC**  
approximation of changes in QRS surface potential changes, 69
- MONCOLISM**  
abnormal responses to atropine in, 232  
dermal patterns in, 296  
immunoglobulin abnormalities in, 547
- MONILIASIS**  
absent myeloperoxidase and leukocyte candidacidal activity in, 331
- MONOAMINE OXIDASE INHIBITORS**  
clinical, biochemical and pharmacologic effects of, 237  
debrisoquin, action in man, 244
- MONOCYTES**  
excretory function of, 316  
interaction with lymphocytes, 319
- MONIODOTYROSINE**  
effect on glucose oxidation and phospholipogenesis in thyroid slices, 263
- MORPHINE**  
effect on myocardium, 514
- MOSAICISM**  
spermatogenesis in XXY/XY patient, 148
- MOTION PICTURES**  
of cardiovascular physiologic information, 439
- MOTOR SKILLS**  
effects of trichloroethylene on, 478
- MSH** *SEE* MELANOCYTE-STIMULATING HORMONE
- MUCOPROTEINS**  
in serum in lymphoma, 357  
serum seromucoid levels in disease screening, 549
- MUCOUS MEMBRANE**  
of bladder, effect on bacterial growth, 47
- MULTIPLE MYELOMA**  
defective lymphocyte function in, 313  
defects in lymphocyte metabolism in, 124  
immunoglobulin A from, hydrodynamic study of, 547  
melphalan therapy of, 156
- MUMPS VIRUS**  
live attenuated, effect on lymphocellular immunity, 127
- MURAMIDASE**  
bacteriolytic activity of, enhancement by anodal tear protein, 561  
elevated serum levels in Chediak-Higashi syndrome, 298  
in urine in renal allograft patients, 324  
serum levels in neutropenic states, 543  
urinary excretion in acute leukemia, 453
- MUSCLE PROTEINS**  
effect of acetylation of G-actin on ATPase of actomyosin, 242
- MUSCLES**  
altered blood flow in hemiplegia, 28  
contractile properties, influence of thyroid state on, 266  
effect of Ca, Sr and Mg on isolated detrusor muscle, 348  
excitability and contractility, effects of barium on, 64  
extra-renal action of aldosterone on, 377  
mass determination with creatine-C<sup>14</sup>, 51  
mitochondria of, 159  
pharmacologic differentiation of sphincteric and non-sphincteric muscle, 527  
recovery of muscle power after ablation of motor cortex in monkeys, 223  
sarcoplasmic reticulum from hypothyroid rats, Ca transport by, 513
- MUSCULAR DISEASES**  
skeletal muscle mitochondria in, 349
- MYOPLASMA**  
from blood cultures, 334  
growth inhibition by immune serum, 48
- MYOPLASMA INFECTIONS**  
pneumonia, antibiotic therapy, 86
- MYELOFIBROSIS**  
with myeloid metaplasia, experimental induction of, 542
- MYELOID METAPLASIA**  
with myelofibrosis, experimental induction of, 542
- MYELOPEROXIDASE**  
absence in patient with systemic candidiasis, 331
- MYOCARDIAL DEPRESSANTS**  
effect on cardiac protein synthesis, 222  
effect on myocardial contractility and K<sup>+</sup> balance, 433
- MYOCARDIAL DISEASES**  
detection during graded exercise, 242
- MYOCARDIAL DISEASES, PRIMARY**  
ejection time in, 235  
renal histopathology in, 65
- MYOCARDIAL INFARCT**  
causes of hypoxemia and alkalemia in, 370  
continuous post-infarction monitoring, 140  
electron microscopy of platelets from, 437  
erythrocyte aggregation in, 247  
hypoxemia in, 515  
increased fiber shortening in non-infarcted muscle in, 514  
lactate metabolism in, 519  
left ventricular function after, 253  
metabolic responses to, 248  
prognostic index in, 248  
tissue trace metal levels in, 32  
without angina pectoris, 229  
without coronary occlusion, mechanism, 26
- MYOCARDIUM**  
adenosine-3', 5'-phosphate levels, effect of hormones on, 237  
anaerobic carbohydrate and lipid metabolism in cell-free homogenates, 511  
binding of digoxin, 434  
consumption of oxygen, pyruvate and lactate in acute heart block, 435  
contractile element velocity in focal ischemia of, 234  
digitalis effect on metabolism of, 224  
digoxin levels at autopsy, 143  
DNA synthesis in experimental cardiac hypertrophy, 241  
effect of carboxyhemoglobin on metabolism of, 220  
glucose metabolism in, effects of fatty acids, 340  
glucose metabolism in perfused working heart, effect of fatty acids, 86  
glycolytic-lipid interrelations in, effect of hypoxia, 224  
K<sup>+</sup> balance in, effect of antiarrhythmic agents on, 433  
K<sup>+</sup> balance in, effect of diphenylhydantoin, 233  
lactate dehydrogenase isoenzymes in, 511  
metabolism in normovolemic anemia, 144  
myocardial antibodies in heart disease, 25  
norepinephrine synthesis in congestive failure, 227  
oxygen consumption, effect of nitroglycerin, 221  
protein synthesis, effect of myocardial depressants on, 222  
pyruvate metabolism, effect of stress, 241  
structure and composition, effect of chronic isoproterenol infusion on, 221  
tissue activator of plasminogen in, 230
- MYXEDEMA**  
epinephrine effect on heart in, 29
- MYXOVIRUS**  
delayed hypersensitivity to, 325

## NAD

reversal of chloramphenicol inhibition of leukocyte oxidative glycolysis, 305

## NAILS

matrix Ca concentration in differential diagnosis of hypercalcemia, 524

## NAPHTHALENESULFONIC ACID

1, 8-anilino-, interaction with human blood cells, 543

## NASAL MUCOSA

atraumatic biopsy of, 326

## NATRIURESIS

antinatriuretic effect of carbohydrate, 566

effect of interstitial fluid volume expansion and plasma Na concentration on, 380

exaggeration in hypertension, 566

magnitude during saline loads, 389

mechanism after nephrectomy, 380

natriuretic hormone, role in escape from salt-retaining effects of DOCA, 390

## NAUSEA

induction by fluorescein in diabetics, 550

## NEGROES

alpha-thalassemia in, 534

urinary abnormalities in, 477

## NEISSERIA MENINGITIDIS

large volume air sampling for, 46

serogroup C, 127

## NEOPLASMS

antibodies against *Toxoplasma* in patients with, 131

cancer-seeking isotopes, external monitoring of, 360

cancer serum effect on tissue culture morphology, 360

effects of cytarabine in patients with, 358

fibrinolytic disorders in, 362

hypercalcemia in, treatment with dactinomycin, 558

immune responses to, effect of endotoxins, 356

low molecular-weight proteinuria in, 362

malignant, association with thymoma, 363

malignant, morphology of thymus gland in, 363

symptoms and co-morbidity in staging of, 356

therapy with subcutaneous cytarabine, 558

use of DEAE-dextran to improve transfer of "immune" RNA in, 361

## NEPHRECTOMY

effect of alkalization on azotemia and total urea nitrogen in, 400

mechanism of natriuresis after, 380

## NEPHRITIS

antiserum nephritis, glomerular basement membrane in, 565

lupus nephritis, alternate-day corticosteroid therapy of, 377

lupus nephritis, azathioprine therapy, 126

lupus nephritis, effect of azathioprine on, 567

lupus nephritis, immunosuppressive therapy of, 381

nephritogenic group A streptococci, 84

nephritogenic group A streptococci, virulence of, 331

net mineral acid balance in, 165, 384

## NEPHROSCLEROSIS

in strain of genetically diabetic mice, 347

## NEPHROTIC SYNDROME

azathioprine therapy of, 126

renal tubular functional defects in adults with, 568

steroid-resistant, immunosuppressive therapy of, 381

## NERVOUS SYSTEM

neural effects of nitrofurantoin in normal humans, 62

## NEUROBLASTOMA

tyrosine hydroxylase activity in, 362

## NEUTRON ACTIVATION ANALYSIS

SEE ACTIVATION ANALYSIS

## NEUTROPHILS

from leukemia patients, phagocytosis of live *Candida*, 312

in synovial fluids in rheumatoid arthritis, 326

kinetics in acute hemorrhage, 535

ultrastructure in acute infection, 533

## NICOTINAMIDE-ADENINE DINUCLEOTIDE SEE NAD

## NICOTINIC ACID

effects in acute insulin deficiency, 343

## 3-NITRO-L-TYROSINE

effect on thyroid function, 267

## NITROFURANTOIN

neural and hematologic effects in humans, 62

## NITROGEN

balance in hemodialysis, 90

blood urea N and total body urea N in nephrectomized rats, 400

effect on RBC 2, 3-diphosphoglycerate mutase activity, 543

## NITROGEN DIOXIDE

causing lesions in rat lung, 132

## NOREPINEPHRINE

arterial blood pressure responses to infusions of, 106

depletion in heart failure in calves, 111

effect of rest on forearm venous responses to, 247

effect on forearm vascular responses at lower body negative pressure, 243

effect on myocardial force-velocity relation, 436

impaired synthesis in idiopathic orthostatic hypotension, 71

induction of lipolysis, effect of prostaglandins on, 30

myocardial contractility responses to, 438

synthesis by heart in congestive failure, 227

## NUCLEOTIDES

deoxyribonucleotide triphosphates, effect on pulverized chromosomes, 452

## OBESITY

adipose tissue metabolism in, 338

alcohol-induced hypoglycemia in, 76

alcohol infusion studies in, 466

explanation for diabetes in, 552

glucose overproduction in hyperglycemic mice with, 351

hypoventilation causing polycythemia in, 89

plasma insulin levels and body composition in, 341

plasma somatotropin levels in, 552

renal and electrolyte changes during fasting in, 396

## OPSONINS

immune and normal opsonins in experimental staphylococcal infections, 461

## OSMOLALITY

of amniotic fluid, relation to perinatal outcome, 60

## OSMOSIS

Onsager's reciprocal relation in membrane transport, 59

## OSTEITIS DEFORMANS

effect of mithramycin on, 468

effect of NaF on Ca kinetics in, 466

increased serum alkaline phosphatase activity in, 130

## OSTEOMALACIA

increased serum alkaline phosphatase activity in, 130

## OSTEOPOROSIS

bone metabolism in, effect of sex hormones on, 468

## OUABAIN

effect on A-V conduction and ventricular automaticity, 222

effect on induced lipolysis, 553

effect on intracellular Ca and myocardial contractility, 145

effect on myocardium, time dependence, 30

effect on sweat Na secretion and reabsorption, 168

hypoglycemic effect in vivo, 353

## OVIDUCT

adenyl cyclase activation in by steroid hormones, 523

## OVULATION

cycle, plasma FSH and LH levels in, 33

## OXIDATIVE PHOSPHORYLATION

uncoupling by purified staphylococcal  $\alpha$ -toxin, 548

## OXYGEN

affinity of blood in erythrocytosis, 153

affinity of blood in sickle cell anemia, effect of diphosphoglycerate, 301

OXYGEN (*Cont'd*)

dissociation curve of blood from patients with low peripheral blood flow, 240

He-O<sub>2</sub> therapy of chronic obstructive lung disease, 58

induction of pneumonitis in man, 561

lung deadspace, discrepancy with CO<sub>2</sub> deadspace, 559

release by transfused erythrocytes in anemia, 155

role in reversal of changes in mechanical properties of lung after pulmonary artery occlusion, 376

tissue supply in chronic anemia, 242

transport in RBC's in relation to RBC metabolism, 454

## OXYGEN CONSUMPTION

effect of cholera toxin on, 548

effect of chronic digitalization on, 110

effect of triiodothyronine on qO<sub>2</sub> of rat adipocytes, 264, 440

in endotoxin shock in dogs, 69

## OXYTOCIN

in CSF, 262

role in Na excretion in man, 113

## PACEMAKER, ARTIFICIAL

atrio-synchronized, 225

cardio-renal dynamics in paced patients, 228

malfunction of, detection by dynamic ECG, 105

pacemaker capture by another pacemaker, 220

paired pacing after coronary artery ligation, 246

right ventricular, complications of, 240

## PACET'S DISEASE OF BONE SEE OSTEITIS DEFORMANS

## PANCREAS

allografts in dogs, 544

effect of pentagastrin and pancreozymin-cholecystokinin on, 282

exocrine function, effect of glucagon on, 283, 529

exocrine, hydrelatic effect of brocresine on, 448

zymogen synthesis, control of, 78

## PANCREATIC CYSTIC FIBROSIS SEE CYSTIC FIBROSIS

## PANCREATIC DISEASES

starch digestion in pancreatic insufficiency, 284

## PANCREATIC JUICE

proteolytic enzyme content in acute pancreatitis, 117

## PANCREATECTOMY

endogenous chylomicronemia after, 556

## PANCREATITIS

acute hemorrhagic, role of elastase in, 151

arterial antienzymes in, 289

hemorrhagic, role of elastase in, 285

proteolytic enzymes in pancreatic juice in, 117

## PANCREOZYMIN

effect on glucagon and insulin in blood, bile and pancreatic juice, 128

effect on insulin release in vitro, 521

effect on isolated stomach and pancreas, 282

## PAPILLARY MUSCLES

dysfunction in coronary artery disease, 249

effect of angiographic dye on, 239

effect of ethanol on, 249

effect of hypoxia on mechanics of, 223

prolongation of active tension during recovery from myocardial hypoxia, 511

## PARALYSIS

from pica and K depletion in pregnancy, 398

## PARASYMPATHETIC NERVOUS SYSTEM

interaction with sympathetic outflow in bronchoconstriction, 560

## PARATHYROID EXTRACT

effect on bone matrix metabolism, 443

## PARATHYROID GLANDS

function, effect of renal transplantation, 112

function, suppression by hypermagnesemia, 114

role in skeletal sodium metabolism, 521

stimulation by thiazides, 468

## PARATHYROID HORMONE

abnormal secretion of, in tertiary hyperparathyroidism, 275

activation of adenyl cyclase in renal tubules, 272

bioassay in urine in uremia, 378

resistance causing hypocalcemia, 265

resistance in hypomagnesemic hypocalcemia in man, 75

## PARATHYROID NEOPLASMS

adenomas, localization of, 524

## PARGYLINE

effect on lipid mobilization in rats, 552

lipid mobilizing effect in dogs, 556

## PAROTID GLAND

uric acid in saliva of, 387

## PATIENT CARE

medical journal devoted to, 365

## PATIENTS

follow-up services for patients discharged from hospitals, 365

## PEDIATRICS

hospital laboratory services for children, 366

## PENICILLAMINE

causing taste impairment, 344

## PENICILLIN

antagonism between penicillin combinations, 335

comparative sensitivity of enterococci to, 157

delayed skin reactivity to, 255

in prophylaxis of rheumatic fever, 157

immunologic relation to cephalothin, 126

resistance mechanisms in gram-negative bacteria, 549

resistance of hetero-resistant staphylococci, 157

skin reactions, localization of antigen-antibody complexes in, 255

## PENICILLINASE

activity in *Staphylococcus*, 46

## PENTAMIDINE ISETHIONATE

mechanism of action of, 471

## 4-PENTENOIC ACID

inhibition of gluconeogenesis by, 340

## PENTOSEPHOSPHATES

pathway in erythrocytes, 153

## PEPSIN

digestion of IgA myeloma proteins in vitro, 451

## PEPTIC ULCER

increased reflux of bile into stomach in, 450

## PEPTIDE HYDROLASES

determination by ultrasensitive method, 291

in pancreatic juice in acute pancreatitis, 117

proteolysis of excess alpha chains in thalassemic cells, 533

## PEPTIDES

from gliadin, effect on celiac disease patients, 294

gastrin-like pentapeptide, inhibition of glucose absorption, 531

gastrin-like pentapeptide, stimulation of gastric secretion, 531

in urine in inherited bone disease, 295

intestinal absorption of amino acids from, 446

intestinal fate of dipeptides, 278

urinary polypeptides related to collagen synthesis, 551

## PERFUSION

extracorporeal perfusion of canine kidneys, 392

## PERICARDIAL DISEASES

ejection time in, 235

## PERIODICALS

medical journal devoted to patient care, 365

## PERITONEAL DIALYSIS

incidence of pneumoperitoneum in, 397

reduced effectiveness in acute kidney failure caused by heat stress and exercise, 568

## PHAGOCYTOSIS

histamine and enzyme release from leukocytes after, 329, 459

of *Candida* by neutrophils from leukemia patients, 312

## PHENFORMIN

inhibition of gluconeogenesis in man, 50

stimulation of gluconeogenesis in non-diabetics, 160

## PHENOBARBITAL

effect on lecithin biosynthesis in liver, 290

**PHENOBARBITAL (Cont'd)**

- induction of reactive hypoglycemia, 469
- intoxication, therapy with dopamine in dogs, 27

**PHENOXYBENZAMINE**

- effect on cardiovascular reflexes, 473

**PHEOCHROMOCYTOMA**

- carbohydrate metabolism in, 161

**PHLEBOGRAPHY**

- adrenal venography in patients with virilism, 445

**PHOSPHATES**

- effect on serum and urine Ca and P in normocalcemic patients, 345
- inorganic, therapy of hypercalcemia, 128
- oral therapy of experimental hypercalcemia, 555
- orthophosphate as granulocyte label, 81
- relation to  $Ca^{++}$  and  $Mg^{++}$  in chronic renal failure, 91
- urinary excretion after expansion of extracellular space, 352

**PHOSPHOFRUCTOKINASE**

- isoenzyme abnormality in muscle deficiency of, 152

**PHOSPHOGLUCONATE**

- DEHYDROGENASE
- activity in kidneys, control of, 61

**PHOSPHOGLYCERATE KINASE**

- deficiency in erythrocytes, 307

**PHOSPHOLIPASE**

- effects on RBC membrane, 453

**PHOSPHOLIPIDS**

- cerebral, fatty acid analysis in rats, 161
- concentration in bile, control of, 285
- requirement for Rh antigen activity, 536
- significance in lecithin biosynthesis by lungs, 57
- synthesis in thyroid slices, effect of iodotyrosines, 263

**PHOSPHORUS**

- clearance in dogs, effect of porcine thyrocalcitonin on, 388
- incorporation into ATP of fat cells, 112, 339
- plasma levels, effects of cortisone, imidazole and theophylline on, 463
- serum and urinary levels in normocalcemic patients after oral phosphate, 345

**PHOSPHORYLASES SEE GLUCOSYLTRANSFERASES****PHOSPHOTRANSFERASES**

- jejunal, regulation by oral folic acid, 450
- transketolase activity in RBC's in liver cirrhosis, 118

**PHYSICAL EDUCATION AND TRAINING**

- K depletion during physical conditioning in a warm climate, 63, 388
- training effect of bicycle riding in middle-aged men, 250

**PHYSICAL FITNESS**

- endurance performance, effect of chronic cigarette smoking, 54

**PHYSICIANS**

- attitudes toward treatments, evaluation of, 366

**PHYTANIC ACID**

- storage in Refsum's disease, 346

**PICA**

- causing K depletion and paralysis in pregnancy, 398

**PIGMENTATION**

- effect of MSH on, mediation by cyclic-AMP, 32
- light-induced immediate pigment darkening in human skin, 258

**PIGMENTS**

- accumulation in rats on vitamin E-deficient diet, 276

**PITUITARY-ADRENAL SYSTEM**

- function in falciparum malaria, 330
- in Cushing's syndrome, 440
- induced suppression of function of, somatotropin secretion during, 272
- remitting hyperfunction of, 113

**PITUITARY GLAND**

- fetal MSH and ACTH activities in, 35
- function in men with hyposmia, skeletal anomalies and retarded sexual development, 261
- functions in acromegaly, effect of proton beam, 266
- polysomes of bovine pituitary, 467
- radiosurgery in Cushing's disease, 114
- reserve of, testing using Piromen, 522
- thyrotropin release in vitro, 33

**PITUITARY HORMONES**

- effect on glucagon and insulin release from isolated islets, 354

**PLACENTA**

- alkaline phosphatase activity in relation to gene frequency, 120
- alkaline phosphatase of, 556
- p, p'-DDE and p, p'-DDT residues in, 139
- lactogen from monkeys, study of, 522
- pregnenolone metabolism in, effect of chorionic gonadotropin, 275
- transfer of  $H^3$ -digoxin in dogs, 26
- utero-placental hemodynamic response to hyperbaric oxygen, 161

**PLAGUE**

- epidemic in Vietnam, 45

**PLANT AGGLUTININS**

- effect on steroid binding of lymphocytes, 534

**PLASMA SUBSTITUTES**

- effect on platelet adhesiveness, 456

**PLASMAPHERESIS**

- therapy of serum hyperviscosity syndrome, 43

**PLASMIN SEE FIBRINOLYSIS****PLASMINOGEN**

- from primates, activation by human urokinase, 456
- tissue activator of, in myocardium, 230

**PLATELETS SEE BLOOD PLATELETS****PLEURAL EFFUSION**

- in hypersensitivity to bacterial antigen, 326

**PNEUMOCONIOSIS**

- byssinosis, pathophysiology of, 376

**PNEUMONIA**

- bacterial, diagnosis by sputum gram stain, 48
- hypodynamic circulatory state in, 237
- mycoplasmal, antibiotic therapy, 86
- necrotizing, 88
- oxygen pneumonitis in man, 561

**PNEUMOPERITONEUM**

- incidence in peritoneal dialysis, 397

**PNH SEE HEMOGLOBINURIA,****PAROXYSMAL NOCTURNAL****POISONING**

- therapy by hemodialysis using lipid dialysate, 63

**POLYCYTHEMIA**

- caused by hypoventilation in obese people, 89
- caused by low atmospheric pressure, blood coagulation disorders in, 370
- familial, from increased erythropoietin production, 40
- in patients with postural hypoxemia, 132
- oxygen affinity of blood in, 153
- suppression of erythropoietin production, 306

**POLYCYTHEMIA VERA**

- haptoglobin metabolism in, 360

**POLYETHYLENE GLYCOL**

- effect on intestinal absorption of solutions, 446

**POLYMYXIN**

- causing electrolyte imbalance, 462

**POLYPEPTIDES SEE PEPTIDES****POLYSACCHARIDES**

- bacterial, use in testing of pituitary reserve, 522
- proteinpolysaccharide inhibition of calcification of cartilage, 82

**PORPHYRIA**

- cutanea tarda, response to chloroquine, 258
- enzymatic diversity in, 297
- erythropoietic protoporphyria, RBC's with normal protoporphyrin levels in, 256
- glycine loading test in, 87
- iron kinetics in, 124
- protoporphyria, photohemolysis in, 154

**PORPHYRINS**

- inhibition of Krebs cycle enzymes, 352

- PORTACAVAL ANASTOMOSIS**  
causing portal-systemic encephalopathy, 283  
long-term effects in rats, 550  
methods for determination of, 281
- PORTAL SYSTEM**  
effect of hepatic arterial pressure changes on portal venous pressure, 517  
gas in portal vein, 77  
hemodynamics, effects of vasopressin administration on, 450  
spontaneous portal vein-renal vein shunting in portal hypertension, 515
- POSITIVE-PRESSURE RESPIRATION**  
effects on pulmonary perfusion in obstructive airway disease, 375
- POSTURE**  
effect on atrioventricular conduction, 222  
effect on serum renin in pregnancy, 262  
effect on renal electrolyte cycles, 445  
effect on tubular Na reabsorption, 379  
effect on ventilation-perfusion relationships, 135  
increased orthostatic tolerance associated with circulatory congestion, 515
- POTASSIUM**  
balance in myocardium, effect of anti-arrhythmic agents, 433  
balance in myocardium, effect of diphenylhydantoin, 233  
depletion caused by pica in pregnancy, 398  
depletion during physical conditioning in a warm climate, 63, 388  
distribution of infused K<sup>+</sup>, effect of inhalation anesthetic on, 369  
effect on aldosterone biosynthesis by adrenal mitochondria, 262  
efflux from crystalline lens, inhibition by insulin, 364  
infusion of, effect on renal handling of Ca, Mg and Na, 391  
kidney handling of, during sodium sulfate diuresis in dogs, 58  
renal Na conservation in depletion of, 380  
salivary Na/K in hypertension, 260  
serum level increase after administration of hypertonic solutions, 64
- POTASSIUM DEFICIENCY**  
effect on bicarbonate reabsorption by dog nephron, 60  
intracellular pH in, 379
- PRECIPITINS**  
antigen A precipitins in human sera, prevention of staphylococcal phage activity, 85, 332
- PREDNISOLONE**  
effect on composition of glomerular basement membrane, 63  
therapy of pernicious anemia, 453
- PREDNISONE**  
effect on airway resistance in chronic obstructive lung disease, 57
- PREGNANCY**  
blood pressure in rats, effect of angiotensin on, 61  
changing pulmonary functions in, 474  
erythropoietin production in, 308  
maternal-fetal thyroid interrelationships, 525  
plasma insulin and somatotropin responses to arginine in, 526  
serum renin activity in, 262
- PREGNANCY COMPLICATIONS**  
drug effects on fetal heart rate in, 432  
folic acid metabolism in, 353  
pica causing K depletion and paralysis, 398
- PREGNANCY TOXEMIAS**  
in sheep, 382
- PREGNENOLONE**  
metabolism in placenta, effect of chorionic gonadotropin on, 275
- PRESERVATION, BIOLOGICAL**  
kidney preservation with metabolic inhibitors, 62
- PRESSORECEPTORS**  
participation of skin and muscle blood vessels in activity of, 254
- PROCAINE AMIDE**  
effect on cardiac conduction, 233  
induction of lymphocyte transformation, 322
- PROGESTATIONAL HORMONES**  
effect on serum cortisol levels, 275  
induction of LH and FSH surge in postmenopausal women, 149
- PROGESTERONE**  
activation of adenylyl cyclase in chick oviduct, 523  
metabolic effects in dogs, 347  
regulation of in vitro transcription during specific protein induction, 297
- PROGNOSIS**  
in acute glomerulonephritis in children, 60  
in acute respiratory failure, 54
- PROLACTIN**  
effect on bone marrow hypoplasia, 41  
synthesis and release, effect of epinephrine on, 441
- PROPRANOLOL**  
antipolytic effect of, 555  
effect in primary erythromelalgia, 518  
effect on arrhythmias in cultured chick heart cells, 233  
effect on hemodynamics of hyperthyroidism, 276
- effect on hyperkinetic heart syndrome, 438  
effect on left ventricular function, 433  
effect on left ventricular mechanics and energetics, 518  
effect on triiodothyronine-induced hypermetabolism, 239  
effect on ventricular relaxation, 224
- PROPYLTHIOURACIL**  
effect on chromosomes in leukocyte cultures, 271
- PROSTAGLANDINS**  
effect on cardiovascular dynamics, 30, 242  
effect on norepinephrine-induced lipolysis, 30  
effect on peripheral circulation, 110  
effect on renal hemodynamics, Na and water excretion, 386  
effect on respiratory tract, 90, 374  
inhibition of renal tubular water reabsorption, 59
- PROTEASES** SEE **PEPTIDE HYDROLASES**
- PROTEIN-LOSING ENTEROPATHIES**  
and hypolipoproteinemia, 76
- PROTEINS**  
adrenal cortex synthesis of, effects of ACTH, 267  
component of human lung surfactant, 134  
deficiency, effect on absorption of free fatty acids, 291  
DNA-protein complexes in leukemia, 359  
from heavy chain disease, 320  
in CSF, determination by microconcentration technique, 479  
in pulmonary washings of patients with pulmonary alveolar proteinosis, 55  
in rabbit lacrimal secretions, 321  
incorporation of carbohydrate in rabbit alveolar cells, 89  
incorporation of L-leucine in intestinal epithelial cells, 39  
increased synthesis in overloaded hearts, 248  
low molecular weight  $\gamma$ M in systemic lupus erythematosus, 545  
protein polysaccharide inhibition of calcification of cartilage, 82  
steroid regulation of in vitro transcription during specific induction of, 297  
sulfur-containing proteins and epidermal keratinization, 256  
synthesis and role in ACTH action on steroidogenesis, 265  
synthesis by heart, effect of myocardial depressants, 222  
synthesis in leukocytes, 44  
synthesis in malaria, 334

**PROTEINS, DIETARY** SEE **DIETARY PROTEINS**

**PROTEINURIA**

low molecular-weight proteinuria in advanced cancer, 362

**PROTEUS**

antigens of, immune response to, 45

**PROTONS**

effect on pituitary functions in acromegaly, 266

**PROVIDENCIA STUARTII**

virulence and susceptibility to antimicrobial agents of, 127

**PSEUDOMONAS**

antibodies against, in human sera, 459

**PSEUDOMONAS INFECTIONS**

respiratory, in tracheostomy patients, 56

**PULMONARY ALVEOLAR PROTEINOSIS**

pathogenesis of, 55, 373

**PULMONARY ALVEOLI**

alveolar cells, incorporation of carbohydrate into protein, 89

stress relaxation of walls of, 163

**PULMONARY ARTERY**

determination of blood volume in, 238

effects of iron hydroxide particles on pressure in, 472

occlusion causing changes in mechanical properties of lung, role of O<sub>2</sub> and CO<sub>2</sub> in reversal of, 376

occlusion of, effect on alveolar hemorrhage and surfactant phospholipids, 372

**PULMONARY CIRCULATION**

acute effects of smoking on distribution of pulmonary perfusion, 377

behavior of macrophages in capillaries of, 89

effect of blood pressures on pulmonary capillary morphology, 370

effect of isosorbide dinitrate on, 25

plasma indicator dispersion in, 230

pulmonary blood volume, effect of lanatoside C in hypervolemic dogs, 144

reactivity of pulmonary vascular bed in swine, 251

vasoactive hormone metabolism by, 112

vasomotor changes in hemorrhagic shock, 57

**PULMONARY EDEMA**

high altitude edema, 142

renal response to ethacrynic acid in, 135

**PULMONARY EMBOLISM**

coronary vascular response to, 223

enzyme profiles in evaluation of, 512

experimental, detection and thrombolysis of, 373

experimental, fibrinolysin therapy, 56

hypotension in, therapy, 134

in patients with thrombophlebitis, detection by lung scanning, 369

microemboli, effect on blood gases, 133

natural history of, 163

predictive value of fibrinolysin assay in, 438

prognostic parameters in, 517

right coronary flow in, 31

right ventricular function in, 240

urokinase in therapy of, 368

**PULMONARY VEINS**

active responses of, 71

**PULSE**

blood pulse volume studies, 219

carotid, in aortic valve diseases, 70

digital opacity pulse, age-related changes in, 239

wave velocity in juvenile diabetics, 147

**PURINES**

control of biosynthesis of, 344

de novo biosynthesis, effect of allopurinol, 52

overproduction in fibroblasts lacking HG-PRTase, 52

overproduction in gout, 350

**PURPURA THROMBOTIC THROMBOPENIC**

clotting studies, fibrinogen catabolism and azathioprine therapy in, 454

**PYELONEPHRITIS**

effect of insoluble and soluble tetracyclines on, 389

**PYODERMA**

nephritogenic group A streptococci isolated from skin in, 84

**PYRIMETHAMINE**

induction of megaloblastosis in human bone marrow, 543

**PYRIMIDINES**

altered metabolism in murine leukemia, 314

**PYROGENS**

leukocytic, species specificity of, 327

**PYRUVATE DEHYDROGENASE**

citrate inhibition of, 351

**PYRUVATE KINASE**

erythrocyte deficiency of, 540

**PYRUVATES**

effect of stress on myocardial metabolism of, 241

metabolism in adipose tissue, caffeine potentiation of

ACTH effect on, 352

**QUINIDINE**

hemodynamic effects in intact dogs, 72

use for maintenance of sinus rhythm after cardioversion, 109

**QUININE**

dosage in blackwater fever, 60

**RADIATION EFFECTS**

on de-novo DNA-base synthesis, 125

on reticuloendothelial system and erythron activity, 122

total-body, on bone marrow lymphocytes, 42

**RADIO**

sensory effects from radiofrequency energy, 569

**RADIOIMMUNOASSAY**

in localization of parathyroid adenomas, 524

of human somatotropin, 520

of human thyrotropin, 115

**RADIOISOTOPE DILUTION TECHNIC**

creatinine-C<sup>14</sup> dilution in determination of muscle mass, 51

**RADIOISOTOPE SCANNING**

in patients with head injuries, 132

in regional ventilation-perfusion assessment, 55

lung scintiscanning with radioaerosols, 134

magnacamera in assessment of cerebral blood flow, 138

pertechnetate brain scanning in hydrocephalic children, 569

**RADIOISOTOPES**

cancer-seeking isotopes, external monitoring of, 360

implantable power sources for artificial hearts, 517

uptake by brain tumors in tissue culture, 131

**RADIOTHERAPY**

of advanced breast carcinoma, 358

**RATS**

Gunn strain, urinary concentrating defect in, 91, 391

**RECEPTORS, NEURAL**

adrenergic receptor control mechanism for somatotropin secretion, 74, 261

beta-adrenergic receptors in distal esophagus, 291

**RECTUM**

mucosal biopsy in diagnosis of arteritis, 37

**REFLEX**

carotid sinus reflex, 222

control of release of bile into small intestine, 532

mesenteric chemoreflex effects on myocardial contractility, 145

oculocardiac, hemodynamic responses to, 31

**REFLEX, CONDITIONED**

cardiac, hemodynamic changes in, 243

**REFSUM'S SYNDROME**

phytanic acid storage in, 346

**REHABILITATION**

of chronically ill ambulatory patients, 365

of neuromuscular disease patients, ECG monitoring during, 105

**RENAL ARTERY**

constriction, effect on renal metabolic activity, 395

**RENAL VEINS**

renin levels in hypertension, 69

spontaneous portal vein-renal vein shunting in portal hypertension, 515

## RENIN

- activity in various venous and arterial blood samples in hypertension, 251
- activity of, measurement methods, 385
- and renin substrate in isolated perfused kidney, 386
- effect of cobalt on activity of, 395
- elevated renal vein level in renovascular hypertension, 219
- increased activity after renal transplantation, 477
- plasma activity determination in diagnosis of primary aldosteronism, 35
- plasma activity, effect of heat and diuresis on, 394
- plasma activity in diagnosis of hyperaldosteronism, 269
- plasma activity in metyrapone-induced hypertension, 271
- plasma activity in women, effect of oral contraceptives, 150
- plasma levels in hypernephroma, 478
- plasma levels in hypertension, 260
- production in vitro, 75
- release rates in aortic coarctation, 236
- renal vein levels in hypertension, 69
- renin - angiotensin - aldosterone system, effect of chronic chlorothiazide therapy on, 440
- response to salt deprivation in patients with lead poisoning, 52
- secretion in human renovascular hypertension, 59
- secretion of, control in man, 25
- secretion stimulation by vasodilator drugs in renal hypertension, 69
- serum activity in pregnancy, 262
- unilateral high renal vein level in patients with renal hypertension, 167

## RESERPINE

- failure to inhibit turpentine abscess fever, 85
- pretreatment effect on carbon tetrachloride-induced hepatic necrosis, 49
- therapy in idiopathic hypertrophic subaortic stenosis, 29

## RESPIRATION

- abnormalities in uncomplicated influenza, 330
- airway responsiveness and gas exchange in asthma, 472
- breath hydrogen study in carbohydrate malabsorption, 287
- cardiorespiratory reflexes, effect of dibenzylamine on, 473
- changes in airflow resistance with changing transpulmonary pressure, 133
- changes in alveolar-arterial  $O_2$  gradient induced by carbon monoxide, 560

- changing functions in pregnancy, 474
- collateral ventilation demonstrated by helium transfer, 368
- decreased respiratory sensitivity after acute increase in hematocrit in calf, 368
- decreased response to hypoxia and hypercapnia after increase in hematocrit, 132
- diffusing capacity, measurement by different methods, 372
- diffusion of  $CO_2$ , effect of epinephrine, hyperventilation and Valsalva maneuver, 562
- discrepancies between  $O_2$  and  $CO_2$  deadspaces, 559
- effect of carbon monoxide on, 560
- effect of iron hydroxide particles on, 472
- effect of i.v. diazepam on, 226
- effect of lower body negative pressure on, 473
- effect of prostaglandins on, 90, 374
- effect of replacing gas with liquid in a single lung on, 375
- function in sarcoidosis, 562
- gas exchange alterations produced by lower body negative pressure, 369
- physiologic dead space and shunt in isolated perfused lungs, 563
- pulmonary permeability, determination method, 162
- regional ventilation-perfusion inequality, 372
- regional ventilation-perfusion relations in asthma, 163
- sequential studies of, in heart failure, 368
- study of ventilation and perfusion in chronic obstructive lung disease, 371
- tidal volume production, role of diaphragm and intercostal muscles, 371
- ventilation and perfusion in induced atelectasis, 473
- ventilation-perfusion ratios, 371
- ventilation-perfusion relationships in prone and supine positions, 135
- ventilation transients before and after exercise, 162
- ventilatory patterns during exercise, 373
- ventilatory response to hypoxia in cyanotic congenital heart disease, 369

## RESPIRATORY FAILURE

- prognostic factors in, 54

## RESPIRATORY FUNCTION TESTS

- in bronchial asthma, 560
- regional ventilation-perfusion assessment by scintillation scanning, 55
- regional ventilation-perfusion inequality, measurement with  $Xe^{135}$ , 55

- single breath method for total lung capacity, 163
- ventilatory tests, diffusing capacity and gas exchange in uremia, 559

## RESPIRATORY INFECTIONS

- non-streptococcal, in female hospital personnel, 462
- pseudomonal, in tracheostomy patients, 56
- viral, in infants, 461

## RESPIRATORY INSUFFICIENCY

- airway resistance in chronic obstructive lung disease, 57
- contribution of diaphragm to energy cost of increasing ventilation in, 373
- necrotizing pneumonia as complication of, 88

## RESPIRATORY SYSTEM

- effects of theophylline and isoproterenol on smooth muscle of, 471
- Herpesvirus hominis in secretions of, 47
- spraying of influenza vaccine into, 336

## RESPIRATORY SYSTEM DISEASES

- "blue-bloater" syndrome, pathology of, 54
- extreme airway narrowing in acidosis, 55
- nasal wash immunoglobulin concentrations in, 317
- obstructive, effects of positive pressure breathing on pulmonary perfusion in, 375

## REST

- bed rest, erythrokinetic changes during, 309
- carbohydrate metabolism during prolonged bed rest, 468, 554
- effects on forearm venous responses to norepinephrine and tyramine, 247
- effect on volume burden of mitral and aortic regurgitation, 238

## RETICULOCYTES

- concentration in rabbits, chemical estimation of, 455
- role in the anemia of chronic disorders, 316

## RETICULOENDOTHELIAL SYSTEM

- function after x-irradiation of rabbit, 122
- functional changes in rats after treatment with antilymphocyte serum, 43
- role in kinetics of iron in normal and abscessed mice, 457
- stimulation of, effect on stem cells, 539

## RETINAL VESSELS

- changes in hypertension, 142

## RH FACTORS

- production of tolerance to human  $O$  Rh<sup>+</sup> RBCs in rats by cytarabine or cyclophosphamide, 545
- Rh antigen activity, 536
- Rh-related specificity of auto-antibodies, 320

**RHEUMATIC DISEASES**

- granulocyte response to etiocholanolone in, 326
- relation of antinuclear autoantibodies to clinical patterns of, 323

**RHEUMATIC FEVER**

- prophylaxis with penicillins, 157

**RIBOFLAVIN**

- effect on bone marrow toxicity from chloramphenicol, 41

**RIBOFLAVIN DEFICIENCY**

- diminished responsiveness to thyroid hormone in, 525

**RIBONUCLEASE**

- effect on immune responsiveness, 319

**RIBOSE**

- induction of insulin release, 464

**RIBOSOMES**

- decreased function in experimental amyloidosis, 325

**RNA**

- breakdown in bone cells, stimulation by hydrocortisone, 349
- "immune" RNA, improved transfer by use of DEAE-dextran, 361
- in lymphocyte nucleoli, serial studies in tissue culture, 323
- incorporation of uridine in intestinal epithelial cells, 39
- metabolism in intestines, effect of colchicine, 294
- synthesis in malaria, 334
- synthesis in bone marrow, effect of plasma from leukopenic dogs, 538
- synthesis of, inhibition by 6-mercaptopurine, 364
- transfer studies using DEAE-dextran in deliver system, 470

**RNA, SOLUBLE**

- effect on *E. coli* endotoxin shock in dogs, 109

**RNA, VIRAL**

- infection of cells, effect of anti-cellular antibody on, 327

**ROSE BENGAL**

- use in differential diagnosis of jaundice, 116

**RUNT DISEASE SEE HOMOLOGOUS WASTING DISEASE****SALICYLATES**

- effect on permeability across gastric mucosa, 289

**SALIVA**

- hemagglutinating activity in ragweed-sensitive patients, 319

- Na/K ratio in hypertension, 260
- parotid, uric acid in, 387

**SALMONELLA INFECTIONS**

- epidemiology in New York City, 547

**SARCIDOSIS**

- pulmonary function and x-ray indices of activity in, 562

**SCINTIPHOTOGRAPHY**

- resolving capability of pulmonary photoscans, 372

**SCLERODERMA**

- azathioprine therapy, 545

**SCURVY**

- ultrastructural studies in, 465

**SEBACEOUS GLANDS**

- effects of androgens on, 258
- turnover time, effect of estrogen on, 259

**SECRETIN**

- effect on insulin release in vitro, 521

**SENSATION**

- sensory effects from radiofrequency energy, 569

**SEPTICEMIA**

- changing spectrum of, 332

**SEROTONIN**

- mediation of circadian periodicity of plasma 17-hydroxycorticosteroids in cats, 524
- release test in study of platelet preservation, 309

**SERUM ALBUMIN**

- as source of albumin in thoracic duct lymph in portal hypertension and ascites, 528
- binding of warfarin and its metabolites, 159
- hypercatabolism of, 45
- variants in American and New Guinea Indians, 298

**SERUM ALBUMIN, RADIO-IODINATED**

- in determination of pulmonary artery blood volume, 238
- microspheres, properties and uses of, 245

**SERUM GLOBULIN**

- testosterone-binding globulin in man, 35

**SEX**

- differences in dysimmunoglobulinemias, 81
- influence on blood sugar and insulin during glucose tolerance tests, 342

**SEX CHROMATIN**

- frequency in buccal and vaginal smears of newborns, influence of estrogenic activity, 522

**SEX HORMONES**

- effect on action of calcitonin, 442
- effect on bone metabolism in osteoporosis, 468
- role in changing pulmonary functions during pregnancy, 474

**SHOCK**

- dopamine and isoproterenol therapy of, 250
- experimental cardiogenic, 512
- lactate metabolism in, 519
- serum lactic acid level as indicator of prognosis in, 519

**SHOCK, BACTEREMIC**

- comparison with endotoxin shock, 142

**SHOCK, ENDOTOXIC**

- comparison with bacteremic shock, 142
- effect of S-RNA on *E. coli* shock in dogs, 109
- in Rhesus monkeys, 434
- oxygen consumption in dogs in, 69

- paradoxical water diuresis during saline loading in, 391
- tissue ATP levels in, 555

**SHOCK, HEMORRHAGIC**

- irreversible, 70
- microcirculatory changes in, 233
- mortality in, effect of prior alkalization, 111
- tissue ATP levels in, 555
- vasomotor changes in lung in, 57

**SHOCK, SEPTIC**

- high cardiac output in, 24
- in Rhesus monkeys, 434

**SHOCK, TRAUMATIC**

- war wound shock, therapy of, 107

**SHWARTZMAN PHENOMENON**

- initiation by circulating endothelial cells, 535
- production by infusion of fatty acids, 312

**SKIN**

- blood vessels, temperature effects on, 258
- delayed reactivity to penicillin, 255
- dermal patterns in Down's syndrome, 296
- dermo-epidermal junction in lupus erythematosus, 259
- epidermal prealbumin, 254
- herpes simplex-infected cultures, effect of hydrocortisone on, 254
- ion transport and lipid content of isolated frog skin, 399
- kinins from, analysis of, 257
- nephritogenic group A streptococci isolated from, 84
- percutaneous absorption of mercury, 259
- reaction to penicillin, localization of antigen-antibody complexes in, 255
- sulfur-containing proteins and epidermal keratinization, 256
- surface lipid production in alcoholics and non-alcoholics, 257
- toxic factor from scalded human skin, 458

**SKIN DISEASES**

- topical vitamin A acid therapy

**SKIN NEOPLASMS**

- effects of delayed hypersensitivity reactions on, 519

**SKIN PIGMENTATION SEE PIGMENTATION****SMOKING**

- acute effects on distribution of pulmonary perfusion, 377
- adrenocortical activity in habitual smokers, 526
- effect on corticosteroid excretion, 270
- effect on endurance performance, 54
- effect on plasma lipoprotein lipase, 346
- hypoxemia in asymptomatic smokers, 376
- relation to fibrillation threshold in dogs, 74

## SODIUM

- antinatriuretic effect of carbohy-  
drate, 566
- conservation by kidney in K de-  
pletion, 380
- depletion causing inhibition of  
digoxin binding to myo-  
cardium, 434
- dissociation from Ca and Mg  
transport in Henle's loop,  
563
- diuresis induced by renal vaso-  
dilatation, 385
- diuresis, suppression by provi-  
sion of chloride, 564
- effect on serum renin in preg-  
nancy, 262
- enhanced renal reabsorption in  
caval dogs, 387
- excretion defect in salt-losing  
nephropathy, 474
- excretion during water diuresis,  
378
- excretion in man, role of oxy-  
tocin, 113
- excretion in urine, effect of co-  
balt on, 395
- excretion in urine, relation to  
renal cortical blood flow,  
378
- metabolic relation to adenylyl cy-  
clase system in renal cor-  
tex, 397
- metabolism in bones, effect of  
parathyroid glands, 521
- natriuretic hormone in chronic  
renal failure, 91
- outflux in RBCs, effect of trans-  
port inhibitors on, 565
- patterns of urinary excretion of,  
354
- physical effects on renal tubular  
absorption of, 135
- plasma level change, effect on  
brain volume change, 165
- plasma level, effect on natriu-  
retic response to saline in-  
fusion, 380
- proximal tubular reabsorption,  
effect of acute acidosis,  
65
- RBC transport of, alterations in  
malaria, 61, 382
- renal excretion of, effect of  
acetylcholine, 92
- renal excretion of, relation to Ca  
excretion, 381
- renal tubular reabsorption dur-  
ing infusions of hypertonic  
saline, 380
- renal tubular reabsorption in  
presence of distal blockade,  
effect of Na conserving  
stimuli, 565
- renal tubular reabsorption of, ef-  
fect of Na conserving stim-  
uli on, 381
- renal tubular reabsorption of,  
effect of posture on, 379
- renal tubular reabsorption of,  
inhibition by i.v. vasopres-  
sin, 563
- requirement for L-alanine ab-  
sorption from Thiry-Vella  
loops, 284

- reversible inhibition of active  
transport of, 382
- salivary Na/K in hypertension,  
260
- secretion and reabsorption in  
sweat, effect of ouabain,  
168
- transport by erythrocytes in  
uremia, 169
- transport by isolated bladder,  
depression by propionate,  
168
- transport in loop of Henle, inhi-  
bition by saline, 63
- variability in papillary region of  
rat kidney, 165

## SODIUM CHLORIDE

- acute loading causing depression  
of renal transport of p-  
aminohippuric acid, 568
- control of day-to-day salt excre-  
tion in man, 396
- deprivation, renin-aldosterone  
response in lead poisoning,  
52
- effect on survival in hemorrhagic  
shock, 111
- inhibition of Na transport in  
loop of Henle, 63
- intake, effect on urinary excre-  
tion of sodium, 354
- loading in dogs, magnitude of  
natriuresis during, 389
- paradoxical water diuresis in  
shock during loading with,  
391
- retention caused by DOCA, role  
of natriuretic hormone in  
escape from, 390

## SODIUM SULFATE

- diuresis in dog, renal handling  
of K loads during, 58

## SOMATOTROPIN

- activity of peptide subunit of,  
439
- adrenergic receptor control  
mechanism for secretion of,  
261
- circadian pattern of plasma lev-  
els in children, 148
- early and late effects of, 271
- effect of acute exercise on  
plasma level of, 437
- effect of cyclic-AMP on release  
of, 272
- effect on blood Ca homeostasis  
in hypoparathyroidism, 268
- exogenous, effect on Turner's  
syndrome, 444
- metabolic clearance and pro-  
duction rates of, 444
- metabolic effects of, alteration by  
estrogens, 520
- metabolic response to doses of,  
relation to corticosteroid  
dose, 467
- modified solid phase radioim-  
munoassay of, 520
- plasma level response to arginine  
in pregnancy, 526
- plasma level responses to various  
agents in evaluation of hy-  
pothalamic-pituitary dis-  
ease, 268
- plasma levels in obesity, 552

- production in pituitary cultures  
induced by hydrocortisone,  
523
- response to insulin-induced hy-  
poglycemia in thyrotoxico-  
sis, 525
- secretion after intramuscular glu-  
cagon administration, 520
- secretion, control mechanism of,  
74
- secretion during induced sup-  
pression of pituitary-adrenal  
function, 272
- secretion in man, stimulation of,  
146
- study of rat growth release fac-  
tor, 149
- synthesis and release, effect of  
epinephrine on, 441
- theophylline and epinephrine  
effects on in vitro secretion  
of, 277

## SPECIES SPECIFICITY

- of leukocytic pyrogen, 327

## SPERMATOZOA

- duration of transport through  
ductular system, 150
- spermatogenesis in XXY/XY pa-  
tient, 148

## SPHEROCYTOSIS, HEREDITARY

- circulating lactate dehydroge-  
nase in, 542
- platelet membrane defect in,  
304

## SPIROMETRY

- in chronic obstructive pulmonary  
disease, 57

## SPIRONOLACTONE

- comparison with triamterene and  
MK 870, 140

## SPLANCHNIC VESSELS

- flow-pressure relationships in,  
447

## SPLEEN

- contraction in rats, 537
- erythroid colonies, effect of  
chloramphenicol on, 124
- regulation of factor VII, 541
- stem cells, 541
- transfer of "anamnestic" tolerant  
responses to endotoxin by  
cells of, 337

## SPLEEN TRANSPLANTATION

- in experimental hemophilia, 310

## SPLENECTOMY

- effect on endotoxin tolerance  
without anti-"O" antibody,  
337

## SPLENIC NEOPLASMS

- primary malignant lymphoma,  
359

## SPRUE

- "hypogammaglobulinemic," 117

## SPRUE, TROPICAL

- jejunal crypt cell and marrow  
morphology in, 43, 315

## SPUTUM

- gram stain in diagnosis of bac-  
terial pneumonia, 48

## STAPHYLOCOCCAL INFECTIONS

- immune and normal opsonins in,  
461
- lysostaphin-methicillin therapy  
of, 46

## STAPHYLOCOCCAL PHAGES

- activity, prevention by antigen A precipitins in human sera, 85, 332

## STAPHYLOCOCCUS

- antigens of, causing in vitro release of leukocyte histamine, 85
- antigens which mediate histamine release, 460
- epidermidis, elastase from, 260
- lysostaphin-induced spheroplasts of, 336
- methicillin resistance of, 327
- penicillin resistance of, 157
- penicillinase activity in, 46
- $\alpha$ -toxin causing uncoupling of oxidative phosphorylation, 548

## STARCH

- digestion in pancreatic insufficiency, 284

## STARVATION

- effect on glucose absorption from jejunum, 279
- patterns of gluconeogenesis during, 348
- prolonged, endocrine effects of, 116

## STEROIDS

- ACTH role in synthesis of, 265
- binding by phytohemagglutinin-treated lymphocytes, 534
- effect on permeability across gastric mucosa, 289
- induction of hepatic 5-aminolevulinic acid synthetase, 351
- induction of suppression of PHA response of lymphocyte cultures, 308
- inhibition of aldosterone biosynthesis in adrenal mitochondria, 338

## STEROLS

- biosynthesis by adrenals after ACTH treatment, 441

## STOMACH

- distention after antral denervation, effect on gastric secretion, 449
- effect of pentagastrin and pancreozymin-cholecystokinin on, 282
- gastrointestinal absorption of copper, 152

## STOMACH NEOPLASMS

- selective enzyme hypersecretion in, 78

## STOMACH TRANSPLANTATION

- survival, function and immune rejection of canine allografts, 119

## STREPTOCOCCAL INFECTIONS

- L-form in rats, effect of water diuresis on, 46

## STREPTOCOCCUS

- comparative sensitivity to antibiotics, 157
- nephritogenic group A, virulence of, 84, 331

## STRESS

- effect on myocardial pyruvate metabolism, 241
- effect on plasma 17-hydroxycorticosteroids, 269

- heat stress causing acute kidney failure, hypercatabolism in, 568

- shearing stress inducing hemolysis, 80

## STRONTIUM

- effect on contractility of isolated detrusor muscle, 348

## SUCRASE

- jejunal activity, control of, 292

## SUCROSE

- control of jejunal sucrase and maltase activity, 292

## SUGARS

- pattern in normal human urine, 556

## SULFAMYLOX

- excretion rates and metabolism of, 460

## SULFATES

- sulfation factor activity in serum, 83
- sulfation factor in cartilage, 465
- uptake by mouse Harderian gland, 526

## SULFOBROMOPHTHALEIN

- maximal excretory rate in portal hypertension, 288

## SULFONYLUREAS

- antithyroidal effects of, 114

## SURFACE TENSION

- isolation of protein-free lung surfactant, 562
- isolation of pulmonary surfactant, 472
- new determination method for study of pulmonary surfactant, 473
- of lung, effect of nebulized ethanol on, 133
- surfactant in human lung lavage effluent, 88
- surfactant in lung samples from patients with cardiac disease, 89

## SURGERY, OPERATIVE

- computer-assisted predictions of outcome of, 366

- pre- and postoperative serum creatine phosphokinase levels, 518

- serum free amino acid levels in patients after, 88

## SWEAT

- Na secretion and reabsorption in, effect of ouabain, 168

## SYMPATHETIC NERVOUS SYSTEM

- adrenergic function in essential hypertension, 234
- interaction with parasympathetic outflow in bronchoconstriction, 560

## SYMPATHOLYTICS

- MJ 1999, blockade of myocardial effects of isoproterenol, 249

## SYNOVIAL FLUID

- breakdown product of  $\beta$ 1c globulin in, 84
- chemotactic activity in rheumatoid arthritis, 326

## TAPEWORMS

- substrate conversion to  $\text{CO}_2$ , continuous measurement, 329

## TASTE

- impairment by penicillamine, 344

## TAURINE

- biosynthesis of, role of cystamine, 339
- glycine: taurine ratios of bile salts in ileal disease, 284

## TEARS

- anodal protein in, enhancement of muramidase activity, 561

## TECHNETIUM

- perchnetate brain scanning in hydrocephalic children, 569

## TELANGECTASIA, HEREDITARY

- arteriovenous shunts and aminoaciduria in, 282
- effective control of bleeding in, 123
- visceral angiodysplasia as manifestation of, 151

## TEMPERATURE

- effects on smooth muscle of blood vessels of skin and mesentery, 258

## TESTIS

- function in men with hyposmia, skeletal anomalies and retarded sexual development, 261

- Leydig cells, effect of human chorionic gonadotropin on, 115

- metabolism of inositol, alteration by galactose feeding, 465

- retarded development in patient with cleft palate and non-mongoloid G/G translocation, 36

- Sertoli cells in hypophysectomized rats, effect of FSH on, 113

## TESTOSTERONE

- binding to plasma globulin in man, 35

- dihydrotestosterone as active form of, 74

- plasma levels in hirsute women, effects of estrogen on, 523

- production and metabolism in man, 35

- radiostereoisotopic assay of, 277

- serum levels in idiopathic hypogonadotropic hypogonadism, 445

## TETRACYCLINE

- induction of fatty liver, 37
- insoluble and soluble forms, renal penetration in pyelonephritis, 389

## TETRALOGY OF FALLOT

- response to exercise in, 370

## TETRODOTOXIN

- pharmacology of, 73

## THALASSEMIA

- alpha-, in Negroes, 534
- mild homozygous, 536
- prevention of bone malformations and cardiomegaly in, 311

- proteolysis of excess alpha chains in, 533

- THEOPHYLLINE**  
 effect on plasma Ca and P, influence of cortisone on, 463  
 effect on respiratory smooth muscle, 471  
 effect on secretion of somatotropin and thyrotropin in vitro, 277  
 hyperglycemic effect of, 557
- THERMODYNAMICS**  
 Onsager's reciprocal relation in membrane transport, 59
- THIAMINE PYROPHOSPHATE**  
 deficiency in RBC's from infected patients, 330
- THIRST**  
 loss after brain concussion, 136
- THORACIC RADIOGRAPHY**  
 plain chest films in left ventricular enlargement, 250
- THROMBIN**  
 stimulation of fatty acid oxidation by platelets, 302
- THROMBOEMBOLISM**  
 glyceryl guaiacolate in prevention and therapy of, 41
- THROMBOPENIA**  
 effect on development of atherosclerosis, 41  
 hereditary, with intrinsic platelet defect, 539  
 in malaria, 313  
 thrombopoiesis in, 154
- THROMBOPHLEBITIS**  
 leading to silent pulmonary emboli, detection of, 369
- THROMBOSIS**  
 induction by electric current, 42  
 therapy by defibrination with new anticoagulant, 221
- THYMIDINE**  
 as granulocyte label, 81  
 incorporation into DNA, effect of x-irradiation, 125
- THYMOMA**  
 association with nonthymic malignant disease, 363  
 gamma globulin inhibitor of erythropoiesis in plasma from, 536
- THYMUS GLAND**  
 anaerobic glycolysis in slices of, 363  
 anti-thymus serum, immunosuppressive action of, 322  
 cell turnover in, 44  
 grafts from low-leukemic mice, effect on tumor growths in high-leukemic mice, 471  
 morphology of, in malignant disease, 363
- THYROCALCITONIN**  
 disappearance rate from plasma and volume of distribution in rats, 442  
 effect of adrenal cortex hormones on action of, 276  
 effect on bone formation and resorption, 146  
 effect on bone matrix metabolism, 443  
 effect on bone resorption, role of serum Ca, 261  
 influence of sex hormones on action of, 442
- porcine, effect on P clearance in dogs, 388
- THYROID ANTAGONISTS**  
 inhibitory action of, 116  
 sulfonyleurea compounds, 114  
 therapy of Graves' disease, 268, 441
- THYROID DISEASES**  
 distribution of injected thyroxine in, 149  
 erythrocyte carbonic anhydrase activity in, 265  
 multiphasic approach to diagnosis of, 113  
 weight loss in, 76
- THYROID GLAND**  
 adenylyl cyclase activity in vitro, stimulation by thyrotropin, 278  
 antithyroidal effects of sulfonyleurea compounds, 114  
 effect on 3-nitro-L-tyrosine on function of, 267  
 effect of normal iodine intake in iodine-deficient rats on, 463  
 function in Turner's syndrome, 271  
 influence on contractile properties of isolated skeletal muscle, 266  
 iodide release, effect of surgery on, 273  
 iodide transport defect of, 267  
 mechanism of stimulation by LATS, 263  
 thyroid tissue role in hypercalcemia in hypoparathyroidism, 74
- THYROID HORMONES**  
 diminished response of riboflavin-deficient rats to, 525  
 maternal-fetal thyroid interrelationships, 525
- THYRONINE**  
 hydroxyl ionization and rates of iodination of, 442
- THYROTROPIN**  
 effect on sulfate uptake by mouse Harderian gland, 526  
 mechanism of release, 33  
 purification by ammonium sulfate extraction, 36  
 radioimmunoassay in humans, 115  
 stimulation of adenylyl cyclase in thyroid in vitro, 278  
 theophylline and epinephrine effects on in vitro secretion of, 277
- THYROXINE**  
 binding in man, effect of sulfonyleureas, 34  
 distribution after injection into patients with thyroid diseases, 149  
 ester formation during alcohol extraction of, 521  
 extravascular circulation and metabolism of, 274  
 free serum levels, measurement of, 147  
 hyperthyroxinemia without hyperthyroidism, 264  
 increased serum binding caused by epinephrine, 147
- metabolism in man, effect of chlorophenoxyisobutyrate on, 347  
 metabolism of various radiiodinated forms, 75  
 release by thyroid in thyrotoxicosis, inhibition by iodine, 276  
 serum free and bound levels, determination of, 147  
 serum free levels, diagnostic value, 148  
 turnover alterations in patients under clofibrate therapy, 34  
 turnover in euthyroid Graves' disease, 34
- THYROXINE-BINDING PROTEIN**  
 binding of triiodothyronine and thyroxine in man, effect of sulfonyleureas on, 34  
 isolation and characterization of, 522
- TISSUE CULTURE**  
 effect of cancerous serums on morphology of, 360
- TOLBUTAMIDE**  
 effect on binding of triiodothyronine and thyroxine in man, 34  
 effect on endogenous hypertriglyceridemia, 555  
 response of maturity-onset diabetes mellitus to, 554
- TOXINS**  
 purified staphylococcal  $\alpha$ -toxin causing uncoupling of oxidative phosphorylation, 548  
 toxic factor from scalded human skin, 458
- TOXOPLASMA**  
 antibodies against, in patients with malignant disease, 131
- TRACE METALS**  
 tissue levels in various diseases, 32
- TRACHEA**  
 injury from cuffed tracheal tubes, 471
- TRACHEOSTOMY**  
 care and control of bacterial colonization in, 334  
 respiratory pseudomonas infections in patients with, 56
- TRANSDUCER**  
 in identification of canine inferior esophageal sphincter, 448
- TRANSPLANTATION IMMUNOLOGY**  
 allograft survival, effect of subcellular fraction antisera, 83  
 early detection of homotransplant rejection, 164  
 immunosuppression by extracorporeal lymph dialysis, 83  
 serum cytotoxin in kidney transplantation rejection, 390
- TRICHLOROETHYLENE**  
 effect on lipid mobilization in rats, 552
- TRASYLOL** SEE KALLIKREIN-TRYPSIN INHIBITOR
- TRIAMTERENE**  
 comparison with spironolactone and MK 870, 140

- TRICHLOROCARBANILIDE**  
allergic photosensitivity to, 256
- TRICHOETHYLENE**  
effects on visual-motor tests, 478
- TRIGLYCERIDES**  
hepatic synthesis of, effect of carbohydrate, 86  
impaired secretion by liver caused by tetracycline, 37
- TRIIODOTHYRONINE**  
binding in man, effect of sulfonyleureas, 34  
effect on metabolism of adipose tissue in obesity, 338  
effect on metabolism of dipyrone, 463  
effect on  $\text{qO}_2$  of rat adipocytes, 264, 440  
ester formation during alcohol extraction of, 521  
induction of hypermetabolism, effect of propranolol on, 239  
role in maintenance of normal metabolism after therapy of thyrotoxicosis, 521
- TRISOMY**  
nonrandomness of 13-15/21 translocations, 120
- TRYPAN BLUE**  
inhibition of action of leukocytes on human fibroblasts, 45
- TRYPSIN ANTAGONISTS**  
serum alpha-1-antitrypsin, inactivation by bacteria, 461
- TUBERCULOSIS, PULMONARY**  
antidiuretic principle from lung tissue in, 116  
in heroin addicts, methadone in therapy of, 366
- TURNER'S SYNDROME**  
response to exogenous growth hormone, 444  
thyroid function in, 271
- TYRAMINE**  
effect of rest on forearm venous responses to, 247  
effect on forearm vascular response at lower body negative pressure, 243
- TYROSINE**  
iodination of, 442
- TYROSINE DEHALOGENASE**  
inhibitor of, effect on thyroid function, 267
- TYROSINE HYDROXYLASE**  
activity in neuroblastoma, 362
- ULTRASONICS**  
diagnostic, 66  
in determination of left ventricular pressure-dimension loops, 105  
in examination of lungs, 374  
scanning in patients with head injuries, 132
- UMBILICAL VEIN**  
patent, hemodynamics in portal hypertension, 512
- UREA**  
blood urea N and total body urea N in nephrectomized rats, 400  
effect on plasma glucose and insulin levels, 341  
excretion in chronic renal disease, effect of Na rejection on, 566
- UREMIA**  
accidental intravascular coagulation in, 155  
anemic, maintenance by dialysis without transfusion, 64  
bioassay of urinary parathyroid hormone in, 379  
correction of carbohydrate intolerance in, 396  
dietary therapy of, 389  
effect of i.m. glycerol injection on, 566  
effect of insulin in, 399  
glycogen metabolism in, 392  
heart contractility in, effect of digitalis, 253  
hyperlipemia in, 158  
implication of guanidinosuccinic acid as factor in bleeding in, 397  
insulin effect in, 66  
kidney homogenates from patients with, inhibition of erythropoietin activity, 62  
Na transport by erythrocytes in, 169  
plasma in, induction of ouabain-sensitive ATPase defect in healthy RBC's, 90  
potent diuretics in management of chronic cases, 398  
protein diet in, 138  
renal clearance of Ca and Mg in, 393  
ventilatory tests, diffusing capacity and gas exchange in, 559  
with hypertension, safe reduction of blood pressure in, 568
- URETER**  
peristalsis of, effect of diazoxide on, 474
- URIC ACID**  
in parotid saliva, 387  
monosodium urate, solubility in serum constituents, 321  
renal tubular reabsorption during infusions of hypertonic saline, 380  
renal tubular reabsorption in man, effect of volume expansion, 397  
urinary excretion of, effect of ethacrynic acid and chlorothiazide, 92  
venous levels in dogs with hyperuricemia, 464
- URIDINE**  
incorporation into RNA by intestinal epithelial cells, 39
- URINE**  
abnormalities in asymptomatic Negroes and whites, 477  
acidification during water diuresis, 65, 398  
device for quantitative culture of, 127, 327  
hyperviscosity in acute renal failure, 398
- UROGRAPHY**  
post-pyelography foreign bodies in kidney, 477
- UROKINASE**  
from humans, activation of primate plasminogen, 456
- UTERINE NEOPLASMS**  
fibroids, relation to hypertension, 73
- UTERUS**  
catecholamine oxidase from, 268  
synthesis of glycoprotein enzymes in, stimulation by estradiol, 82
- VAGOTOMY**  
effect on lower esophageal high pressure zone, 527  
effect on permeability across gastric mucosa, 289
- VAGUS NERVE**  
effect of stimulation on atrial and ventricular performance, 28
- VALSALVA'S MANEUVER**  
effect on lung diffusion of CO, 562  
in differentiation of functional and organic T-wave abnormalities, 29
- VASCULAR DISEASES**  
functional microangiopathy in alloxan diabetes, 443  
systemic vascular congestion, renal response to ethacrynic acid in, 135
- VASOCONSTRICTOR AGENTS**  
effects on large veins, 435
- VASODILATOR AGENTS**  
effect on large veins, 435  
effect on left ventricular function, 433  
effect on urinary Ca and Mg excretion, 384  
extraction from human kidney medulla, 248  
inhibition of norepinephrine-induced constriction of mesenteric arteries, 432  
stimulation of renin secretion in renal hypertension, 69
- VASOPRESSIN**  
effects on portal and systemic hemodynamics, 450  
in CSF, 262  
inappropriate levels, aldosterone secretion in, 66  
inappropriate secretion syndrome, 116  
inappropriate secretion syndrome, amelioration by ethacrynic acid or furosemide, 164  
induction of ACTH release from pituitary, inhibition by glucocorticoids, 34  
induction of ACTH release in vitro, 266  
injection causing increased erythropoietin excretion, 305  
inhibition of renal tubular reabsorption of Na, 563  
interaction with amphotericin B and Ca in toad bladder, 569

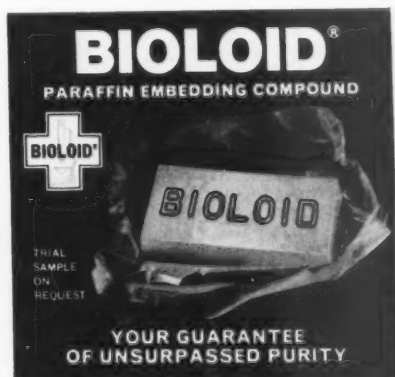

- VASOPRESSIN** (*Cont'd*)  
plasma levels in glucocorticoid deficiency, 266
- VECTORCARDIOGRAPHY**  
in aortic valve disease, 29  
in right ventricular hypertrophy, 228
- VEINS**  
effect of vasoactive drugs on, 435
- VENA CAVA, INFERIOR**  
constriction causing enhanced renal tubular reabsorption of Na in dogs, 387  
failure of grafts of, 517  
ligation, hemodynamic effects, 72
- VENOMS**  
bee venom, action of, 336
- VENTRICULAR FIBRILLATION**  
threshold, relation to cigarette smoke in dogs, 74
- VESTIBULAR APPARATUS**  
stimulation causing changes in heart rate and blood pressure, 510
- VIBRIO COMMA**  
endotoxin inducing intestinal secretion of bicarbonate, 447
- VIRILISM**  
adrenal venography in, 445
- VIRUS CULTIVATION**  
human and monkey liver organ culture for use in, 460
- VISION**  
visual-motor tests, effect of trichloroethylene on, 478
- VITAMIN A**  
therapy of scaling dermatoses, 255
- VITAMIN B 12**  
binder of, extraction from mouse liver mitochondria, 312  
intracellular pathway of intestinal absorption of, 294  
serum levels in normal rabbits, 542
- VITAMIN D**  
effect on intestinal absorption of calcium, 451  
metabolism in chronic renal disease, 337
- VITAMIN D DEFICIENCY**  
pathogenesis of wide osteoid seams in, 130
- VITAMIN E DEFICIENCY**  
accumulation of lipofuscin-like pigment in rats in, 276  
causing edema and anemia in premature infants, 155  
effect on mouse response to hyperoxia, 303  
hemolysis by peroxide in, 300  
relation to in vivo hemolysis during hyperoxia, 80
- WAR WOUNDS**  
shock in, therapy of, 107
- WARFARIN**  
binding to plasma albumin, 159  
pharmacodynamics in man, 311
- WATER**  
diuresis, urine acidification during, 398  
renal handling in dogs, effect of acetylcholine, 92  
variability in papillary region of rat kidney, 165
- WOUND HEALING**  
effect of methotrexate on, 257
- WOUNDS AND INJURIES**  
effect on glycoprotein turnover, 128  
metabolism of orosomucoid in, 469
- XANTHOMATOSIS**  
tendinous and tuberos, 87
- XENON ISOTOPES**  
cerebral clearance of, effect of indomethacin, 106  
in assessment of coronary blood flow, 224  
in measurement of regional ventilation-perfusion inequality, 55
- XYLOSE**  
intestinal absorption of, changes with age, 117
- ZIEVE'S SYNDROME**  
mechanism of anemia in, 79
- ZINC**  
transfer in hemodialysis, 476
- ZOLLINGER-ELLISON SYNDROME**  
hypergastrinemia in, 288  
suppression of gastric secretion in, 287
